Dan -

To confirm our telephone conversation from a few minutes ago, I will submit the revised transfer application and withdrawal of the earlier application for amendment of permit to your office. You will refund \$10 to SSI (based on \$50 credit for withdrawal of the application to amend and \$40 increase for the higher diversion rate on the revised transfer)

Randy Shuman will submit the new amendment of permit directly to Kay at the State Office with a check for the \$50 fee.

Dan -

I am ready to deliver to you a signed withdrawal of application for amendment (63-31640) and revised transfer pages (63-10727 and 63-31640) associated with the proposed new well for SSI. However, SSI just faxed over a letter from Kay Walker with an Application for Amendment of Permit seeking to add a third point of diversion to 63-31640. What do you recommend that we do? Would it be most expedient to simply license 63-31640 with two points of diversion, and then add the additional points points of diversion? Seems like we could skip the amendment application and speed up the process with a single transfer application. Please advise. Thanks.

Terry
