LEGAL NOTICE

NOTICE OF PROPOSED CHANGE OF
WATER RIGHTS, TRANSFER NO. 4998

Notice is given that United Water Idaho of 8248 W. Victory Rd., Boise, ID 83709 has applied to the Department of Water Resources to change the Point of Diversion and Place of Use pursuant to I.C. § 42-222 for four ground water municipal rights recorded as follows (all sections shown are within T3N R2E Ada County):

License 63-02500, priority 8-30-1934, .80 cfs, diverted in NWNW S.10 (13th St. Well).
License 63-02874, priority 8-18-1951, 4.00 cfs, diverted in SENW S.9 (16th St. Well).
License 63-07067, priority 2-28-1968, 2.84 cfs, diverted in SWSW S.4 (Idaho St. Well).
Snake River Basin Adjudication (SRBA) beneficial use Claim A63-19456, priority 3-31-1953, 1.60 cfs, diverted in NWNW S.10 (same 13th St. Well as above).

Total amount of water for the above rights is 8.63 cfs. The licensed place of use (3 rights) is within the City of Boise. The beneficial use claim place of use includes the City of Boise plus an expanded service area certificated by the ID Public Utilities Commission (IPUC).

The licensed rights are claimed in the SRBA as licensed except the place of use lists the City of Boise plus the expanded service area noted in A63-19456.

PROPOSED CHANGE FOR ALL RIGHTS:

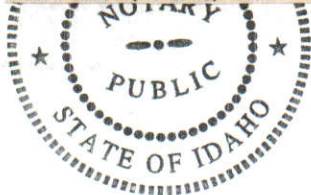

Add 2 new wells in NENW S.9 (27th St. Wells #1 & 2). Allow all four rights to use any combination of the existing and proposed wells as diversion points to serve the current and future IPUC certificated service area in and around Boise. Total amount of water used within the rights will not change.

Any protest against approval of the proposed change must be filed with the Department of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705-5082, together with a protest fee of \$25 on or before February 24, 1997. The protestant must also send a copy of the protest to the applicant.

Karl J. Dreher, Director

NOTICE FOR PUBLICATION

Notice of Proof Application of Water to beneficial use.

Notice is hereby given that at 10:00 A. M. on the 25th day of September, 1939, at Boise City, County of Ada, State of Idaho, before Carey H. Nixon, a Notary Public for Idaho, 112 N. 6th Street, in said Boise City, proof will be submitted of the application to beneficial use of 0.80 cubic feet per second of the waters of a well (subterranean) in accordance with the terms and conditions of Permit No. 18015 heretofore issued by the Commissioner of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Boise Water Corporation, 623 Idaho Street, Boise City, Idaho.

The use to which said water has been applied is a municipal water supply for Boise City, Idaho.

The amount applied to beneficial use is 0.80 cubic feet per second.

The place where said water is used is in Boise City, Idaho.

The name of the works by which said water is conducted to such place of use is water distribution system of Boise Water Corporation.

The right to take water from said well and diversion works is based upon Permit No. 18015.

The source of supply from which such water is diverted is a well (subterranean).

The date of priority which said user is prepared to establish is August 30, 1934.

JAMES SPOFFORD,
Commissioner of Reclamation.

NOTICE FOR PUBLICATION

Notice is hereby given that at ten o'clock, A. M., on the 16th day of May, 1938, at Boise City, County of Ada, State of Idaho, before Carey H. Nixon, a notary public for the State of Idaho, 112 North Sixth Street in said Boise City, proof will be submitted of the completion of works for the diversion of two (2) cubic feet per second of the waters of a well (subterranean) in accordance with the terms and conditions of a certain permit heretofore issued by the Commissioner of Reclamation of the State of Idaho.

1. The name of the person or corporation holding said permit is Boise Water Corporation.

2. The postoffice address of such person or principal place of business of such corporation is Boise City, County of Ada, State of Idaho.

3. The number of such Permit is 18015, and the date set for the completion of such work is September 25, 1938.

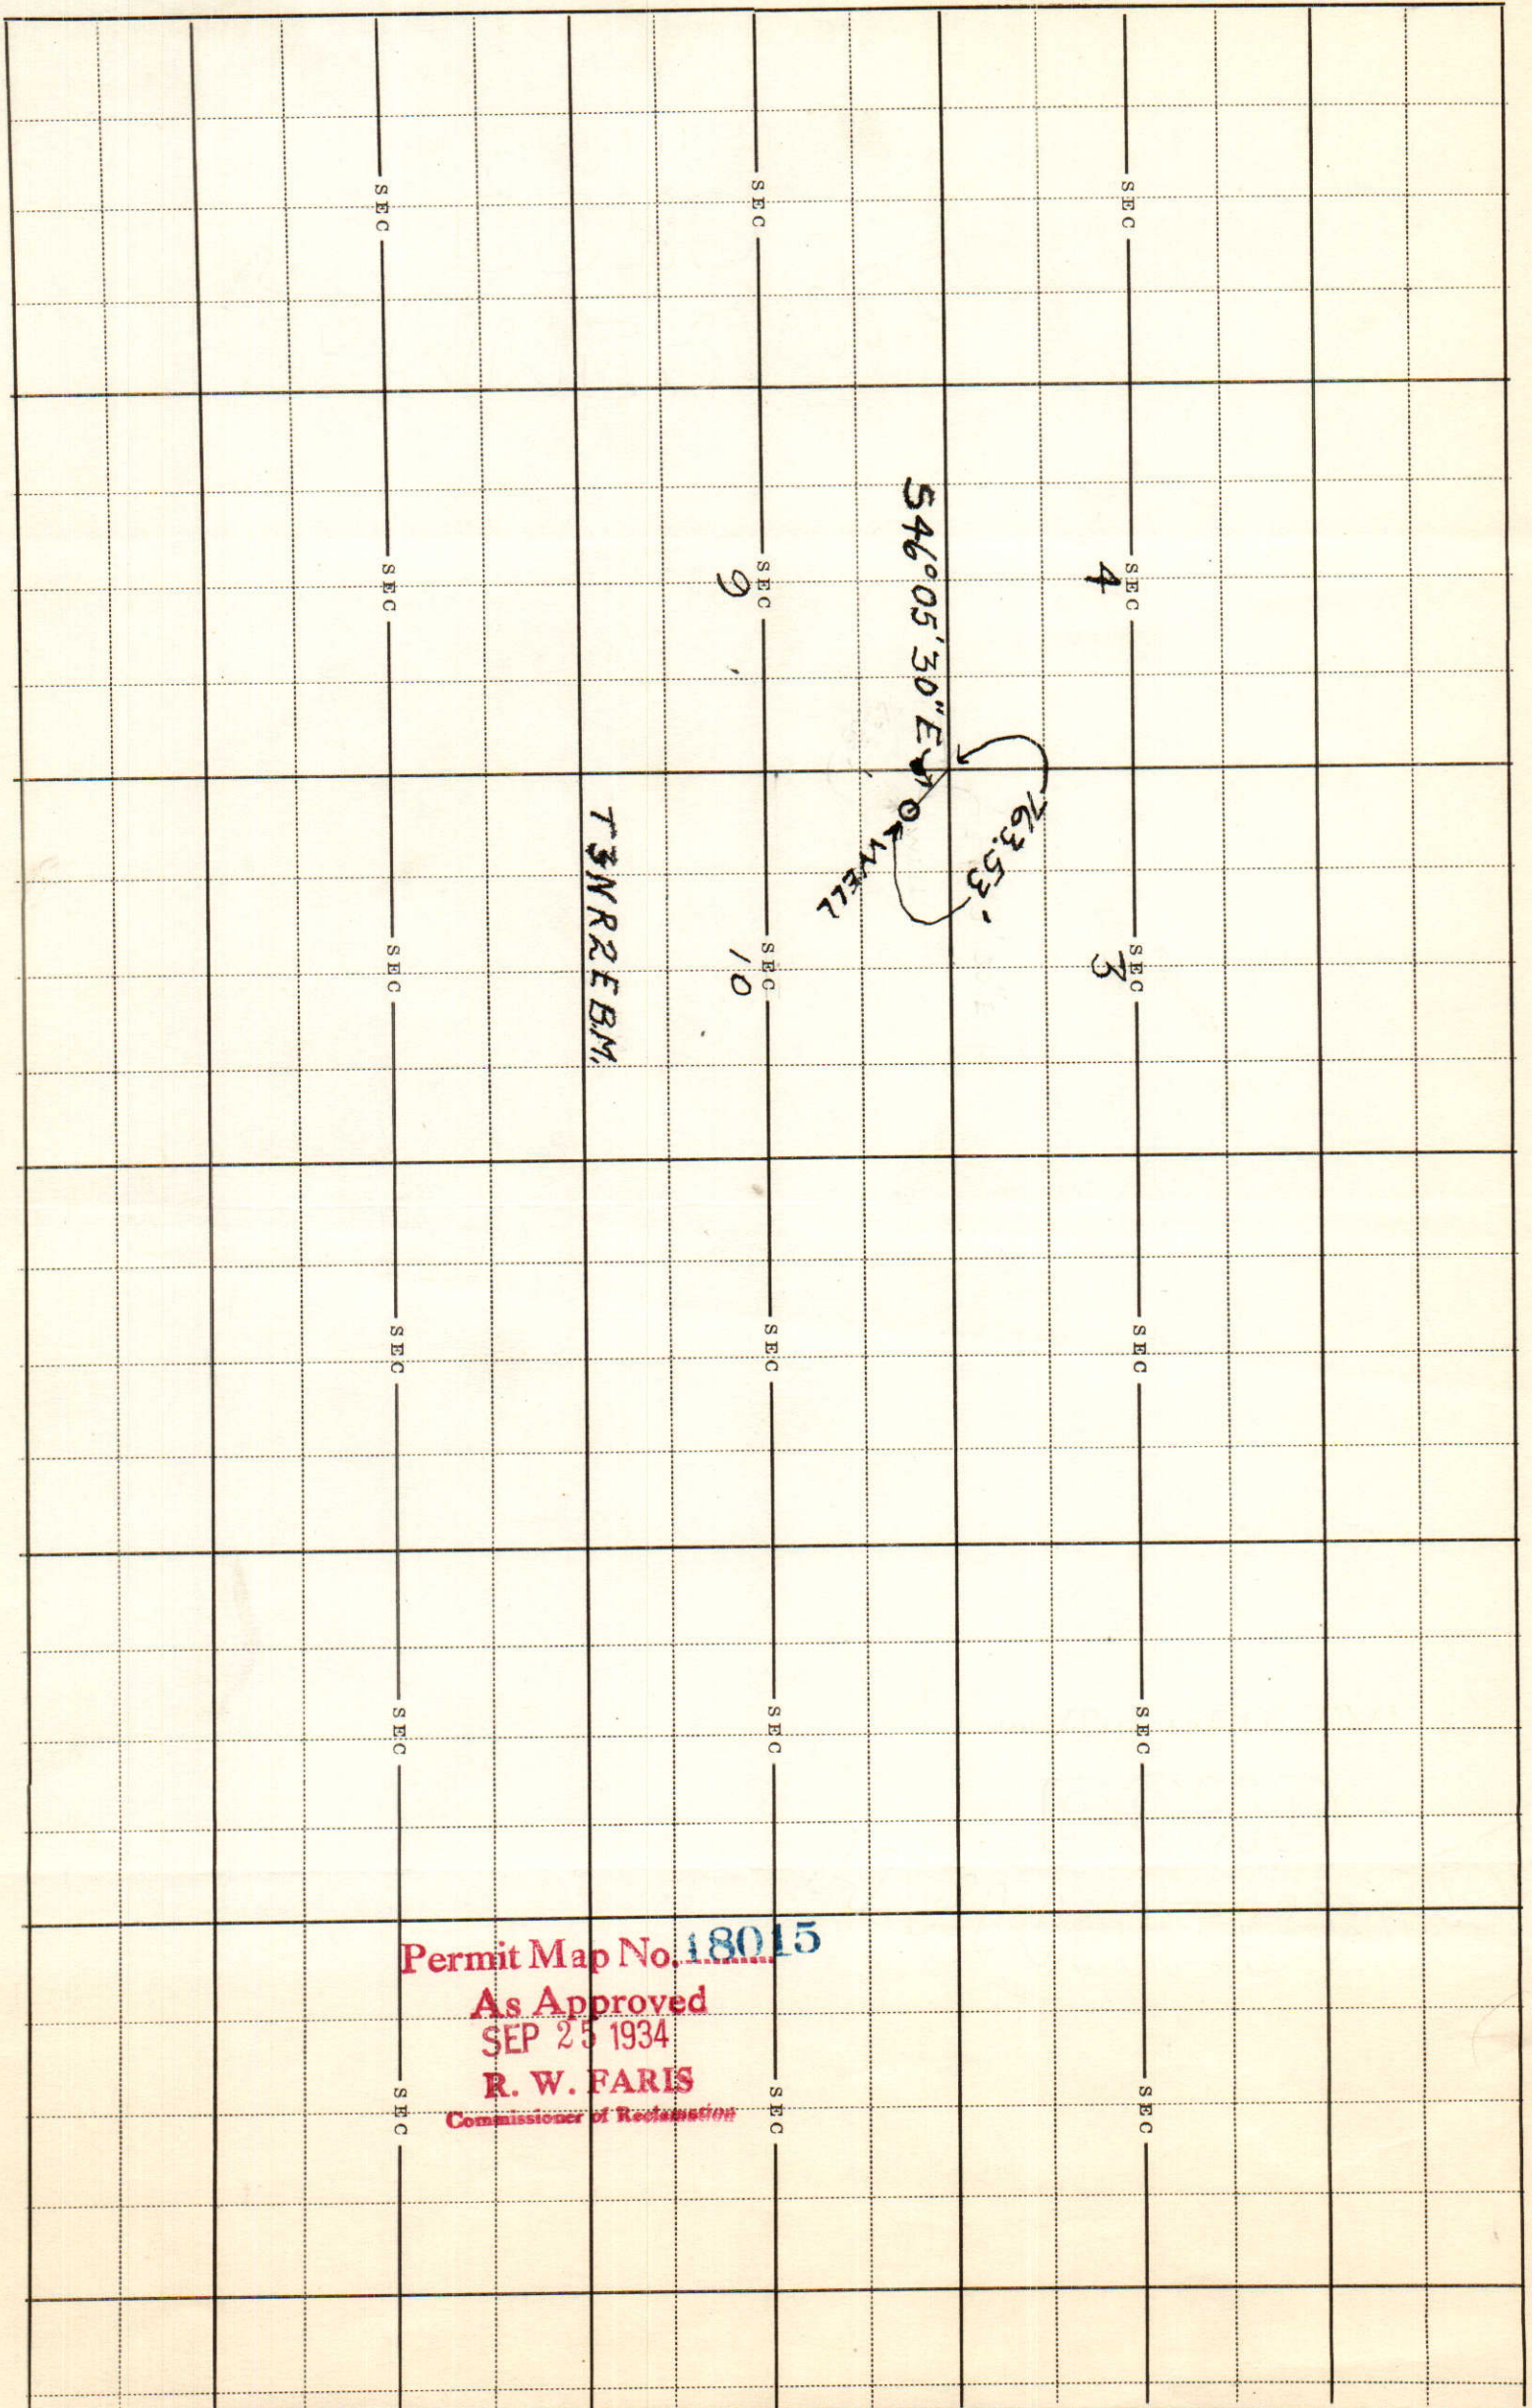

4. Said water is to be used for a municipal water supply for Boise City, Idaho.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit is two (2) cubic feet per second.

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

Application No. 25198
Permit No. 18015
District No.

1. Name of Applicant: BOISE WATER CORPORATION

Postoffice address: Boise County: Ada State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation: April 1928, Boise, Idaho
(b) Amount of capital stock: \$500,000.00
(c) Amount paid in: 500,000.00
(d) Names and addresses of directors: Wiley F. Corl, Philadelphia, Pa., R. Van Horn, Philadelphia, Pa.,
T. B. Jackson, Boise, Idaho

II. The financial resources of the applicant are:

- (a) Cash on hand: \$6,162.30 July 31, 1934
(b) Treasury stock: None
(c) Bonds to be issued: None
(d) Other resources: \$1,703,062.05

2. Quantity of water claimed: Seven cubic feet per second.

3. Source of water supply: Subterranean which is a tributary of

4. Location of point of diversion: 763.53 feet distant from the NW corner of Section 10, T. 3 N., R. 2 E., B. M., and is in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 10, T. 3 N., R. 2 E., B. M., County of Ada, on lot 3, Block 107, original Boise townsite.

5. Water is to be used for: A municipal water supply for the City of Boise.

6. If for mining, milling, power or manufacturing purposes, give:

- (a) Point of use of water: feet distant from corner of Section T., R., B. M., in the of Section, T., R., B. M.
(b) Amount of power generated: H. P., under feet head.
(c) Water is to be returned to at a point feet distant from the corner of Section, T., R., B. M., in the of Section, T., R., B. M.

7. Estimated cost of works: \$ 15,000.00

8. Kind of works: Well, equipped with deep-well turbine pump driven by an electric motor, connected to the distributing system of the applicant.

9. Height of dam feet; length of dam at top feet; length of dam at bottom feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet; dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile feet.

12. The time required for the completion of such work is two years.

13. The time required for the complete application of the water to the proposed use is three additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

PART 1

RECEIVED

NOV 17 1997

Name of applicant United Water Idaho (UWI) Phone 362-7332

Post Office address 8248 W. Victory Road, Boise, ID 83709

Department of Water Resources

A. PURPOSE OF TRANSFER

1. ☐ Change point of diversion ☒ Add diversion point(s) ☒ Change place of use
☐ Change nature of use ☐ Change period of use ☐ Other _____

2. Describe the reason for the proposed change 1) To bring water rights into accord with the expanding service area provision of Idaho's new Water Rights Act, 2) To provide additional points of diversion for aging wells with declining yield, and 3) To allow the wells subject to this Application to be used as alternate points of diversion for each other, and thus retain the water rights associated with these wells by diverting them from new points of diversion in the same aquifer.

B. DESCRIPTION OF RIGHT(S) OR PORTION THEREOF, AFTER THE REQUESTED CHANGE

- | 1. Right Number | Priority | Amount (cfs/ac-ft) | Nature of Use | Period of Use |
|-----------------|----------------|--------------------|------------------|------------------------|
| <u>63-7067</u> | <u>2/28/68</u> | <u>2.23</u> | <u>Municipal</u> | <u>Jan 1 to Dec 31</u> |
| <u>63-2500</u> | <u>8/30/34</u> | <u>0.80</u> | <u>Municipal</u> | <u>Jan 1 to Dec 31</u> |
| <u>63-19456</u> | <u>3/31/53</u> | <u>1.60</u> | <u>Municipal</u> | <u>Jan 1 to Dec 31</u> |
| <u>63-02874</u> | <u>8/18/51</u> | <u>4.00</u> | <u>Municipal</u> | <u>Jan 1 to Dec 31</u> |
2. Total amount of water being transferred 8.63 cubic feet per second and/or _____ acre-feet per annum.
3. Source of water groundwater _____ tributary to N/A
4. Point(s) of Diversion:

Lot	1/4	1/4	1/4	Sec.	Twp.	Rge.	County	Local name for diversion
	NE	SW	SW	4	3N	2E	Ada	Existing UWI Idaho Street Well
	NW	NW	NW	10	3N	2E	Ada	Existing UWI 13th Street Well
	NE	NE	NW	9	3N	2E	Ada	Proposed new UWI 27th Street Well #1
	NE	NE	NW	9	3N	2E	Ada	Proposed new UWI 27th Street Well #2
	SW	SE	NW	9	3N	2E	Ada	Existing UWI 16th Street Well

5. Lands irrigated or place of use:

The place of use in this application is United Water Idaho's service area, including future changes in such area. This service area is established, and changed from time to time, by order of the Idaho Public Utilities Commission ("IPUC") after opportunity for hearing and a factual showing demonstrating need. As the community and surrounding areas grow, and demand for municipal water supplies increases, United Water will make additional changes to its service boundary.

United Water Idaho is a "municipal provider" as defined in the Idaho Code, and is entitled to hold water rights whose place of use is a changing service area. I.C. § § 42-202B(2) and 42-219.

United Water Idaho's service boundary as of the date of this Application is shown on attached map titled "United Water Idaho's changing service boundary as certified by the Idaho Public Utilities Commission." This map also depicts the service area of Boise Water Company (United Water Idaho's predecessor) as certified by the IPUC in July 1958. This map demonstrates the amount of growth in United Water Idaho's service area in the 38 years since 1958, and it indicates the extent of change that might be expected in upcoming years.

PART 1

6. General Information:

a. Description of diversion system Idaho St. well is 24-inch diameter and 653 feet deep, 13th St. well is 24-inch diameter and 347 feet deep, 16th St. well is 20-inch diameter and 532 feet deep, and two 27th St. wells will be 18-inch diameter and #1 will be 565 feet deep and #2 will be 417 feet deep. All 5 wells will discharge into UWI's integrated distribution system.

b. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? N/A Yes N/A No. If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.

c. Describe the affect on the land now irrigated if the place of use is changed pursuant to this matter.

N/A

d. Remarks:

The purpose of this application is to add two additional points of diversion - the wells denoted as 27th Street wells #1 and #2 - to the permissible points of diversion for the four water rights subject to this transfer and to list all five wells as points of diversion for each of the four water rights subject to this transfer, without increasing the overall rate of diversion under these rights. After the transfer, each of the five wells will serve as an alternate point of diversion for the other four. The addition of these points of diversion is necessary because the 13th, 16th, and Idaho Street wells are aging and are beginning to decline in productivity. After the transfer is approved, UWI expects that within the five-year "prove up" period under Idaho Code sections 42-204, 42-218, and 42-128(a), it will produce and beneficially use the full rate of diversion from the 27th Street wells in lieu of pumping from the 13th, and Idaho Street wells. Consequently, the Application does not assert any claim for a "future need" component to these rights under the Municipal Water Rights Act, Idaho Code sections 42-202, 42-202B, 42-217, 42-219, and 42-222. Ultimately, UWI may elect to cap and otherwise abandon these older wells and rely entirely on the 27th Street wells, but for the meantime, it needs these wells as part of its supply.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Transfer of Water Rights No. _____

and said application is hereby _____, subject to the following limitations and conditions:

MICROFILMED

Witness my hand this _____ day of _____, 19 JAN 12 1998

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

Transfer No. 4998

APPLICATION FOR TRANSFER OF WATER RIGHTS

PART 2

(Attach one copy for each right)

A. DESCRIPTION OF RIGHT AS RECORDED

1. Right evidenced by:
 - a. Decree No. _____ Decreed to _____
in case of _____ vs. _____
dated _____ in _____ county of Ada
 - b. License No. 63-7067 issued by the Idaho Department of Water Resources.
 - c. Claim No. A63-07067 (see #9 below) on file with the Idaho Department of Water Resources.
 - d. Transfer No. _____ Which produced this right.
2. Attach a copy of last year's tax notice for the property to which the water right is appurtenant or other documents which show ownership. Label document as attachment A. Check appropriate box below:
☐ Tax Notice ☐ Warranty Deed ☒ Other N/A
3. Source of water groundwater tributary to N/A
4. Date or priority 2/28/1968
5. Water is used for the following purpose:
 amount 2.84 for Municipal purpose from Jan 1 to Dec 31
 (cfs/ac-ft)
 amount _____ for _____ purpose from _____ to _____
 (cfs/ac-ft)
 amount _____ for _____ purpose from _____ to _____
 (cfs/ac-ft)
6. Total amount of water under right 2.84 cubic feet per second and/or _____ acres-feet per annum.
7. Point (s) of Diversion:

Lot	$\frac{1}{4}$	$\frac{1}{4}$	$\frac{1}{4}$	Sec.	Twp.	Rge.	County	Local name for diversion
	NE	SW	SW	4	3N	2E	Ada	UWI Idaho Street Well

8. Lands irrigated or place of use: "City of Boise & Vicinity"

			NE 1/4				NW 1/4				SW 1/4				SE 1/4				
Twp.	Rge.	Sec.	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	Totals

Total acres _____

9. Describe any other water rights used for the same purpose as described above: All of UWI's water rights serving the company's service area as described in item 5, page 1 of this Application. Further comments: This 2.84 cfs right was filed as a claim in the Snake River Basin Adjudication for 2.23 cfs. This is the amount currently produced from the well.

RE: Water Right 63-02500/63-02874/63-07067/A63-19456
(Transfer 4998)

Dear Water Right Holder(s):

Enclosed is a copy of your approved Transfer of Water Right for the above referenced water rights (Transfer No. 4998). Please be sure to thoroughly read the Conditions and Remarks listed on the transfer. Also, please be advised that the accompanying transfer approval should be considered and treated as a **preliminary order** of the department issued pursuant to section 67-5243, Idaho Code. Enclosed are instructions for responding to **Preliminary Orders** if you are in disagreement with the approved transfer.

As of July 1, 1996, all water right owners are required to report any change in water right ownership and any change of mailing address to the department.

If you have acquired any other water right or have changed your mailing address **PRIOR TO** July 1, 1996, you have until July 30, 1998, to record the ownership and/or address change with the department.

If you acquired other water rights or changed your mailing address **AFTER** July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes in a timely manner could result in a \$100 late filing fee. You can contact any office of the department for more information. If you have any questions concerning your water right listed above you can contact me at (208) 327-7947.

Sincerely,

JIM JOHNSON, Manager
Water Right Permits Section

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED
Page JAN 12 1998

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: FILES

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER 4998

DATE: January 7, 1998

=====

Transfer 4998 adds points of diversion and identifies the municipal place of use under Rights 63-02500, 63-02874, 63-07067 & A63-19456. The nature of use under 63-07067 is also changed from domestic to reflect historical municipal use.

The transfer combines these rights in a common system diverted from three (3) existing and two (2) proposed wells that provide municipal use within Boise and the surrounding service area. The rights are changed to reflect their common municipal use, year long season of use and the standard common municipal place of use described in remarks only.

Recommended conditions include drilling permit requirements, future annual reporting, multiple points of diversion/measuring devices, non-confirmation of claim and standard transfer conditions.

Subject: Application For Transfer No. 4998

Dear Steve:

Thank you for your letter of March 24, 1997 concerning the above referenced transfer application. With regards to your request for documentation records for claim no. A63-19456 I have the following explanation and submittals:

From 1934 to 1952 the 13th Street well was equipped with 20 HP submersible pumping plant with a capacity of about 360 gallons per minute (gpm) at system pressure. This pumping rate was significantly below the well's maximum productive capacity and, in 1952, plans and cost estimates were obtained by Boise Water Corporation ("BWC", now United Water Idaho) for replacing the existing pump with a larger 125 HP line-shaft turbine pump capable of producing about 1500 gpm (Attachment A). On December 11, 1952, an order was placed for the new pump (Attachment B) which was installed and brought on line in early 1953. Although actual pumping rate and production data are not available for the period 1953-to-1955, a 1957 compilation by W.H. Smith (Attachment C) documents the pump running-time for that period. On June 1956, an unsigned BWC interoffice memorandum from the corporation's files shows four separate discharge measurements ranging from 1200 gpm-to-1320 gpm (Attachment D). Beginning in 1959, BWC kept detailed production records for the 13th Street well and the record for the month of July is provided as Attachment E. According to this daily log, 46,729,600 gallons were produced from the 13th Street well during July of 1959 using the same pump installed in 1953. Average daily production from the well was 1,507, 407 gallons per day from which an average 1047 gpm, or 2.33 cubic feet per second (cfs) discharge rate can be calculated. BWC records indicate that the well has been produced at this rate every year since. Given that the original water right 63-02500 was licensed at 0.8 cfs, BWC made a claim for 1.6 cfs of additional water rights in the Snake River Basin Adjudication.

We hope you will find the above to be adequate as documentation of beneficial use of the water claimed by BWC as SRBA Claim No. A63-19456.

R. W. Sparling Company,
1932 First Avenue,
Seattle 1, Washington.

Gentlemen:

Will you please send a price quotation and the earliest possible delivery date for one 10" Sparling Saddle Type Meter, with totalizer only, to be welded on to a 10" standard wrought iron pipe with a nominal outside diameter of 10.75".

We are also considering placing meters on each of two city sprinkling trucks. It appeared to me that possibly a 3" Sparling Screw Tube Meter would work satisfactorily. It will be necessary for the meter to be mounted in a vertical position on a 2 1/2" standard steel pipe, with a clear run of approximately 2 1/2 feet. The maximum capacity that goes through the sprinkling truck is 200 G.P.M.

Will you please send a price quotation and a dimension sheet for the 3" Screw Tube Meter.

Because of the very limited space allowed for a metering device on the truck, the size of the meter is critical, and perhaps you would have some other type of meter that you could suggest.

Very truly yours,

BOISE WATER CORPORATION

Walter H. Smith,
Engineer.

September 16, 1952.

B & M Equipment Co.,
10th & Arthur Streets,
Caldwell, Idaho.

Attention: Bob Williams.

Dear Bob:

I would like to secure from you a quotation on a deep well turbine pump, to be placed in an existing well, located at 13th and Front Streets in Boise.

The operating characteristics of the pump will be to deliver 1500 G.P.M. at 220 ft. head. The overall length of the column is to be approximately 95 feet, the column is to be oil lubricated, and the motor will be equipped with a non-reverse ratchet. The existing well has a 24" casing for the first 72½ ft., and the balance is 16" casing.

In brushing through your various pump curves, it appears to me that perhaps a 3 K with three stages of a trimmed H impeller would about fill our needs; however, I would like you to make a selection for us.

It is probable that we would not want delivery on the pump and motor until about the first of March, 1953.

Very truly yours,

BOISE WATER CORPORATION

Walter H. Smith,
Engineer.

B. & M. Equipment Co., Inc.
Tenth and Arthur
P. O. Box 973
Caldwell, Idaho

Dear Bob:

I would like to place the following order for a Deep Well Turbine Pump. This is the same pump for which I received a quotation of \$4000.00 on approximately October 1, 1952.

One No. 3, Type K, H Type Impeller, three-stage Oil Lubricated Deep Well Turbine Byron Jackson Pump, with 125 HP Electric Motor with Non-reversible Ratchet. Operating conditions should be such that the pump shall deliver 1500 g.p.m. at 220 feet total head. The length of column from the base of the pump to the top of the bowl shall be 80 feet.

It is requested that delivery on the pump and motor be made between the 1st and 15th of March, 1953.

Yours very truly,

BOISE WATER CORPORATION

RE: APPLICATION FOR TRANSFER NO. 4998

Dear Ed:

This letter refers to the above-referenced transfer application that includes three licenses and one SRBA beneficial use claim. The protest period has passed but no protests were received.

Everything in the application is quite clear and well prepared. The only additional information needed is documentation to support claim no. A63-19456 for the 13th Street well.

Please provide information that reasonably documents the claimed additional use from that well, which is also used as the diversion for license no. 63-02500. The documentation should support the 1953 priority date and diversion of the additional 1.60 cfs noted in the beneficial use claim.

Your earliest response will allow the transfer processing to be completed. Please let me know if you have any questions concerning the application.

Sincerely,

Steve Lester
Water Rights Supervisor

LEGAL NOTICE

NOTICE OF PROPOSED CHANGE OF WATER RIGHTS, TRANSFER NO. 4998

Notice is given that the Idaho Department of Water Resources, under the authority of the Idaho Water Resources Act, Chapter 12, Idaho Code, has received an application for the proposed change of water rights, Transfer No. 4998, for the purpose of changing the point of diversion and the place of use of the water right. The proposed change is as follows:

License No. 12345, dated 1-15-1934, to C. J. Taylor, for the purpose of diverting water from the Boise River at a point below the dam at the City of Boise, Idaho, and for the purpose of using the same for the purpose of irrigating the land owned by C. J. Taylor, in the Boise River Valley, Ada County, Idaho.

The proposed change is for the purpose of changing the point of diversion from the Boise River at a point below the dam at the City of Boise, Idaho, to the Boise River at a point above the dam at the City of Boise, Idaho, and for the purpose of using the same for the purpose of irrigating the land owned by C. J. Taylor, in the Boise River Valley, Ada County, Idaho.

The proposed change is for the purpose of changing the place of use from the Boise River Valley, Ada County, Idaho, to the Boise River Valley, Blaine County, Idaho.

The proposed change is for the purpose of changing the point of diversion and the place of use of the water right. The proposed change is as follows:

License No. 12345, dated 1-15-1934, to C. J. Taylor, for the purpose of diverting water from the Boise River at a point below the dam at the City of Boise, Idaho, and for the purpose of using the same for the purpose of irrigating the land owned by C. J. Taylor, in the Boise River Valley, Ada County, Idaho.

The proposed change is for the purpose of changing the point of diversion from the Boise River at a point below the dam at the City of Boise, Idaho, to the Boise River at a point above the dam at the City of Boise, Idaho, and for the purpose of using the same for the purpose of irrigating the land owned by C. J. Taylor, in the Boise River Valley, Ada County, Idaho.

The proposed change is for the purpose of changing the place of use from the Boise River Valley, Ada County, Idaho, to the Boise River Valley, Blaine County, Idaho.

The proposed change is for the purpose of changing the point of diversion and the place of use of the water right. The proposed change is as follows:

License No. 12345, dated 1-15-1934, to C. J. Taylor, for the purpose of diverting water from the Boise River at a point below the dam at the City of Boise, Idaho, and for the purpose of using the same for the purpose of irrigating the land owned by C. J. Taylor, in the Boise River Valley, Ada County, Idaho.

The proposed change is for the purpose of changing the point of diversion from the Boise River at a point below the dam at the City of Boise, Idaho, to the Boise River at a point above the dam at the City of Boise, Idaho, and for the purpose of using the same for the purpose of irrigating the land owned by C. J. Taylor, in the Boise River Valley, Ada County, Idaho.

The proposed change is for the purpose of changing the place of use from the Boise River Valley, Ada County, Idaho, to the Boise River Valley, Blaine County, Idaho.

LINDA PORTER, being duly sworn, deposes and says: That she is the Principal Clerk of The Idaho Statesman, a daily newspaper printed and published at Boise, Ada County, State of Idaho, and having a general circulation therein and which said newspaper has been continuously and uninterrupted published in said County during a period of twelve consecutive months prior to the first publication of the notice, a copy of which is attached hereto; that said notice was published in The Idaho Statesman in conformity with Section 60-108, Idaho Code as amended, for Two

MEMORANDUM

TO: FILE

FROM: STEVE LESTER 

DATE: SEPTEMBER 22, 1997

RE: UNITED WATER IDAHO TRANSFER NO. 4998

This is a relatively simple transfer to add two new wells (27th Street wells) and allow those plus three existing wells to be "permissible points of diversion" for three licenses and one SRBA beneficial use claim. All of the rights now include a single well as a point of diversion. Also, the transfer proposes to allow an expanding certificated service area under the new municipal statutory language. The transfer does not include a "future needs component" discussed on application page 2 (remarks) -- I assume this means that additional water is not requested under these rights within an expanding service area.

Here is the link between the rights and the existing wells:

13th St. well = license 63-02500 plus later in time claim A63-19456

16th St. well = license 63-02874

Idaho St. well = license 63-07067.

I do not see the need to verify the extent of beneficial use of the licenses within the past five years for this municipal setting unless IDWR intends to penalize the applicant for declining well yields. The beneficial use claim is a different matter. Applicant submitted documentation dated April 10, 1997 to support that claim. The documentation appears to be a reasonable defense of the claimed priority and amount of water -- the claim represents the pump upgrade of the 13th St. well in the early 1950's. The standard SRBA caveat condition of approval can allow future adjustment of the claim if necessary.

All of the SRBA claims include an expanded service area factor exceeding the city limits parameter of the licenses. The transfer proposes the same idea. Also, the SRBA claims include a land list for the place of use instead of just using the traditional "remarks" method.¹ Transfer approval will merge the water rights and SRBA databases to show the P/U only in the remarks field.

Another SRBA factor should be mentioned. The claim for right 63-07067 only includes 2.23 cfs instead of the licensed 2.84 cfs. See applicant's comment at the bottom of application page #3 about this. The reduced flow is reflected in application page 1 showing a total flow of 8.63 instead of the expected 9.24 cfs.

¹CAUTION! - Do not request a P/U comparison when generating a proof or profile report for United Water SRBA claims without first checking the P/U field. The lengthy P/U land list causes very substantial delay (or worse) in report printing -- something I learned the hard way. State Office DP Section is aware of this situation.

MICROFILMED
JAN 12 1998

This relates to my previous statement about penalizing the user for declining yields - do we want to go down that road? If we do, then all municipal claims within the SRBA and/or within any future transfers would have to include such analysis -- not a pretty picture. Perhaps the applicant should amend the claim to match the license unless it is acceptable to allow transfer approval to automatically "increase" a claim - in which case the applicant need not do anything.

A few "house-keeping" items, all of them rather minor and not worthy of more attention, are included in this memo. Here are the items listed for the "rights as recorded" that differ from the actual water rights records.

1. For 63-02500, application page 5 lists the period of use, P/D to 10 acre tract (QQQ) and "none specified" for P/U.

2. For 63-02874, application page 9 also shows a period of use and P/D to QQQ. Also, the last item on that page refers to "current claim number instead of its license number", which probably means the old water right number instead of the basin 63 number. Claim number A63-02874 is the correct number.

3. For 63-07067, application page 3 shows the P/D to QQQ and states that P/U is "City of Boise & Vicinity" instead of just City of Boise as licensed. The wr-aj cfs discrepancy has already been mentioned.

I think the transfer can be approved for 9.24 cfs to add two wells, combine all of the diversion points for all of the rights and authorize the expanding service area if adequate conditions of approval are included.

**NOTICE OF PROPOSED CHANGE OF WATER
RIGHTS, TRANSFER NO. 4998**

Notice is given that United Water Idaho of 8248 W. Victory Rd., Boise ID 83709 has applied to the Department of Water Resources to change the Point of Diversion and Place of Use pursuant to I.C. § 42-222 for four ground water municipal rights recorded as follows (all sections shown are within T3N R2E Ada County):

License 63-02500, priority 8-30-1934, .80 cfs, diverted in NWNW S.10 (13th St. Well).

License 63-02874, priority 8-18-1951, 4.00 cfs, diverted in SENW S.9 (16th St. Well).

License 63-07067, priority 2-28-1968, 2.84 cfs, diverted in SWSW S.4 (Idaho St. Well).

Snake River Basin Adjudication (SRBA) beneficial use Claim A63-19456, priority 3-31-1953, 1.60 cfs, diverted in NWNW S.10 (same 13th St. Well as above).

Total amount of water for the above rights is 8.63 cfs. The licensed place of use (3 rights) is within the City of Boise. The beneficial use claim place of use includes the City of Boise plus an expanded service area certificated by the ID Public Utilities Commission (IPUC).

The licensed rights are claimed in the SRBA as licensed except the place of use lists the City of Boise plus the expanded service area noted in A63-19456.

PROPOSED CHANGE FOR ALL RIGHTS:

Add 2 new wells in NENW S.9 (27th St. Wells #1 & 2). Allow all four rights to use any combination of the existing and proposed wells as diversion points to serve the current and future IPUC certificated service area in and around Boise. Total amount of water used within the rights will not change.

Any protest against approval of the proposed change must be filed with the Department of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705-5082, together with a protest fee of \$25 on or before February 24, 1997. The protestant must also send a copy of the protest to the applicant.

BOISE, IDAHO

December 5, 1939

Mr. James Spofford
Commissioner of Reclamation
State Capitol Building
Boise, Idaho

Re: Permit No. 18015

Dear Mr. Spofford:

In accordance with your letter of December 1, 1939, there is inclosed herewith check No. 6619 of Boise Water Corporation in the amount of \$5.00 to cover fee for State of Idaho Water License to be issued to this company for 0.8 second foot of water for a municipal water supply under the above mentioned permit.

I assume that the license will be issued and delivered in due course.

Very truly yours,

CHN.W

18015-

December 1, 1939

Re: Permit No. 18015

Mr. Carey H. Nixon,
No. 118 N. 6th Street,
Boise, Idaho.

Dear Mr. Nixon:

We have received the report of our Field Engineer on examination for beneficial use under Permit No. 18015, in the name of the Boise Water Corporation.

This report shows that the applicant is using the water for municipal water supply, as applied for, and upon receipt of the statutory fee of \$5.00, a license will be issued for 0.8 second foot, as advertised in the notice of final proof.

Very truly yours,

JAMES SPOFFORD
Commissioner of Reclamation

JLA

DEPARTMENT OF RECLAMATION
BOISE, IDAHO

REPORT OF ENGINEER

Permit No. 18012

This proof is for Beneficial Use In Water District No. _____

1. Name of applicant Boise Water Corporation, Boise, Idaho

2. Source of water supply: Subterranean

3. Location of point of diversion: Is in the NW¹₄ NW¹₄ of Section 10

T. 3 N. R. 2 E. County of Ada (Lot 3, Block 107, B. C. O. T.)

4. Describe works as they exist, giving dimensions and capacities of same: A drilled well

350 ft deep, cased 82 ft with 24" casing and 147 ft additional
with 16". Diverts by Byron Jackson turbine pump
driven by 60 HP electric motor, 440 volts, 3 phase,
60 cycles. Capacity of pump 2 second feet

5. Water is used for: Municipal water supply

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation):

(Submit map on attached plat, showing location and details of above description.

8. What large stream would the water here appropriated finally reach? none

Remarks:

This examination was made on the 29th day of November, 1939

(Signed) Fred J. Tolman
Examiner.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make a plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.

Re: Permit No. 18015 - Boise Water Corporation

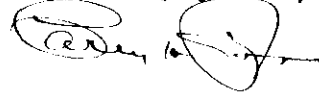

Dear Sir:

In connection with the above subject matter, I hand you herewith the following depositions in connection with the proof of application of water to beneficial use under the above mentioned permit:

1. Deposition of T. B. Jackson, President of Boise Water Corporation, holder of said permit.
2. Depositions of witnesses, G. C. Scharf and Myron Swendsen.

Will you kindly acknowledge receipt of these depositions in due course.

Very truly yours,

CHN:W
inc.

NOTICE FOR PUBLICATION

Notice of Final Application of Water to Beneficial Use.

Notice is hereby given that at 10:00 A. M. on the 25th day of September, 1939, at Boise City, County of Ada, State of Idaho, before me, Frank G. Burroughs, Inc., a Notary Public for Idaho, 111 S. 3rd Street, in said Boise City, there will be submitted of the application to beneficial use of 8.80 cubic feet per second of the waters of a well (subterranean) in accordance with the terms and conditions of Permit No. 18015 heretofore issued by the Commissioner of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Boise Water Corporation, 823 Idaho Street, Boise City, Idaho.

The use to which said water has been applied is a municipal water supply for Boise City, Idaho.

The amount applied to beneficial use is 8.80 cubic feet per second.

The place where said water is used is in Boise City, Idaho.

The name of the works by which said water is conducted to such place of use is water distribution system of Boise Water Corporation.

The right to take water from said well and diversion works is based upon Permit No. 18015.

The source of supply from which such water is diverted is a well (subterranean).

The date of priority which said water is prepared to establish is August 18, 1934.

JAMES G. GORDON,
Commissioner of Reclamation.
2712-4t First pub. Aug. 18,
Last Sept. 8, 1939.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 18015

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. T. B. Jackson 7th and Idaho Streets, Boise, Idaho.

Utility Operator

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Boise Water Corporation, Boise, Idaho. Its President

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit. Permit No. 18015; August 30, 1934

Ans. _____

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Well (subterranean), 355 ft. deep below surface of ground located on Lot 3 of Block 107 O.T.S. Boise City, Ada County, Idaho, in NW₄NW₄ Sec. 10, Twp. 3 N., R. 2 E., B. 1 M., and bears S. 46° 05' 30" E. 763.53 ft. distant from northwest corner of said Sec. 10.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Well is equipped with a Byron Jackson 6" deep well turbine pump driven by a directly connected submersible 20 h.p. electric motor, speed 1750 r.p.m., with 25 ft. of 6" discharge piping connected to the distribution system of 10" cast iron pipe on Front Street in Boise City, all capable of carrying 1.10 sec. ft. from the well to the place of use. Capacity of present pump at maximum efficiency is 360 GPM (0.80 sec. ft.) 68 lbs. TDH.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is for a municipal water supply for Boise City, Idaho.

Ques. 7. If for other than for irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. See answers to questions 5 and 6 above.

18015

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. _____

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Water Used for Boise City From Sources Other Than the Well Referred to in Permit No. 18015 is as Follows:

1935	136,150,519	cubic feet	
1936	142,633,920	" "	
1937	145,579,419	" "	
1938	136,390,920	" "	
1939 - Jan. to Aug. inc.	107,419,524	" "	

Subscribed before its signature that said testimony was

PERMIT NO. 18015

Proof of Application of Water to Beneficial Use
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. G. C. Scharf; over the age of 21 years; residing at 905 N.
18th Street, in Boise, Idaho; by occupation a Civil Engineer.

Ques. 2. Are you acquainted with Boise Water Corporation, the holder of Permit No. 18015? How long have you known him and where does he reside?

Ans. Yes. I have known said corporation at Boise, Idaho, for
over 30 years last past.

Ques. 3. Have you read or heard read said Permit No. 18015, and are you familiar with its provisions and conditions?

Ans. Yes, I am familiar with its provisions and conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

From a subterranean well 355 ft. deep below surface of the ground. Well is located in NW₁ NW₄ Sec. 10, Twp. 3 N., R. 2 E. B. M. in Ada County, Idaho, and is situated on Lot 3 of Block 107 O.T.S. Boise City, Ada County, Idaho, and the well bears south 46° 05' 30" east 763.53 ft. distant from the northwest corner of said Sec. 10. The well is equipped with a Byron Jackson 6" discharge deep well turbine pump driven by a directly connected submersible 20 h.p. electric motor, speed 1750 r.p.m., with 25 ft. of 6" discharge piping connected to the distribution system of 10" cast iron pipe on Front Street in Boise City, all capable of carrying 1.10 sec. ft. from the well to the place of use. Capacity of present pump at maximum efficiency is 360 G.P.M. (0.80 sec. ft.) 68 lbs. T.D.H. Municipal water supply, Boise City, Idaho.

being so conveyed.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. Water for municipal water supply to Boise City, Idaho.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

PERMIT NO. 18015

Proof of Application of Water to Beneficial Use
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. G. C. Scharf; over the age of 21 years; residing at 905 N.
18th Street, in Boise, Idaho; by occupation a Civil Engineer.

Ques. 2. Are you acquainted with Boise Water Corporation, the
holder of Permit No. 18015? How long have you known him and where does he reside?

Ans. Yes. I have known said corporation at Boise, Idaho, for
over 30 years last past.

Ques. 3. Have you read or heard read said Permit No. 18015
its provisions and conditions?

Ques. 5. How many second feet of water do you estimate said works will safely conduct to
place of use, and how much water have you seen being so conveyed? The pump will deliver
1.10 sec.ft. and said pipe line works will safely conduct to
Ans. the place of use 2 sec.ft. and I have seen 0.27 sec.ft. of water
being so conveyed.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each
sub-division in which water has been used and number of acres irrigated in each subdivision.)
State whether cultivated or natural meadow land and the nature of all improvement which have
been made as a direct result of said use.

Ans. Water for municipal water supply to Boise City, Idaho.

18015

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans. See answers to questions 4, 5 and 6 supra.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. No irrigation other than lawn sprinkling.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

On September 14, 1939, I was personally present at the well and
Ans. diversion works described in Permit No. 18015 and observed the operation of said pump and diversion works, and by computations made estimated that said pump and diversion works at that time was delivering at least 0.27 sec.ft. of water into the mains of the Boise Water Corporation and applied to beneficial use for a municipal water supply in Boise City, Idaho.

Re: Permit No. 18015

Boise Water Corporation
Boise, Idaho

Dear Sirs:

I enclose herewith blank notice for proof of application of water to beneficial use under your Permit No. 18015, which should be filled out and returned to this office at least 40 days before the date upon which you wish to make proof. The proof must be submitted before a notary public or other officer authorized by law to administer oaths. The date for proof, as set out in your permit, is September 25, 1939, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.

Yours truly,

~~XXXXXXXXXX~~ JAMES SPOTFORD
Commissioner of Reclamation

18015

July 21, 1939

Re: Permit No. 18015
Boise Water Corporation.

Mr. Carey H. Nixon,
No. 112 N. 6th Street,
Boise, Idaho.

Dear Sir:-

This will acknowledge receipt of notice in duplicate for publication, in connection with proof of beneficial use, and also authorization to have the notice published in the Idaho Pioneer, of Boise, Idaho, all under the above numbered permit in the name of the Boise Water Corporation.

A copy of the notice will be mailed to the newspaper in ample time to allow for publication for four consecutive weeks prior to the date set for making the proof, or September 25th, 1939.

About ten days prior to this date, depositions, consisting of one for the holder, and one for each of two witnesses, will be mailed to you, as Notary Public, so that you will have them in ample time for the proof.

On the date designated a representative of the holder, and two disinterested witnesses, who are familiar with the permit and the works constructed thereunder, should appear at your office, for the purpose of executing the depositions.

Very truly yours,

JAMES SPOFFORD
Commissioner of Reclamation

Re: Permit No. 18015
Boise Water Corporation

Mr. Carey H. Nixon,
No. 112 N. 6th Street,
Boise, Idaho.

Dear Sir:-

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of publication from the Idaho Pioneer, all in connection with beneficial use proof under the above numbered permit, in the name of the Boise Water Corporation.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the Department has but one field engineer who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will contact you or Mr. Jackson at the time set for examination, so that arrangements may be made to show him over the grounds.

After his report is on file in this office, you will be further notified as to fees, before the issuance of your license.

Very truly yours,

JAMES SPOFFORD
Commissioner of Reclamation

REPORT OF ENGINEER

Permit No. 18015

This proof is for Completion of Works In Water District No. _____

1. Name of applicant Boise Water Corporation

2. Source of water supply: Subterranean

3. Location of point of diversion: Is in the (NW¹/₄ NW¹/₄) Original Boise Townsite.
Lot 3, Block 107, / of Section 10

T. 3. N. R. 2. E. County of Ada

4. Describe works as they exist, giving dimensions and capacities of same: Drilled well, 350 ft.

deep. Concrete housing 9x9x9 with top of pump at ground level.

Byron Jackson deep well turbine pump driven by 60 HP

General Electric motor, 440 volt, 3 phase, 60 cycle.

Pump capacity 2. Second feet.

5. Water is used for: Municipal water supply for City of Boise.

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation):

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? None

Remarks: Well is cased at 24" diameter for 82.5 ft

Thence " " " " 16" " " 147.5 "

" " casing (12") was withdrawn

This examination was made on the 16th day of July, 1938

Boise, Idaho

Permit No. 18015

Examination for Completion of Works

County Ada

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make a plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

BOISE

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

BOISE WATER CORPORATION
Boise, Idaho

Boise, Idaho
July 7, 1938

DEAR SIR:

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. **18015**.

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before **September 25, 1938**. Upon receipt of the blank properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

R. W. FARIS

Commissioner of Reclamation.

Date April 13, 1938

THE IDAHO PIONEER
Boise, Idaho

DEAR SIR:

Enclosed you will find notice for publication once a week for four consecutive weeks prior to May 16, 1938, the date set for proof, the expense of the publication to be paid by the applicant, Boise Water Corporation,

to whom you should furnish proof of publication on or prior to the date set for proof.

Please acknowledge receipt of this notice and furnish this office with a copy of the first publication.

Very truly yours,

R. W. FARIS

Commissioner of Reclamation

18015

June 9, 1938

Re: Permit No. 18015.

Mr. T. B. Jackson, President
Boise Water Corporation
Boise, Idaho

Dear Sir:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of proof of publication from the newspaper, all in connection with completion of works proof under the above-numbered permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the Department has but one field engineer who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination so that you may show him over the works. After his report is on file in this office you will be further notified as to fees due before the issuance of your certificate of completion of works.

Very truly yours,

R. W. FARIS
Commissioner of Reclamation

By

Chief Clerk

Re: Permit No. 18015, Boise Water Corporation

Dear Sir:

In connection with the above subject matter I
hand you herewith the following depositions in connection
with proof of completion of works under the above mention-
ed permit:

- (1) Deposition of T. B. Jackson, President
of Boise Water Corporation, holder of
said permit.
- (2) Depositions of witnesses Gordon C. Smith
and Myron Swendsen.

Will you kindly acknowledge receipt of these de-
positions in due course.

Yours very truly,

NOTICE FOR PUBLICATION

Notice is hereby given that at ten o'clock, A. M., on the 16th day of May, 1938, at Boise City, County of Ada, State of Idaho, before Carey H. Nixon, a notary public for the State of Idaho, 112 North Sixth Street in said Boise City, proof will be submitted of the completion of works for the diversion of two (2) cubic feet per second of the waters of a well (subterranean) in accordance with the terms and conditions of a certain permit heretofore issued by the Commissioner of Reclamation of the State of Idaho.

1. The name of the person or corporation holding said permit is Boise Water Corporation.

2. The postoffice address of such person or principal place of business of such corporation is Boise City, County of Ada, State of Idaho.

3. The number of such Permit is 18015, and the date set for the completion of such work is September 25, 1938.

4. Said water is to be used for a municipal water supply for Boise City, Idaho.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit is two (2) cubic feet per second.

H. W. FARR,
Commissioner of Reclamation.
2553-4t First pub., Apr. 15, 1938.
Last pub., May 6, 1938.

18015

The Depositions of two Witnesses, in this form, taken separately, required in each case.

Permit No. 18015

Proof of Completion of Works**DEPOSITION OF WITNESS**

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Gordon C. Smith, Boise, Idaho. Professional engineer.
220 Idaho Building.

Ques. 2. Are you acquainted with Boise Water Corporation, the holder of Permit No. 18015, authorizing the diversion of 7 second-feet of the waters of a well (subterranean) located 763.53 ft. from NW corner of Sec. 10-T3-N, R-2-E-BM, County of Ada, on Lot 3 Blk. 107 Original Boise Townsite for municipal water supply purposes? How long have you known him, and where does he reside?

Ans. Yes. Have known holder ten years at Boise, Idaho.

Ques. 3. Have you read or heard read said Permit No. 18015, and are you familiar with its terms and conditions?

Ans. Yes

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated under said permit? If so, describe same, state its character, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Not for irrigation but for municipal water supply to
Boise City.

Ques. 5. Are the works of diversion fully completed and of sufficient capacity to convey the entire amount of water set out in the permit from point of diversion to place of use?

Ans. Works of diversion are fully completed and of sufficient capacity to divert 2 second-feet of water.

Ques. 6. Describe the works of diversion as they now exist, and give your estimate of their capacity.

Ans. 9 stage deep well turbine pump, 30 ft. pump column, 60 HP electric motor 10" discharge line. Pump capacity 900 gpm. Well 16" diameter. Housing 9' x 9' concrete lined pit 9 ft. deep with concrete top.

(Sign here.)

*Gordon C. Smith*I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Boise City County of Ada, State of Idaho, on this 16th day of May, A. D. 1938.*[Signature]*

Permit No. 18015

Proof of Completion of Works

DEPOSITION OF WITNESS

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Myron Swendsen, Ada County, Civil Engineer.

P.O. Box 156, Boise, Idaho.

Ques. 2. Are you acquainted with Boise Water Corporation, the holder of Permit No. 18015, authorizing the diversion of 7 second-feet of the waters of well (subterranean) located on Lot 3, Block 107, O.T.S. Boise, Idaho, for municipal water supply purposes? How long have you known him, and where does he reside?

Ans. Yes, have known company over ten years; at Boise, Idaho.

Ques. 3. Have you read or heard read said Permit No. 18015, and are you familiar with its terms and conditions?

Ans. Yes.

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated under said permit? If so, describe same, state its character, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Water to be used for municipal water supply for Boise City.

Ques. 5. Are the works of diversion fully completed and of sufficient capacity to convey the entire amount of water set out in the permit from point of diversion to place of use?

Ans. Yes. Diversion works are of sufficient capacity to divert 2 second feet of water.

Ques. 6. Describe the works of diversion as they now exist, and give your estimate of their capacity.

Ans. 16" drilled well equipped with 9 stage deep well turbine pump directly connected to 60 h.p. electric motor with a pumping capacity of 900 gallons per minute or 2 cubic feet per second. Also pump house and piping connections to distribution system with sufficient capacity to deliver said 2 second feet.

(Sign here.)

Myron Swendsen

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Boise City County of Ada, State of Idaho, on this 16th day of May, A.
