RE: App For Transfer 70433; Water Right 36-2197A

Dear Mr. Dalley;

While getting the printouts that you requested, I noticed that above-referenced water right is now owned by your son and his wife. It was owned by you and your wife when this application was filed, but apparently your son has since purchased the property in Sec. 7. It will be necessary to add him and his wife as applicants, and we will need their notarized signatures to cover their involvement in this process. Two blank signature pages are included for their use; they can sign on the same page or separately. Monday is the end of the protest period on this transfer, and no protests have yet been received. Even without any protests, the application will be held in my office until the notarized signatures are received.

Regards,

James E. Stanton
Sr. Water Resource Agent
