RE: Water Right #45-13429
Transfer # 69737

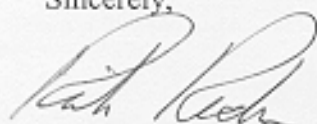

Dear Mr. Merritt,

Pursuant to the above mentioned water right and transfer number I am respectfully requesting that the department waive the time limit on the transfer of ground water from Tom Asher's well to Rich Redman and Gary Erickson

As you are aware Daryl Whitehead made a transfer on January 28, 2003 and had one year to drill a well. We are in the process of submitting a permit for a well. We are not sure if a change in use will occur as we are pursuing different uses of the water rather than irrigation. We are planning to construct a RV park and are in the process of estimating how much water it will require. We are simply asking for more time to figure things out how best to use the water right.

On another subject, the letter the Water Resource Board wrote regarding points of diversion for water right number 45-13464 has become misplaced and we need to change the point of diversion because the delivery ditch has been filled in. Please forward the same information to me so we can change the diversion.

Sincerely,

Rich Redman
