Describe the reason for the proposed changes

Big Wood Canal Co. has a pipe south of Gooding that delivers water to the farm proposed place of use. this pipe is at capacity and no water can be added for delivery through that pipe. We have 2 points of delivery of canal water and since early 70's have moved water back and forth as needed to make best use of pumps and water. I am now selling the farm (current place of use) and will continue to deliver waste water from that farm and this well water as I need it to the farm (proposed place of use). I do not foresee or expect any increase in reliance upon the deep well. the current place of use has been planted in Alfalfa since 1998. the proposed place of use is currently in Alfalfa.

4. FOR CHANGES IN NATURE OF USE ONLY

A. Describe the expected quantity of the return flows and location of discharge after the proposed Change the well will remain in the same location and will be exposed to the same or fewer acres than before.

B. Describe the effects on other water uses resulting from the proposed change
 No increased use-well or surface water

5. Total Amounts Transferred

	Rate	Acre Limit	Total Acres	Volume
