Transfer 71098-- water rights 35-2722, 7095E, 7778

I have reviewed the Groundwater Rights Transfer Spreadsheet for the change of 6 acres from my well in 1S, 33E sec 25 nwnwsw, (water rights 35-2722, 7095E, 7778) to my wells in 2S 34E sec 30 sene and nwsw 35-2080, 2110, 2313B.

The maximum diversion volume allowed for this 6 acres change of Place of Use would be 24 Acre/Feet/Year. The change of this water use/Point of Diversion shows an increase of at most 0.6 AF/trimester for only a short period of years in the Shelley to Neeley section of the Snake River.

To comply with the requirements of the transfer policy, I propose to reduce the Diversion Volume pumped from the 24 AF/a to 14 AF/a in the year 2004.

The combined diversion volume use will be reduced from a total of 1216 AF/a to 1206 AF/a for the year 2004, with all the water rights combined.
Water rights:35-2080, 2110, 2313B, 35-2722, 7095E, and 35-7778.
