RE: Richard Kechter Transfer # 69603

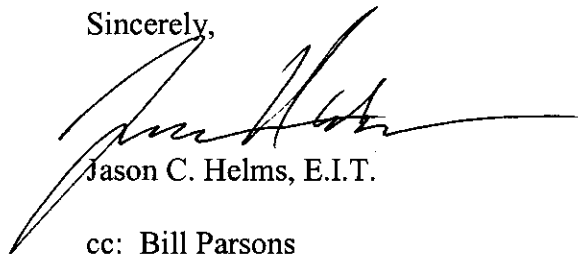

Dear Pam,

I am writing this letter on behalf of Richard Kechter to let you know that we are evaluating potential mitigation plans for Transfer #69603. The adjusted transfer will directly address mitigation concerns with either water bank rental or locally purchased water rights in order to balance any increased depletion indicated by the ESPA ground water model.

The amount and type of mitigation is currently subject to pending negotiations, however the exact details should be worked out very soon.

If you have any questions, please call.

Sincerely,

Jason C. Helms, E.I.T.
