

MEMORANDUM

Date: March 25, 2004
To: Transfer 71094
From: scox
Re: Evaluation Memordandum

This transfer proposes to change the point of diversion with a new well.

Authority to File:

Subject land is owned by J7 LLC, with evidence in transfer 70732.

Water Right Validity:

This right is based on license right. This water right is being used to irrigate this POU. Current landsat photo show irrigation in 2000. Forfeiture is not an issue.

Injury to Other Water Rights:

The change of point of diversion is moving from 2 wells in the SWNW to one point of diversion in the NWNW Sec 11 T15S R35E.

Enlargement of Use:

There is no observed or identifiable issues related to enlargement.

Local Public Interest:

It would appear to be in the local public interest to continue irrigation of this land.

Beneficial Use / Conservation of Water Resources:

The current irrigation practices provide techniques to efficiently manage irrigation water in a manner to achieve beneficial use and conservation of water resources.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
