Re: Permit 37-08365

I have enclosed picture and a notice to the Blaine County Sheriff of the total destruction by vandalism of my hot water distribution system at the Magic Hot Springs. It will be necessary to totally rebuild it with a more damage resistant system, but due to the commencement of winter and contractor schedules of availability I cannot do this until the spring of next year. If I temporarily cap the hot well what will be the status of my permit? I want to be sure and protect all the rights afforded by the permit.

A recent professional study by Mr. Ellsworth of Carey on his hot springs would indicate that we are on the same fault and that it is possible the source for both of our water wells comes from as far away as the Teton Mountains, and is therefore a deep source reservoir. Would this change my current classification as a ground water source and therefore perhaps not be subject to permit?

Sincerely,

Norman E. Fuller

We have experienced considerable destruction by vandalism on our property at Magic Hot Springs boat landing. In addition to the list shown below, Blaine County signs at the boat ramp have been shot full of holes. If it is possible to have a patrol car visit the boat ramp more frequently you may discourage this vandalism. "No Trespassing" signs are posted in many locations.

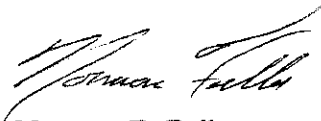

List of damage and value:

- | | |
|---|----------|
| 1. Hot water storage tower 25-30 bullet holes and water pipes and valves broken | \$ 2,000 |
| 2. Storage trailer has broken door and many bullet holes | \$ 1,000 |
| 3. Storage trailer tools and supplies stolen | \$ 750 |
| 4. Storage shed broken into, windows broken, covered with graffiti, tools and materials stolen or destroyed | \$ 3,000 |
| TOTAL (minimum value) | \$ 6,950 |

Please put this notice in your files and occasionally visit the site. You may possibly catch them. I have photos on all the above in my files.

A note to the Recreation Department, thank you for the north side fencing.

Thank you,

Norman E. Fuller
