

MEMORANDUM

Date: March 15, 2004
To: Transfer 70981
From: kwilson
Re: Time line for transfer

03-12-2003 Oxford Mountain Farm Inc. and Oxford Mountain Farm LLC are listed as business entities on the Idaho Secretary of State Web site. Brice and Marlene Checketts are officers in both organizations.

04-14-2003 Application for transfer submitted, and receipted. Mrs. Checketts informed that a copy of the warranty deed, any evidence of priority, and documentation as to the extent of development was needed for the transfer.

04-??- 2003 Application returned to my desk by Harold Jones informing me that in addition the information requested an on site examination would need to be conducted,

04-30-2003 Letter. Requested that additional information be submitted on or before 05/15/2003.

05-14-2003 Voice message. Mrs. Checketts requested that I contact her about my letter

05-15-2003 Returned phone call left message on answering machine that I was returning her call.

05-??-2003 Mrs. Checketts called saying that she had gathered almost all the documentation requested. She asked what other types of documents could be used. Brent Coats and Vern Curtis were previous owners of the dairy.

05-30-2003 Second letter. Requested additional documentation to be sent on or before 06/13/2003.

06-02-2003 Warranty deed from water right 13-7630 (T#70467) used to plat the place of use.

06-03-2003 Mrs. Checketts called wanted to know why so much information was needed and what would be evidence of priority. She was told that 13-4332 was only a beneficial use claim, and the department needed the evidence supporting the claim. She was told that a copy of the warranty deed was in the department files from transfer 70467 (right 13-7630), and that the departments records had been checked for related information.

06-12-2003 Mrs. Checketts called and said she had gathered together everything that she could, and would send the information. Winn Nelson was the owner prior to Brent Coats and Vern Curtis.

06-13-2003 Checked department files for documentation for Winn Nelson.

06-18-2003 Boise faxed copy of the 06/24/1961 well log for Winn Nelson. Statement on well log: ...This well has been deepened by some other driller...

07-03-2003 Mrs. Checketts called. Said that she has sending notarized statements from neighbors.

07-09-2003 Notarized statements dropped off at the Eastern Regional Office.

07-12 thru 07-22-2003 Annual leave.

08-13-2003 E-mail to Dwayne Mickelson at State Department of Agriculture requested historical dairy records.

08-25-2003 E-mail from Dwayne Mickelson dairy records kept by the Dairy Bureau (208-332-8550).

09-03-2003 Searched Internet for documentation as to production for the Checketts dairy.

09-10-2003 Called Dairy Bureau. Dairy Bureau took over the dairy program in 1995 and had requested all documentation. The Checketts filed a new dairy plan in 1995. When a new dairy plan is presented the only information available would be from the date that the last plan was filed. Any data prior to 1995 for the Checketts is not available.

It is the opinion of this resource agent that all avenues of research for documentation on the Checketts dairy have been exhausted. The documentation available for 13-4332, appears to be the affidavits submitted by the Checketts, and the well log for Winn Nelson.
