RE: Apps For Transfer 70415 & 70433

Dear Mr. Dalley;

We still have not received the required lienholder permission letters (with notarized signatures) for the changes to your two farms proposed by these transfers. Please submit these letters to this office by January 26, 2004, so that processing of your applications can continue. If you need more time, it can be granted for sufficient cause upon written request.

In regards to Transfer 70433, you have requested 5 years to make all the requested changes to your south farm. I have been informed by our Boise office that further justification will be needed for us to grant more than two years. If you have additional information that you would like us to consider, please provide it in writing by the above date. If no other information is received, I will recommend that this transfer be approved for two years. You could still request additional time when the original period runs out, however, and I am told that it would probably be granted for reasonable cause.

Regards,

James E. Stanton
Sr. Water Resource Agent
