RE: Transfer Water Rights 31-2322 & 31-11229

Dear Mr. Deutscher:

I have been instructed to request a new map of the proposed place of use with a redrawn shape that approximates the 183 acres of these water rights. Since you are more familiar with the proposed place of use I thought it best to write to you.

To assist as a reference to the relative size of 183 acres on the proposed place of use, the enclosed map and aerial photo have the 183-acre shape of rights 31-2322 & 31-11229 overlaid (duplicates are included).

The prompt receipt of the amended map of the place of use will assist in the processing of transfer 70865.

Thank you,

Keith C Wilson
Senior Resource Agent
