Subject: Follow up for Bradford and Camille Shaw transfer

Hello Steve,

I am going through some of my on hold transfers and I haven't heard anything for few weeks on the Bradford and Camille Shaw transfer. This transfer was filed on water rights 63-4175 and 63-4176. These were statutory claims that the adjudication staff's recommendation was much different than what was claimed by the Shaws. You were going to check and see how the Shaws wanted to deal with this situation before we began processing the transfer. I am just checking to see if you have made any progress so far. There was a great deal of information in the recommendation to go over, but I thought I should try to keep in contact with you on this one, since it is so complex.

Thank you

Daniel A. Nelson
