RE: Transfer beneficial use claim 13-4332

Dear Mr. or Mrs. Checketts:

On April 30, 2003, I requested the following documentation in order to process the application for transfer filed adding a point of diversion:

1. Copy of ownership records (Warranty deed).
2. Evidence of priority (documentation to establish the claimed priority of 04-01-1960).
3. Extent of development (documentation of the maximum number of cattle watered)

I also indicated that an on site examination of the system must be completed by the department prior to processing the application.

Mrs. Checketts called on May 14, 2003, and left a message requesting that I call her regarding my letter dated April 30, 2003. I was able to return her call on May 15, 2003, and left a message on the answering machine. Some time later Mrs. Checketts called and told me that she had gathered just about all the documentation and she asked me about what types of documents could be used.

The documentation has not been received as of the date of this letter. The documentation is vital to your application, without it, the processing cannot be completed.

After the documentation is received and reviewed you will need to contact this office so that we can set up a convenient time to complete the on site examination.

Please insure that all of the documentation is received in this office on or before June 13, 2003. After that date the transfer will be considered for cancellation.

Sincerely,

Keith C. Wilson
Senior Resource Agent
