

MEMORANDUM

Date: June 08, 2004
To: Water Right File 37-20550
From: jfreitag
Re: Comment/Analysis

Application is for several new ponds dug in natural swales.. Brockways analysis shows total use to be less than 2,500 gpd -see attached brockway narrative-

Application 37-20551 is for the same purposes as this application. Permits 37-8778, 8779, 8780, and 8781 are also existing on this property for stockwater and stockwater storage. Possible stacking of domestic/stockwater rights exists.

There are also transfer applications filed to account for irrigation around the ponds.
