RE: Application for Transfer 71090
Water Right Number(s) 11-442 (06/01/1898), 11-2003 (11/18/1904)

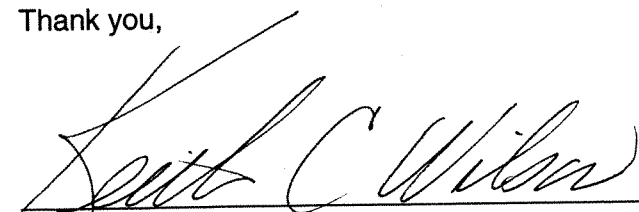

Dear Mr. Hill:

This office received the 'Recommendation of Watermaster' form that you submitted to this office, opposing the proposed transfer. In your remarks you state "...existing point of diversion is only available for use early in the season, then there is no water." I'm not sure exactly what you are saying, could you add any information explaining what this means.

Your opposition also continues with "...and would take away from downstream water right holders..." Would delivery of the water rights (11-442 & 11-2003) by priority keep this from happening?

I would appreciate talking with you about your opposition to this transfer. Your prompt response on or before April 20, 2004, would be appreciated.

Thank you,

Keith C. Wilson
Senior Resource Agent

4/15/04
Craig Hill called
① his statement was meant to be understood
as that there is physically no water
② that diversion.
③ wants me to include that if there
is no water at the old P/D no
diversion will be authorized.
