RE: Transfer No. 71093

Dear Roger:

I received your letter dated April 21, 2004, following our discussion to adjust the location slightly in our application. I agree with the new location to move the well across the "Modelgrid" to avoid problems with the Eastern Snake Plaine Aquifer (ESPA) model.

The new location will work better for the county because our automatic drip system location for the trees is located closer to the new location.

If you have any questions, give me a call at 782-3170.

Sincerely,

A handwritten signature in cursive script, appearing to read "D. Babbitt".
