Re: Transfer 70262

In my recent letter I requested you complete the review of the place of use and boundary map for your organization. One of the purposes of the map is to determine the total number of acres irrigated within your organization's boundary. The water allocation section needs the total number of irrigated acres prior to the final approval of your transfer application #70262. The adjudication section needs the same information prior to completing the review of the claims you filed in the Snake River Basin Adjudication.

If you have questions or need assistance in completing the review of your map please call me at the number below. If you have questions about the withholding of your transfer application please call Pam Skaggs at 327-7943.

Cordially,

Mel Schulte
Senior Water Rights Agent
208-334-2190
