

MEMORANDUM

TO: Transfer Application #70288 File

FROM: Vikie Hancock

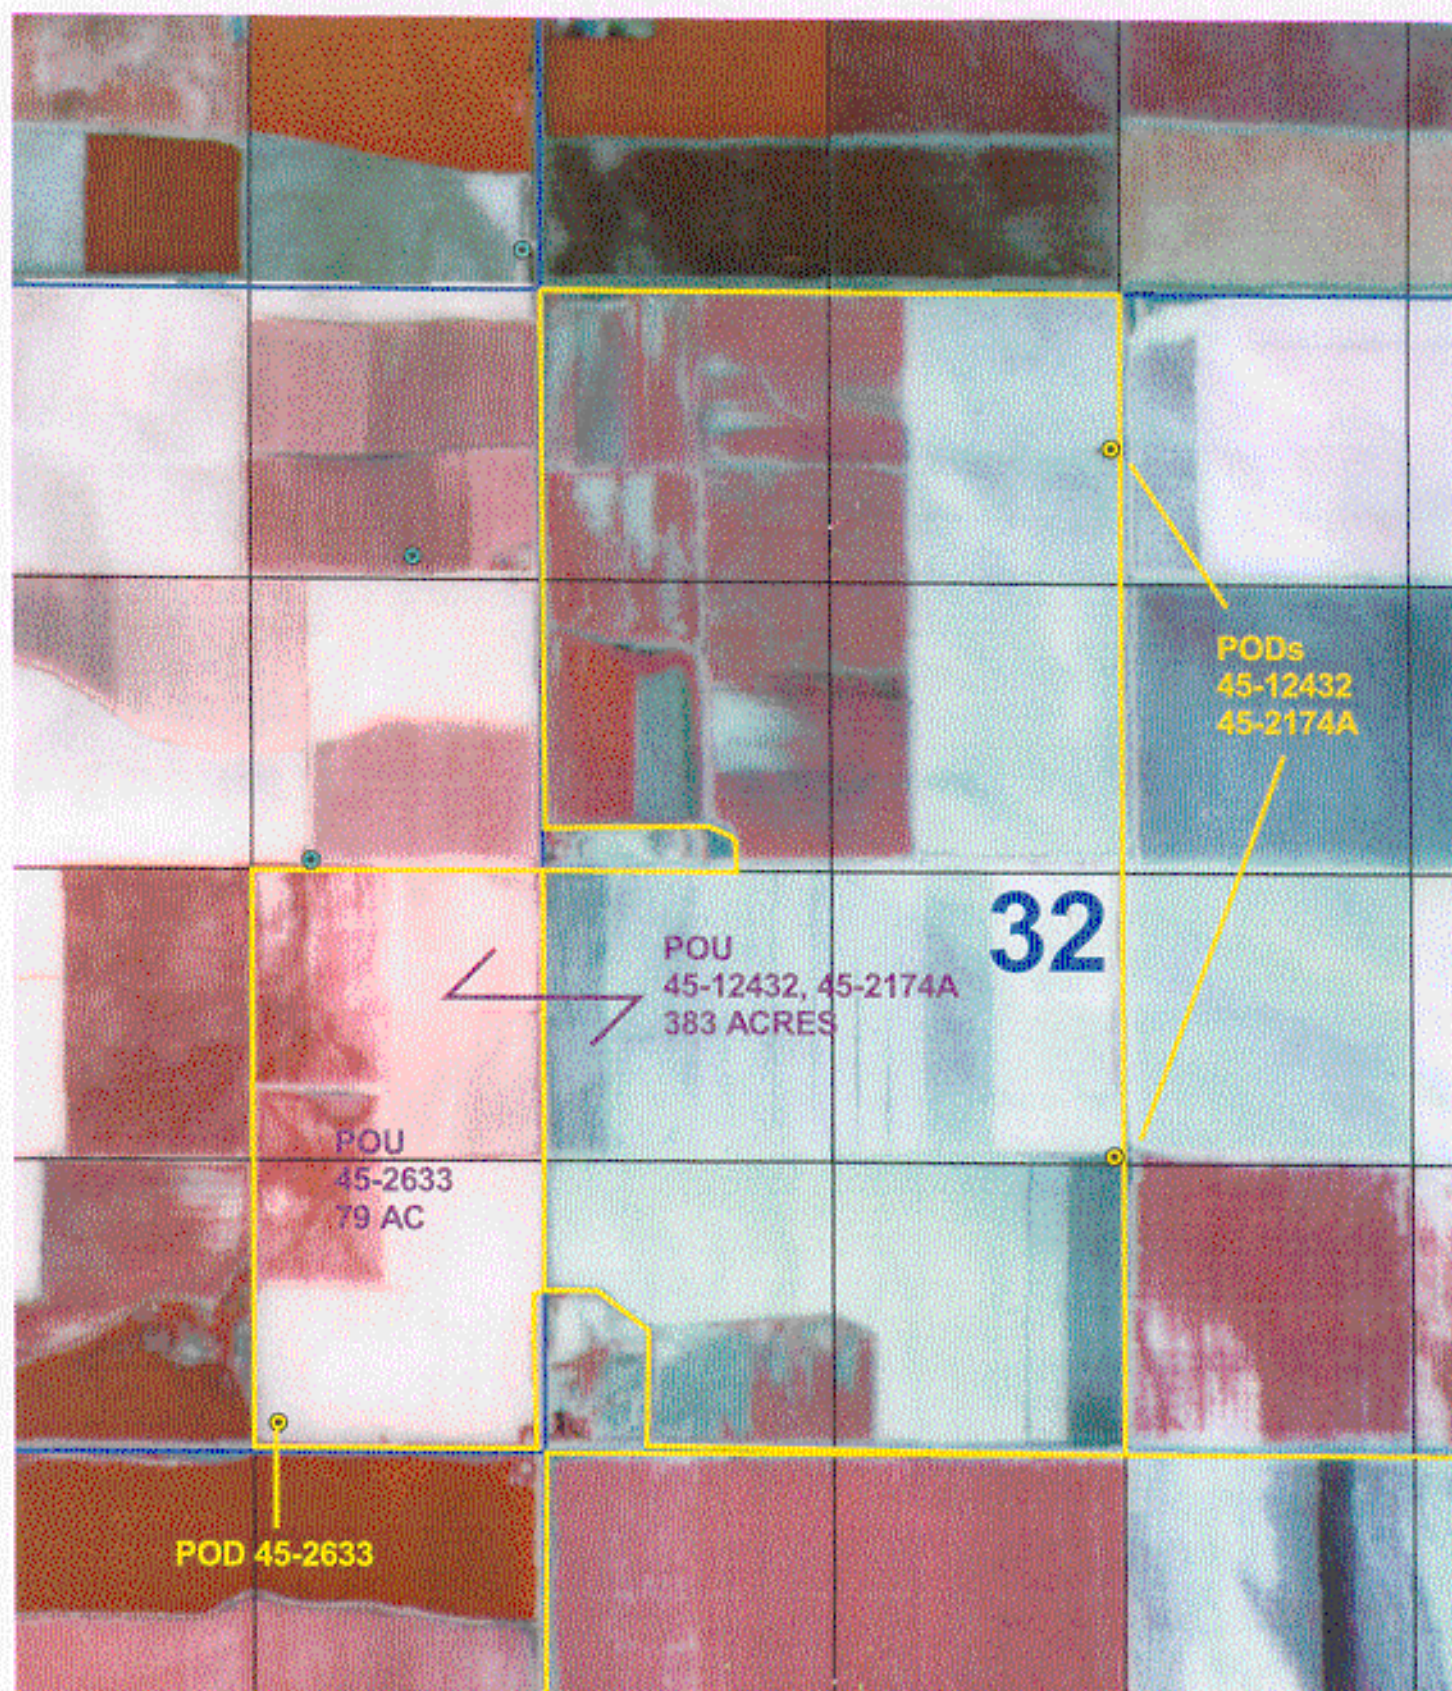

DATE: December 8, 2003

SUBJECT: SRBA Claim review 45-510, 45-2174A, 45-2633, 45-2671,
45-12432, 45-12878, 45-13431
SRBA Claimant and Transfer Applicant: Brent Funk

This transfer concerns the combining of ground water systems including five wells, representing six licensed rights and an expansion claim, into a PPU of 713 acres. Note that SRBA claim number 45-12432 is a combination of old licensed right numbers 45-2217 & 45-2305. SRBA claim number 45-13431 is the remaining irrigation portion of licensed right 45-2087 split by transfer 69824 which changed the nature of use. SRBA claim number 45-12878 is an expansion of licensed right 45-2671. The SRBA recommendations for these rights are the basis of transfer 70288.

Rights 45-2174^A, 45-2633 and 45-12432 were recommended to 383 partially overlapping places of use developed from 4 different wells along with decreed right 45-510 from Dry Creek. 45-13431 was recommended to an adjacent but discrete 61 acres. Right 45-2671 and expansion claim 45-12878, developed from a fifth well, were recommended within a PPU of 269 acres. 113 acres of expansion were determined using 1962 & 1987 aerial photos and historical documents found in IDWR files.

In addition to the creation of a PPU, transfer 70288 proposes a change in place of use to facilitate an exchange of land between Brent Funk and Gordon Luke. I see no reason that transfer 70288 should not be approved.
