37-20551

1. jfreitag 6/8/2004 Comment/Analysis

Comment:

Use is for 1000 head of cattle. Brockways analysis shows total use to be less than 13,000 gpd -see attached brockway narrative-

Application 37-20550 is for the same purposes as this application. Permits 37-8778, 8779, 8780, and 8781 are also existing on this property for stockwater and stockwater storage. Possible stacking of domestic/stockwater rights exists.

There are also transfer applications filed to account for irrigation around the ponds.

2. jfreitag 6/8/2004 Legal Notice Remarks

Comment: Application is proposing to provide water for stock from an existing well and a subsurface collector.

Located 9 miles east and 7 miles south of Fairfield, Idaho
