Re: Transfer Application

Dear Westridge Owners:

The department is in the process of reviewing the transfer application filed by Westridge Owners Association. The transfer involves water rights 63-3017 and 63-3489. The purpose of the transfer is to add a well for Westridge Owners to use for irrigation within Westridge Subdivision.

Water right 63-3489 was licensed for irrigation use only. Water right 63-3017 was licensed for irrigation and domestic use. Before we can proceed with advertising, we need to know if the domestic use listed on water right 63-3017 is still occurring. If so, which home, lot and block does the well serve within the subdivision. If not, we will strike domestic use from the application and proceed.

Please submit this information as soon as possible so that we can resume processing. Feel free to contact me at this office if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads 'Lori Graves'.
