Linda Nelson

, being duly sworn,
deposes and says: That she is the Principal Clerk of The Idaho
Daily Statesman, a daily newspaper printed and published at
Boise, Ada County, State of Idaho, and having a general circula-
tion therein and which said newspaper has been continuously
and uninterruptedly published in said County during a period of
twelve consecutive months prior to the first publication of the
notice, a copy of which is attached hereto; that said notice was
published in the regular Monday edition of The Idaho Daily
Statesman in conformity with Sec. 60-108, Idaho Code, for

four consecutive weekly insertions

beginning with the issue of February 20, 1961,

and ending with the issue of March 13, 1961.

Linda Nelson

, Principal Clerk

Subscribed and sworn to before me this 18th day of

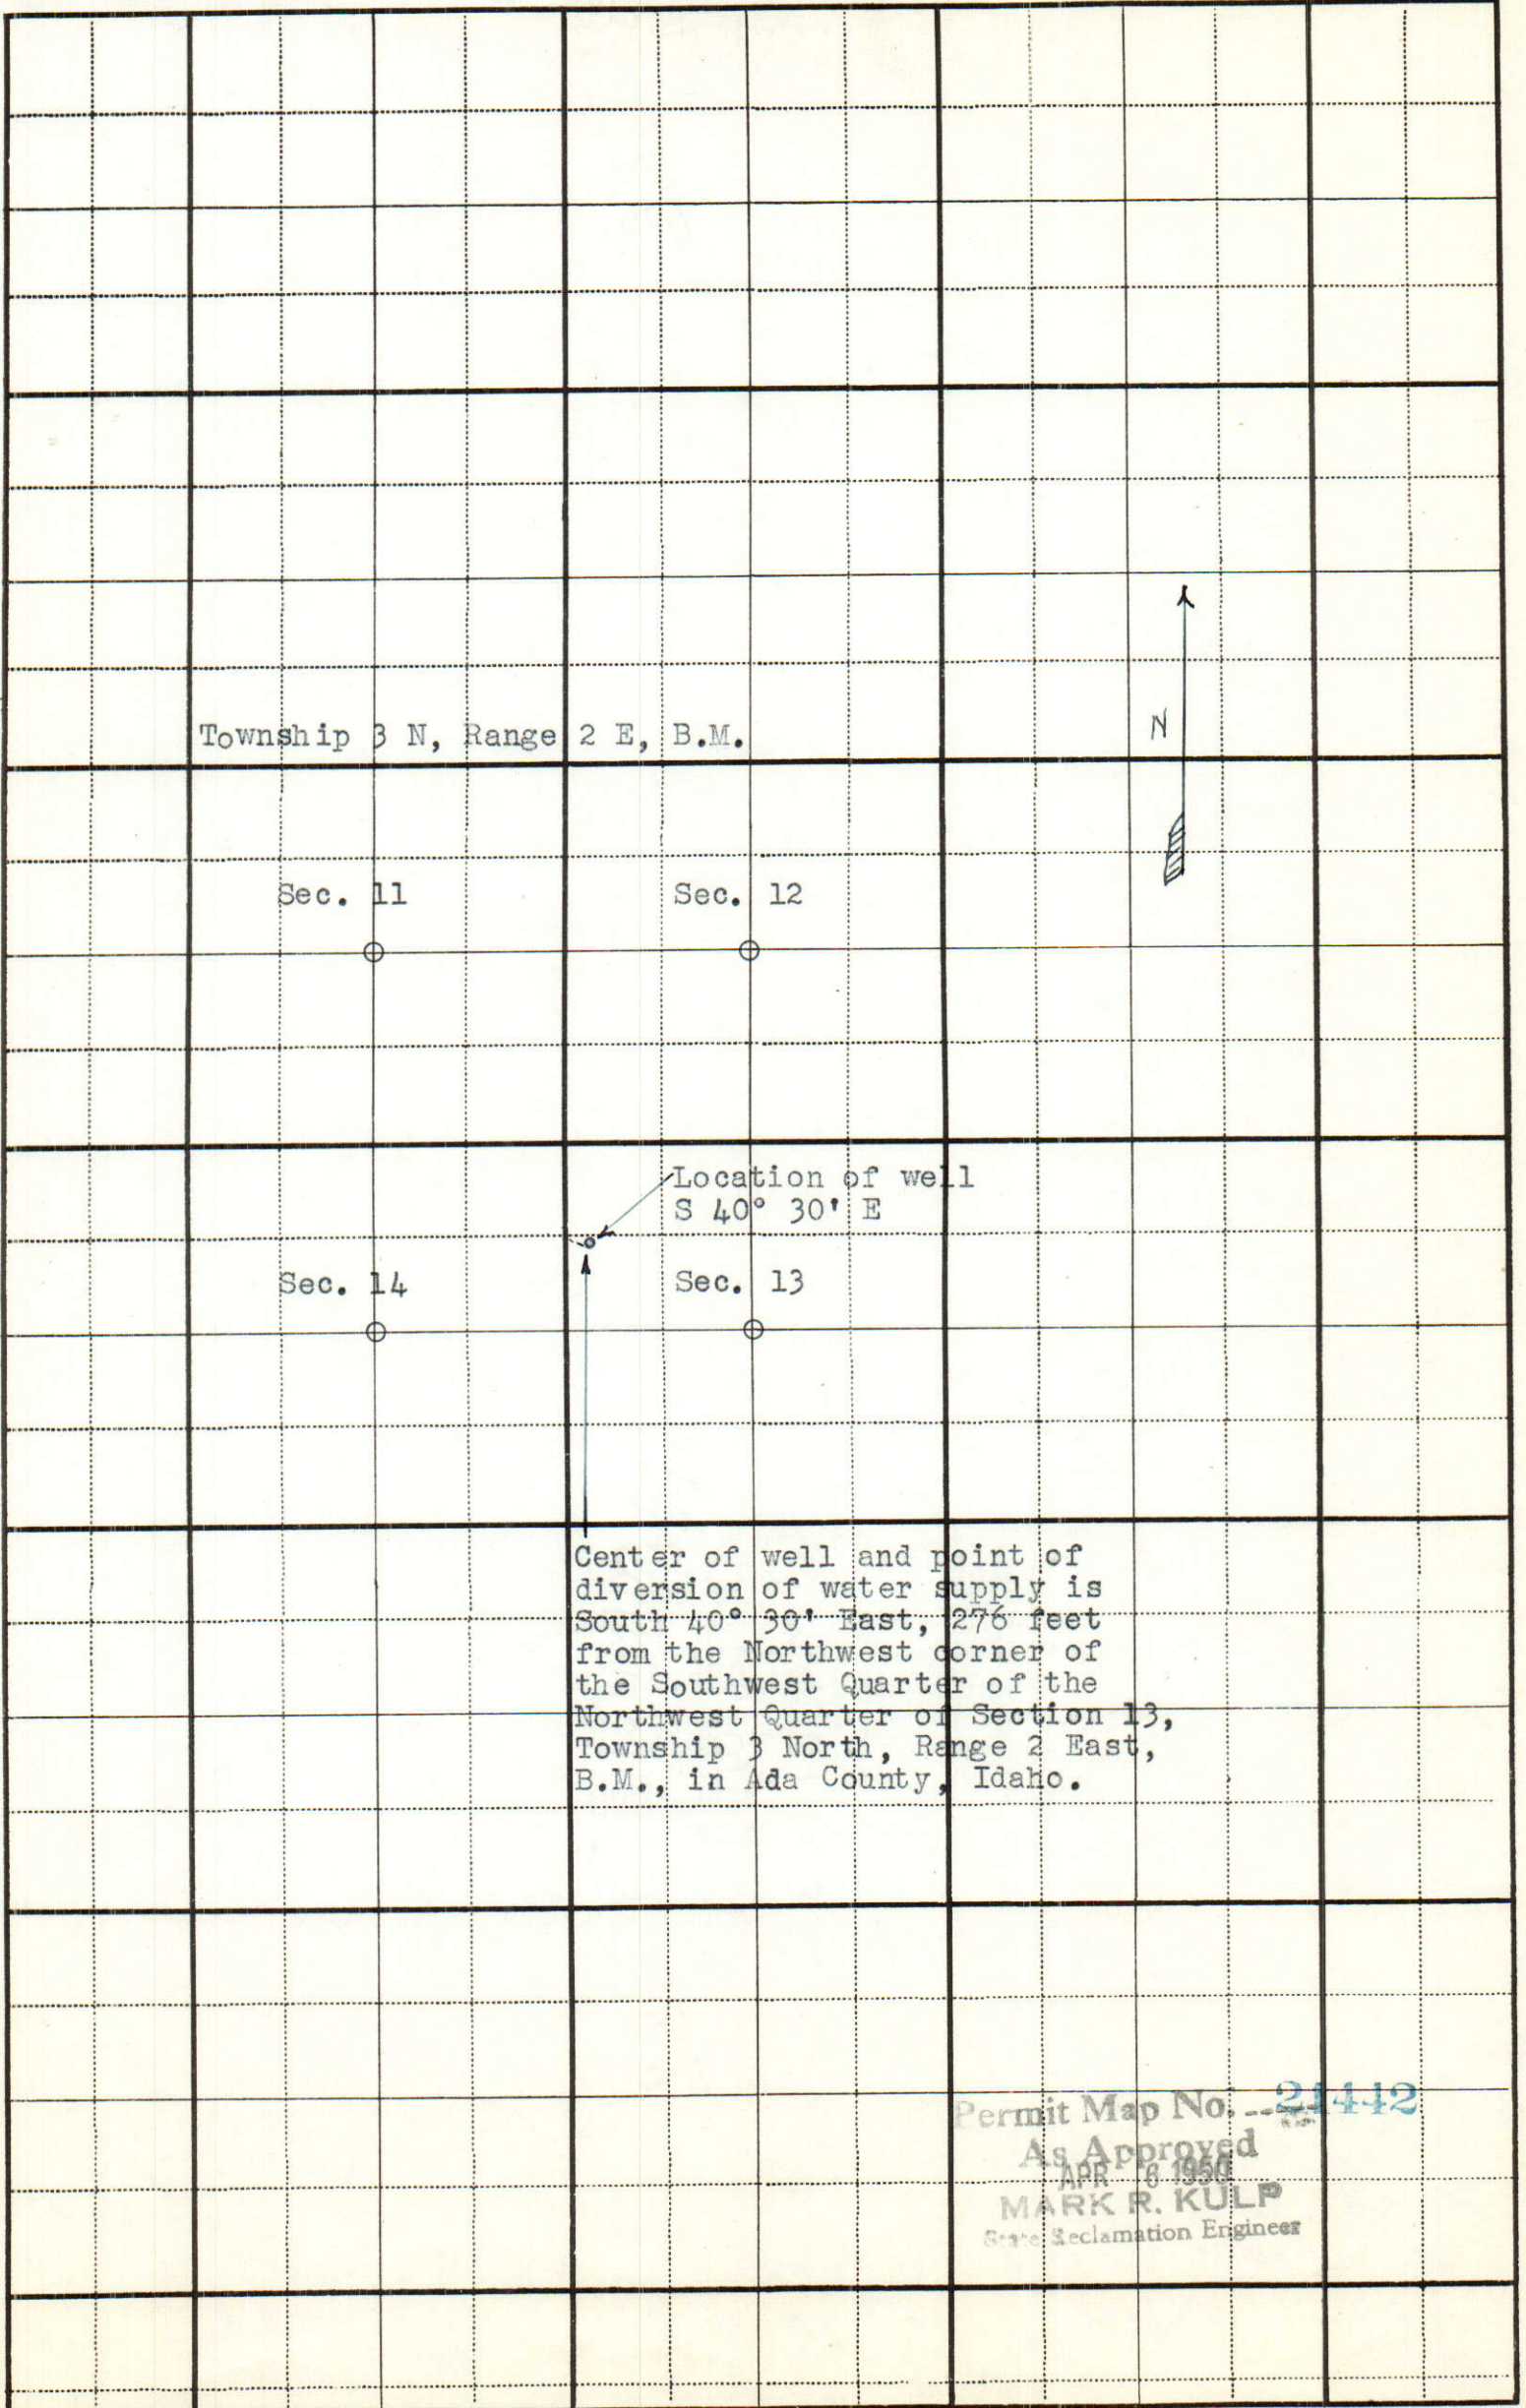

March, 1961.

Jona A. Young

Notary Public for Idaho, Residing at Boise, Idaho

NOTICE FOR PUBLICATION
NOTICE OF PROOF OF
APPLICATION OF WATER
TO BENEFICIAL USE
Notice is hereby given that at 10:00
A. M. on the 23rd day of March,
1961, at Boise, County of Ada, State
of Idaho, before Carey H. Nixon,
proof will be submitted of the appli-
cation to beneficial use of 6.0 cubic
feet per second of the waters of a
well in accordance with the terms
and conditions of Permit No. 21442
heretofore issued by the Department
of Reclamation of the State of Idaho.
The name and postoffice address
of the person or corporation holding
said permit are: Boise Water Cor-
poration, P. O. Box 1809, Boise,
Idaho.
The use to which said water has
been applied is Municipal Water
Supply.
The amount applied to beneficial
use is 2.3 CFS.
The place where said water is
used, give full and accurate legal
description: Boise, Idaho, and vicin-
ity.
The name of the canal or ditch or
other works by which said water is
conducted to such place of use is Not
Applicable.
The right to take water from such
works is based upon Permit No.
21442.
The source of supply from which
such water is diverted is Ground
Water.
Point of Diversion (legal descrip-
tion) 276 Ft. S 40° 30' E from the
NW Corner of SW 1/4 of NW 1/4 of
Sec. 13, T 3 N, R 2 E.
The date of priority which said
user is prepared to establish is April
3, 1950.
GEO. N. CARTER
State Reclamation Engineer.

APPLICATION No. 29131
PERMIT No. 21442
DISTRICT No.

Carey H. Nixon
Box 699, Boise, Idaho

1. Name of Applicant: BOISE WATER CORPORATION
- Postoffice address: Boise County: Ada State: Idaho
- I. If applicant is a corporation, give:
- (a) Date and place of incorporation: April 2, 1928- Boise, Idaho
 - (b) Amount of capital stock: \$1,750,000
 - (c) Amount paid in: \$651,000
 - (d) Names and addresses of directors: H. R. Vinson, Boise, Idaho; Carey H. Nixon, Boise, Idaho
O. P. Newman, Boise, Idaho
- II. The financial resources of the applicant are:
- (a) Cash on hand: \$18,716.44 as of Feb. 28, 1950
 - (b) Treasury stock: None
 - (c) Bonds to be issued: None
 - (d) Other resources: \$2,451,757.80 as of Feb. 28, 1950
2. Quantity of water claimed: Ten (10) cubic feet per second.
3. Source of water supply: Subterranean well 20" in diameter ~~which is a tributary of~~
S. 40° 30' E.
feet distant from the Northwest
4. Location of point of diversion: 276
of the SW ¹/₄ NW ¹/₄ corner of Section 13, T. 3 N., R. 2 E., B. M., and is in the SW ¹/₄ NW ¹/₄ of Section 13, T. 3 N., R. 2 E., B. M., County of Ada
5. Water is to be used for Municipal water supply for city of Boise
6. If for mining, milling, power or manufacturing purposes, give:
- (a) Point of use of water: feet distant from corner of Section
T. , R. , B. M., in the of Section , T. , R. , B. M.
 - (b) Amount of power generated: H.P., under feet head.
 - (c) Water is to be returned to at a point feet
distant from the corner of Section , T. , R. , B. M., in the
of Section , T. , R. , B. M.
7. Estimated cost of works: \$ 25,000.00
8. Kind of works: well complete with deep well turbine pump, driven by electric motor, together with plant and related facilities and connected to water distribution system of applicant.
9. Height of dam feet; length of dam at top feet; length of dam at bottom
feet; material used in dam:
10. Size of headgate: Width feet; height feet.
11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;
dimensions of flume:
Diameter of pipe inches; length of conduit miles.
Average grade per mile feet.
12. The time required for the completion of such work is Five (5) years.
13. The time required for the complete application of the water to the proposed use is Six (6) additional years.
14. The land to be irrigated is described in the following tabulation: See remarks.
15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:

ACTION OF IDWR

(X) Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. The permit holder or his representative shall notify the Department ten (10) days prior to the start of construction unless good cause for later notification can be shown.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

SPECIFIC CONDITIONS:

7. If a bottom hole temperature greater than 85° F is encountered during drilling, the well drilling and construction must cease and the well must be immediately and properly abandoned.

Dated this 5th day of December, 19 88.

Re: Permit No. 21442

Walter H. Smith, Vice-Pres.
Boise Water Corporation
623 Idaho Street, Boise, Ida.

Dear Mr. Smith:

Our field engineer's report on his inspection of the application of water to beneficial use under the terms of Permit No. 21442 shows the well is capable of conveying 155 miners inches or 3.10 c.f.s. of water for the municipal water supply for Boise and vicinity.

Upon receipt of the statutory fee of \$5.00 we will issue the License and Certificate of Water Right, confirming the right with priority of April 3, 1950 to the use of 3.10 c.f.s. of subterranean water with the point of diversion in the SW1/4, Sec. 13, T. 3 N., R. 2 E., B. M., for municipal use in the city of Boise and vicinity.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Describe works as they exist, giving dimensions and capacities of same: 150 HP G.E.Motor #206728592, B-J pump #343438, 140' x 10" column, 14" 4 stage bowls.Well 587' x 20" - casing 154' x 20" 451' - 16" cap. - hi - 37' d.s.s.spurling meter in line 8' from pump.5. Water is used for: Municipal water supply for city of Boise6. State whether or not water has been turned into works of diversion: yes.

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Boise City and adjacent territory

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: Mr. Robert Griffiths along.Measured by spurling meter in lineThis examination was made on the 3rd day of June, 19 61(Signed) Lloyd Johnson

Examiner.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Permit No. G 21442

Proof of Application of Water to Beneficial Use

and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Walter H. Smith, 623 Idaho Street, Boise, Idaho, Water Utility Operator.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Boise Water Corporation, Boise, Idaho - Its Vice-President

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G 21442, approved April 6, 1950 with date of priority April 3, 1950.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of supply is ground water and the point of diversion is a well situated in the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 13 T 3 N, R 2 E, B. M.

The well is 587' deep and contains 136' of 20" casing and 451' of 16" perforated casing. Installed in the well is a Byron Jackson deep well turbine pump with 3 KM 4 stage impellers and powered by a 150 Hp motor. The pump column length from the surface of the ground to the bottom of suction of the pump is 120'. The pump is capable of diverting 1,000 gpm at 260 ft. head to the water distribution system. Discharge varies with the head on the system and varies between 975 gpm and 1050 gpm.

Re: Permit No. 21442

Walter H. Smith, Vice President
Boise Water Corporation
623 Idaho Street
Boise, Idaho

Dear Mr. Smith:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Idaho Daily Statesman, all submitted in proof of ~~compliance with the requirements~~ beneficial use on Permit No. 21442.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

21442

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. G-21442

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Earl C. Reynolds, Jr. - over the age of 21 years - 628 Idaho Building
Boise, Idaho - Civil Engineer - Idaho License No. 718.

Ques. 2. Are you acquainted with Boise Water Corporation, the holder of Permit No. G-21442? How long have you known him and where does he reside?

Ans. Yes - 13 years - Boise, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-21442, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans.

The well is located in the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 13, T 3 N, R 2 E B. M. near Boise, Idaho. The source of water supply is from a subterranean well 587' below the surface of the ground. The well contains 132' of 20" casing and 451' of 16" perforated casing. Installed in the well is a Byron-Jackson turbine pump with 3 KM 4 stage impellers and powered by 150 Hp motor. The pump column length from surface of the ground to the bottom of the suction of the pump is 120'. The pump is capable of diverting 1,000 gpm at 260 ft. head to the water distribution system, discharge varies with the head on the system and varies between 975 gpm and 1050 gpm. The pump is connected to the distribution system by means of approximately 50' of 10" steel pipe and 970' of 20" cast iron pipe.

safely con-
second
ise City,
or gallons
imate the

Ans. At the time of inspection because of the low demand on the system it was not possible to operate the pumping facilities to place the water into the distribution system. I did witness the pumping equipment pumping water to waste. I have verified from the characteristic curves of the impellers and an inspection of the pumping record maintained on this pumping unit that in excess of 2.3 cu. ft. per second have been pumped to the water distribution system and placed in beneficial use.

Q State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

The supply works are capable of carrying in excess of 3 cu. ft. per second
Ans. from the well to the place of use, a municipal water supply for Boise City, Idaho and vicinity.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. At the time of inspection because of the low demand on the system it was not possible to operate the pumping facilities to place the water into the distribution system. I did witness the pumping equipment pumping water to waste. I have verified from the characteristic curves of the impellers and an inspection of the pumping record maintained on this pumping unit that in excess of 2.3 cu. ft. per second have been pumped to the water distribution system and placed in beneficial use.

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is from municipal water supply for Boise City and vicinity, Idaho.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Same as answer 7.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. No irrigation other than lawn sprinkling.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

I inspected the pumping equipment on March 17, 1961. I witnessed the pumping equipment in operation pumping the water to waste. I also examined the pumping records for this pump unit and verified in excess of 2.3 cu. ft. per second were pumped into the distribution system and delivered to the corporation's various customers and beneficially used.

RE: Permit No. 21442

Mr. O. P. Newman, Secretary
Boise Water Corporation
Box 548
Boise, Idaho

Dear Mr. Newman:

We have received no reply to office letter addressed you on September 18, 1951, in which we informed you that we could not accept proof of completion of works on Permit No. 21442 without publication of notice since this permit calls for 10 second feet of water. In that letter, we enclosed you the necessary forms of notice in connection with this proof and although proof is not actually due at present, if you wish to proceed to make the proof at this time, it is important that publication be started.

Please advise us as to your wishes in this matter.

RE: Permit No. 21442

Mr. O. P. Newman, Secretary
Boise Water Corporation
Box 548
Boise, Idaho

Dear Mr. Newman:

In checking your affidavit in proof of completion of works on Permit No. 21442, and office letters addressed you on August 21 and September 14, 1951, in regard to same, we overlooked the fact that this permit calls for ten (10) second feet of water.

In a permit of this size, the statutes require publication of a notice once a week for four consecutive week in a county newspaper before proof of completion of works is made.

This notice should be made in duplicate on Form 10 enclosed, setting the time and place, and naming the Notary Public before whom the proof is to be made. Both copies of Form 10 to be returned to this department together with Form 11, which is your authorization for us to have the notice published at your expense in the designated county newspaper.

We are sorry we overlooked this matter in the first instance, and meanwhile we hold to your credit the check for \$5.00 received this morning in payment of the statutory fee in connection with completion of works proof.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Mr. Carey H. Nixon
122 N. Sixth St.
Boise, Idaho

Dear Mr. Nixon:

In compliance with your letter of January 21, 1952, we have amended Permit No. 21442 of the Boise Water Corporation to show the quantity of water claimed as 6 cubic feet per second instead of 10 cubic feet per second.

We have also amended the proof of completion of works submitted on August 17, 1951, to show that the works are capable of conducting to the place of intended use, 3.5 second feet of water.

We enclose certificate of completion of works, issued under this permit, for the diversion of water from a well in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 13, Township 3 North, Range 2 East, B.M., for municipal water supply for the City of Boise and adjacent territory.

We also enclose departmental receipt No. 23793 for the \$5.00 fee paid in connection with proof of completion of works.

Boise, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 21442 is due not later than April 6, 1961. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a Notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--by 40-acre legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

Also enclosed is Form 11, which is the authorization for us to have the Notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permit No. 21442

Boise Water Corporation
P.O.Box 1809,
Boise, Idaho.

Gentlemen:

This acknowledges the Notice of Proof of ~~Completion of Work and~~ Application of Water to Beneficial Use under Permit No. 21442. The proofs are to be made at 10:00 o'clock A.M., on the 23rd day of March, 1961, ~~1959~~ before Carey M. Nixon, Boise, Notary Public.

As of this date we have mailed the Notice to the Idaho Daily Statesman with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
