8-27-03

Mr Nelson,

My name is Carla Starkey, my husband Leonard and I applied for a water rights transfer July 1-03. I talked to Lori Graves at that time and also again today. She told me it was on your desk for processing.

My husband is eighty year old, has heart problems had a dit by-pass surgery, also has cancer so he trying to get things done for me if something should happen. Also Far West is developing above us and it has messed with our water at times. Would like to get this done before winter.

I know you are very busy and behind on applications but would appreciate any consideration in this matter.

Sincerely,  
Carla Starkey  
888-6873
