RE: Change of Ownership Request

Dear Heather:

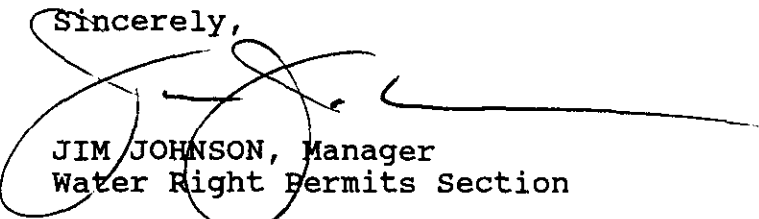

We are in the process of changing our records to reflect the changes of ownership that you have requested.

Our research has revealed four (4) statutory claims do not appear to have been claimed under Snake River Basin Adjudication (SRBA). For your information printouts for these rights are attached.

If you are using water under these rights, SRBA claims should be filed. Please review and advise us the action you wish to take regarding these water rights.

Please call our office if you have any questions regarding this matter.

RE: Permit No. G-28091

Parke P. Gavin, President
Sunrise Rim Water Corporation
2316 Sunrise Rim Road
Boise, Idaho

Dear Mr. Gavin:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-28091 shows the well(s) ~~is~~ (are) capable of conveying 86.5 miner's inches, or 1.73 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 10.00 , we will issue the Certificate of Completion of Works for 1.73 c.f.s. and the License and Certificate of Water Right for 1.73 c.f.s. confirming the right, with priority of August 5, 1959 , to the use of subterranean water with the point of diversion in the NE~~1~~SW~~1~~, Sec. 27, T. 3 N., R. 2 E., B.M.

Since the well in the NW~~1~~NW~~1~~, Sec. 27 has been licensed for .23 c.f.s. under License No. 20761 it cannot be included under this permit.

Very truly yours,

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. G-28091. The proofs are to be made at 2:00 o'clock P.M., on the 5th day of August, 19 64, before G. L. McAtsee, First Security Bank, Boise, Idaho, Notary Public.

As of this date, we have mailed the Notice to the Idaho Statesman Boise, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) July 2, 1964
(P. O.) Boise, Idaho

TO THE STATE RECLAMATION ENGINEER

Boise, Idaho

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the Idaho Statesman of Boise, Idaho published in the county in which the works are situated.

Parke P. Gaven
President - Sunvic River Water Corporation

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

Sun Rise Water Corporation

Boise, Idaho

Gentlemen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 28091 are due not later than August 14, 1964

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

CARL E. TAPPAN

State Reclamation Engineer

Mr. Parke P. Gavin
President
Sunrise Rim Water Company
2316 Sunrise Rim Road
Boise, Idaho

Dear Mr. Gavin:

The Commission has considered the proposal of the Company, dated September 8, 1961, together with the information gathered during the investigation of your system. In view of the fact that the Company has doubts of the reliability of Well Number 2 and that the Commission has not been furnished sufficient reliable information with respect to the present efficiency of either the pump on Well Number 1 or the pump on Well Number 2, it is therefore our opinion that sufficient reasons are evident to authorize the drilling of a third well under the following conditions:

1. That the Sunrise Rim Water Company submit plans showing the proposed design of the well in reasonable detail, including diameter, location, name of driller, etc.
2. To submit plans in reasonable detail on how this well will be connected to the present system.
3. That evidence be furnished by the Company that the State Board of Health has approved plans for this addition to the system.
4. That evidence be submitted by the Company that the State Department of Reclamation has approved the drilling of this well in accordance with their rules and regulations.
5. That the Company should notify the Commission at least one week before the commencement of drilling of Well Number 3.

It should be understood that this in no way eliminates the requirements for the Company to notify the Commission prior to pulling the submersible pump in Well Number 2 and the next draining of the storage tank.

Yours very truly,
