Dear Mr. Nixon:

We acknowledge receipt of the depositions of the holder and two witnesses, also affidavit of publication in the Idaho Statesman, all in proof of beneficial use under Permit No. 19415, of the Boise Water Corporation.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, as this department has but one field engineer, who makes examinations all over the state.

However, Mr. Tolman will make this examination at his first opportunity, and you will be duly notified when his report is filed.

PROOF OF COMPLETION OF WORKS

Boise, Idaho **May 2, 1945**

Dear Sir:-

Under the terms of your permit No. **19415** you are required to complete your diversion works on or before **July 8, 1945**. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
