RE: Pinewood Lakes LLC Application for Permit - Mitigation

Dear Lori

On June 10, 2003, Pinewood Lakes LLC filed an Application for Permit to appropriate water for a pond at a development near Star, Idaho. To enable that application to be processed, mitigation is offered by way of transferring the 10 shares of Middleton Mill Irrigation Association water that previously irrigated that specific land to ground water recharge. I have enclosed the necessary Application for Transfer that when approved will fully mitigate for the water sought in the Application for Permit. Enclosed is the \$100 filing fee for the transfer of 0.2 cfs to ground water recharge.

If there are any questions, please call me.

Regards,
