Re: Middleton Irrigation Association Water Right Transfer

Recently, you called to request some supporting documents to the Application for Transfer of water right 63-125G filed by Middleton Irrigation Association.

Enclosed, please find a map indicating the location of the ponds in the Pinewood Lakes Estates near Star, Idaho. Evaporation from these ponds is the subject of the Application. Please accept this map as part of the Application for transfer.

Also, you requested proof that the pond owner (Pinewood Lakes LLC) has ownership of at least 10 shares of Middleton Irrigation Association Inc. in order to offer them for mitigation. Enclosed, please find copies of the Certificates issued by Middleton Irrigation Association to Pinewood Lakes Estates LLC. Ten of the shares are committed for mitigation per the Application for Transfer.

If you have any questions, please call.
