RE: Corrected App For Transfer 70687

Dear Mr. Infanger;

As we discussed, I have produced a corrected application to include all 3 parcels that will be watered from your proposed pumping station. If the application is acceptable, all 6 applicants need to sign it before a notary before returning it to me for processing. The application is based on the SRBA recommendations just completed by our Boise office. The other applicants (Quellhorst & Warner) need to answer the question relating to mortgages or other incumbrances attached to their respective parcels (Pages 7 & 9, respectively).

The enclosed map, which you can keep, shows the actual property to be irrigated. The orange outline covers the recommended land, while the black outline covers that and the additional ground that you wish to add; the orange line is on top, so the black line will only be seen on the new areas.

Regards;

James E. Stanton
Sr. Water Resource Agent
