Re: Permit No. G-24995

Boise Water Corp.,
Box 548,
Boise, Idaho.

Attention: Mr. Walter H. Smith

Gentlemen:

We acknowledge receipt of the Deposition of Holder and two Witnesses, also Affidavit of Publication in the Idaho Daily Statesman, all submitted in Proof of Completion of Works and Application of Water to Beneficial Use on Permit No. G-24995.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this Department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Proof of Application of Water to Beneficial Use

and Completion of Works Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Walter H. Smith, 623 Idaho St., Boise, Idaho - Engineer

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Boise Water Corporation, Boise, Idaho, its Vice President

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-24995, Approved June 16, 1954, with date of priority June 16, 1954

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of supply is ground water by means of a subterranean well and the point of diversion is S 88° 50' W 522.52 feet distance from the N E Corner of the SE $\frac{1}{4}$ of the

SE $\frac{1}{4}$ of Section 1, T. 3 N., R. (2 E.) B.M. called Smith - should read T.E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

The well is 655 feet deep and contains 48 feet of 20" casing, 223 feet of 16" casing and 458 feet of 10" casing. The casing is perforated from a point 249 feet from the surface of the ground to a point 649 feet below the surface of the ground. Within the well is a Johnson Deep Well Turbine Pump with a 3 stage 10 A C 7 $\frac{1}{2}$ " impellers and powered by a 25 HP motor. The pump column length from the surface of the ground to the bottom of the suction of the pump is 95 feet. The pump is capable of diverting 450 gpm @ 107 ft. head to the water distribution system. Discharge varies with the head on the system and varies between 200 and 500 gpm and is measured through a Sparling Flow Meter. There is also a 7 $\frac{1}{2}$ HP 1 $\frac{1}{2}$ TLM Byron Jackson Centrifugal Pump distributing water from the well at times of low customer demand. This pump is powered by a 7 $\frac{1}{2}$ HP motor and is capable of delivering 160 gpm at 107 ft. head.

Dear Mr. Smith:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-24995, in the name of the Boise Water Corporation. The proofs are to be made at 10:00 A. M. on the 8th day of June, 1959, before Carey H. Nixon, Notary Public, at 112 N. 6th Street, Boise, Idaho.

As of this date we have mailed the Notice to the Idaho Daily Statesman, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed on behalf of the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (Holder and two Witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Application for Amendment

APR 8 1959
Department of Reclamation

To Permit to appropriate the Public Waters
of the State of Idaho, No. G-24995

Comes now Boise Water Corporation, and represents to the State Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-24995, and requests that the list of lands to be ^{served} ~~included~~, as described in said permit, be changed to read as follows:

City of Boise and vicinity

and that the water is to be used for municipal and domestic uses

making a total of _____ acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Boise, Idaho, this 8th day of April, 19 59

Boise Water Corporation
By Walter Smith, VICE PRES.

Date of receipt at office of Department of Reclamation April 8, 1959

APPROVAL OF STATE RECLAMATION ENGINEER

I, GEO. N. CARTER, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-24995. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Re: Permit No. G-24995

Date: April 1, 1959

Boise Water Corporation
Box 548
Boise, Idaho

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Benefi-
cial Use, as set out under the terms of Permit No. G-24995 are due not later
than June 16, 1959.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
