

State of Idaho
Department of Water Resources
Water Right License

WATER RIGHT NO. 96-08836

Priority: May 16, 1994

Maximum Diversion Rate: 0.81 CFS
Maximum Diversion Volume: 348.0 AF

It is hereby certified that ROBERT H RICKEL
PO BOX 319
BAYVIEW ID 83803-0319 has complied with the terms and
conditions of the permit, issued pursuant to Application for Permit dated May 16, 1994; and has
submitted Proof of Beneficial Use on December 21, 1999. An examination indicates that the works have
a diversion capacity of 0.81 cfs of water from:

SOURCE

GROUND WATER

and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>DIVERSION RATE</u>	<u>ANNUAL DIVERSION VOLUME</u>
IRRIGATION	04/01 to 10/31	0.81 CFS	344.0 AF
STOCKWATER	01/01 to 12/31	0.02 CFS	0.3 AF
DOMESTIC	01/01 to 12/31	0.08 CFS	3.6 AF

LOCATION OF POINTS OF DIVERSION:

GROUND WATER NE¼NE¼ Sec. 33, Twp 53N, Rge 03W, B.M., KOOTENAI County

WATER RIGHT NO. 96-08836

CONDITIONS OF APPROVAL

1. Rights 96-02023C and 96-08836 when combined shall not exceed the irrigation of 196 acres.
2. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the lands above.
3. The right holder shall use the full allotment of appurtenant surface water rights under 96-02023C in conjunction with ground water diverted under this right.
4. If the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use, this right to divert groundwater shall not be used for irrigation purposes without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
5. Domestic use is for 3 homes.
6. The irrigation occurring under this domestic use shall not exceed 1/2 acre for each home.
7. The domestic use authorized under this right shall not exceed 13,000 gallons per day per home.
8. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed and sealed this 25TH day of NOVEMBER, 2002.

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner.

1. Permit No. 96-08836 Telephone No. 683-2385

2. Name of Permit Holder(s): ROBERT A RICKEL

3. Mailing Address: PO Box 319

City BAYVIEW State ID Zip 83803-0319

4. Source of Water: GROUNDWATER If GROUNDWATER (well), Date Drilled: mo. _____ / yr. _____

a. Well Driller: _____ Drilling Permit Number: _____ - _____ - _____ - _____

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): 3 Stockwater (No. and type of stock): 20

Irrigation (No. of acres): 217 Other: _____

6. Total rate of diversion and/or volume for which proof is submitted: 0.81 cfs OR _____ acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)
(This question is **not optional**. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required?

Yes _____ or No _____

Has the measuring device been installed?

Yes _____ or No _____

8. Fee Enclosed: \$ 100 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: SAME AS ABOVE Telephone Number: _____

Address: _____

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted. I agree to relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: X

NO. 96-08836

CONDITIONS/REMARKS:

3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
5. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
6. A well drilled pursuant to this permit must be located at least 500 feet from any existing well. Well spacing closer than 500 feet must be approved by the Department of Water Resources.
7. Construction of the well must comply with Idaho well construction standards.
8. The rate of diversion of water for irrigation under this right and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.
9. Stockwater use is for 70 range cattle.
10. Commercial use is for a 160 unit RV park.
11. Domestic use is for 4 homes.
12. The domestic use authorized under this permit shall not exceed 13,000 gallons per day per dwelling in accordance with Section 42-111, Idaho Code.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.

RE: License No. 96-8836 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

Water Rights Supervisor

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

Comment Report

96-8836

1. kwalker 10/10/2002 Commercial Use

Comment: The commercial use under this permit was not developed per Al Beardslee who has been out to this property.

2. kwalker 10/10/2002 Review of Exam

Comment: In review of this field exam, I found the irrigated place of use to be only 199 acres. This determination was made by ArcView. I also found the place of use to be in other 40 acre tracts than identified by examiner. The domestic use has been changed from examiners recommendation also. He recommended 0.04 cfs for the 3 homes found. I reviewed our domestic requirements chart and found we would normally allow 0.08 cfs for 3 homes. I have changed the recommendations to comply with the domestic requirements chart. The examiner did not note how many stock were actually found to be using water under this right. I found that the permit holder had indicated 20 head on his proof of beneficial use form so have used this number for the proposed license. This reduced the volume proposed to 0.3 af for the 20 head identified on proof form. The capacity of the system is determined to be 0.81 cfs rather than 0.80 as examiner found. This is based on the determination of the flow meters.

3. kwalker 11/19/2002 Points of Diversion

Comment: The permit holder contacted Al Beardslee and discussed the location of the wells under this permit. The wells are actually located in the NENE, S33 as shown on the field examination and permit. Al sent in a new map showing the actual location of the wells for licensing of this permit.

4. kwalker 11/19/2002 Place of Use

Comment: The permit holder is resistant to paying any amendment fees for this permit. Since Al found that the points of diversion did not need to be amended the only amendment required would be to add 2 acres in the SESW and 1 acre in the SWSE. Al stated the permit holder would not be willing to submit an amendment fee for these 3 acres so I have changed the recommendation to exclude them from this right.

5. RCHILDER 5/18/1994 DIVERSION DESCRIPTION

Comment: Well/pump and pipeline, reservior.

6. PSKAGGS 12/1/1994 Right Renumbered

Comment: This right renumbered from 95-08868.

7. KTOWNSEN 1/20/2000 Proof of Beneficial Use Rcvd

Comment: Proof of Beneficial Use Rcvd

MEMORANDUM

TO: File 96-08836

FROM: Kay Walker 

RE: Amendment requested from Robert Rickel

Date: October 18, 2002

.....

Robert Rickel called me this morning in regard to the amendment I had requested in order to license this permit. Mr. Rickel does not think that we have located the wells in the correct location. In review of the layout I had sent with the amendment application, he believes that they are located just east of the shiny spot in the NENE, Sec. 33. He says they have not been moved since they were drilled and does not agree with the GPS location that AI had recommended.

Mr. Rickel was on his way to Chicago this morning and was apprehensive about the deadline in my licensing correspondence. He plans to be gone about 3 weeks and did not have time to take care of the amendment request before he left. I told him that we would not take any further action on this permit until December 1. He said that would give him plenty of time to respond after he returns from back east. Mr. Rickel was also going to contact AI Beardslee this morning before he left since AI is familiar with this system.

RE: Water Right Permit No. 96-08836

Dear Permit Holder:

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

✓ Points of Diversion

✓ Place of Use

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

Enclosed, for your information, is a layout of your irrigated lands recommended under this proposed license. If the place of use is not accurate, please feel free to contact me. If you have any questions, please call me at 208-327-7944.

Sincerely,

KAY WALKER

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 96-08836

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **NORTHERN** Regional Office of the department in Coeur d'Alene at (208) 769-1450.

Sincerely,

Kari Lynn Townsend
Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 96-08836

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 2000. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 96-08836

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

If a well has not already been constructed you are required to obtain a "drilling permit" from the department. The right to drill a well is not a part of this permit to appropriate water.

Sincerely,

A handwritten signature in cursive script that reads 'Shelley W. Keen'.

Re: Water Appropriation Application No. 95-08868

Dear Mr. Rickel:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application for Permit to appropriate the Public Waters of the State of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests. Normal processing time is approximately 3 to 4 months, if the application is not protested.

If the application is not protested, it will be forwarded to Boise to be considered for approval by the Director. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If your application is for groundwater and unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit upon approval of the appropriation application. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE

Senior Water Resources Agent
