37-8903	NO	NO	YES	NO	NO	NO

Describe the reason for the proposed changes

This transfer redefines the commercial place of use to extend it on to additional lands acquired by Glanbia Foods Inc. The extended place of use will allow waste water generated at the cheese processing plant to be combined with the exiting ground water rights and surface water rights used for irrigation and spread it over the permissible place of use for the irrigation water rights. Associated transfer 71183 redefines the irrigation rights for a portion of the place of use used to dispose of the waste water. These two transfers in combination will allow flexibility in meeting IDEQ waste water application requirements.

4. FOR CHANGES IN NATURE OF USE ONLY**A. Describe the expected quantity of the return flows and location of discharge after the proposed change**

Does not apply.

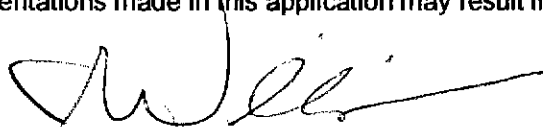

B. Describe the effects on other water uses resulting from the proposed change

Does not apply.

5. Total Amounts Transferred

Conditions/Remarks:

1. This right does not grant any right-of-way or easement across the land of another.
2. This right is for the use of trust water and is subject to review 20 years after the issuance of the permit to determine availability of water and to re-evaluate the public interest.
3. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 130.
4. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion.

5. Right 37-7051 is also diverted through the points of diversion described above.
6. Commercial use is for a cheese and whey products manufacturing plant.
7. The commercial place of use authorized by this approval includes land in the SW 1/4NW1/4 of Section 36, Township 5 South, Range 15 East, B.M., where the main commercial facility is located, and additional lands upon which wastewater may be applied to satisfy water quality requirements. Water diverted under this approval shall not be used for irrigation unless the water is first used in the commercial facility as authorized by this water right.
8. The right holder shall mitigate for the commercial use of water authorized under this right by discharging waste water from the manufacturing and processing plant into an unlined pond and causing the water to seep into the ground and/or by applying waste water from the manufacturing and processing plant to land authorized to be irrigated under Rights 37-7260, 37-7380A, 37-7380C, and 37-7576, and reducing the amount of water diverted for irrigation purposes under those rights.
9. Water diverted under Right 37-7051 shall not be counted toward the mitigation requirement for this right. Therefore, the amount of water seeping from the pond combined with the amount of the reduction of water diverted under Rights 37-7260, 37-7380A, 37-7380B, and 37-7576 shall equal or exceed the amount of water diverted under this right and Right 37-7051.
10. The right holder shall maintain records demonstrating compliance with the mitigation requirement for this right and shall provide those records to the Department upon request.
