Describe the reason for the proposed changes

This application satisfies the BLM objections to our water rights by removing water from federal land and re-arranging it onto our own property. The county road along the east side of our property is being moved a little further east., and we cannot move one of our pivots until this is done. We are therefore asking for 2 years to complete this project, as we are not sure when the road work will be completed by the county.

4. FOR CHANGES IN NATURE OF USE ONLY

A. Describe the expected quantity of the return flows and location of discharge after the proposed change

B. Describe the effects on other water uses resulting from the proposed change
