RE: Permit No. 20118

Mr. Carey H. Nixon
112 North 6th Street
Boise, Idaho

Dear Mr. Nixon:

The report of our fielding engineer on examination for beneficial use on Permit No. 20118 of the Boise Water Corporation, shows that a well in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 8, Township 3 North, Range 2 East, B.M., will deliver a maximum of 2.14 cubic feet per second.

Therefore, upon receipt of the statutory fee of \$5.00, a license will be issued for that amount of water.

RE: Permit No. 20118

Mr. Carey H. Nixon
112 No. 6th
Boise, Idaho

Dear Mr. Nixon:

We have placed on file the depositions of the holder and two witnesses, also affidavit of publication in the Idaho Statesman, all in proof of beneficial use on Permit No. 20118 of the Boise Water Corporation.

Before final action is taken in the matter, the law requires that an examination be made by an engineer from this department.

We cannot say just when this examination will be made as this department has but one field engineer who makes examinations all over the State.

However, he will try to contact Mr. Newman or some representative of the company at the time the examination is to be made so that arrangements may be made to show him over the grounds.

Very truly yours,

May 2, 1949

Dear Sir:-

Under the terms of your permit No. ~~20118~~-----you are required to complete your diversion works on or before ~~July 18, 1949~~----- I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
