License of Water Right No. 63-7479 Priority August 20, 1971 Amount 7.0 cfs

THIS IS TO CERTIFY, that BOISE WATER CORPORATION
of Boise, Idaho, has complied with the terms and conditions of Permit
No. 63-7479 issued pursuant to Application for Permit dated August 20, 1971,
and has submitted proof to the Department of Water Resources on August 6, 1976,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 7.43 cfs of water from a ground water source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Municipal</u>	from <u>Jan. 1</u> to <u>Dec. 31</u> at <u>7.0</u> cfs and <u>n/a</u>		
	from _____ to _____ at _____ cfs and _____		
	from _____ to _____ at _____ cfs and _____		

(both dates inclusive)

Subject, however, to the condition that no more than 7.0 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
n/a acre feet per year, said waters to be diverted within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 22,
Twp. 3 N, Rge. 2 E, B.M. in the County of Ada

A measuring device of a type approved by this Department shall be permanently
maintained as part of the diverting works.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, as provided by the laws of Idaho.

Subject: New Well Site - File #B-172-71 - Broadway Ave. Well.

Gentlemen:

Enclosed please find the Water Rights Application of Boise Water Corporation for a new well to be known as Broadway Ave. Well located in the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 22, Township 3N, Range 2E, B.M., Ada County.

Mr. Charles Cope of Cope Drilling Company, Idaho Falls, Idaho has contracted to do the drilling for the Boise Water Corporation. We shall start this project by September 1, 1971 with hopes of completion by October 1, 1971.

It is felt that due to the added growth in Boise and the now inadequate supply we have in the south and north Boise areas that this well will be of great importance to our system. It is so positioned that it can serve the southern portion of the city leaving the now existing facilities in the north to handle their respective areas.

This water can also help supply the second bench area which is also quite deficient in high quality water. Together with this there has been inquiries for fire protection of commercial facilities which would demand up to 3000 GPM within the service area. In addition to this there is a proposed new high school in south Boise which would require fire and domestic service which we would not be able to adequately supply with our existing facilities. We feel that with the well at this site we shall be able to supply any foreseeable development adequate fire and domestic requirements.

Boise Water Corporation shall install and maintain permanent measuring device of the type approved by the department as a part of the

diverted works; this type of meter will be a propeller meter, Hersey-Sparling type. It shall be checked periodically to assure accuracy.

Enclosed is our filing fee in the amount of \$50.

Thank you for your cooperation.

Gentlemen:

One of the conditions of approval of your water Permit No. 63-7479 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dept. of Water Administration
Statehouse, Annex 2
Boise, Idaho 83707

Dear Mr. McEldowney:

We have received the copies of the above referenced application for permits for water appropriation and have the following comments.

In regard to the application for permit filed by Paul and Hilda Stewart, No. 36-7203, I could not locate any information in our files. It is noted that they propose to drill a test well to discover the availability and nature of the groundwater in the area. However, if this well should become part of a public water supply serving the subdivision they should first submit for our approval engineering plans and specifications of the water system.

We are aware of the water supply at Silver City as mentioned in the Silver City Taxpayers Association, Inc.'s application no. 55-7011. However, the supply has never been surveyed by us nor have we ever seen any plans of the water system.

We have reviewed and approved plans and specifications for the well which is to be drilled by the Boise Water Corporation here in Boise and is mentioned on Boise Water Corporation's application no. 63-7479.

We will include the copies of the applications in our files.

Sincerely,

Jerry L. Yoder
Sr. Public Health Engineer
