Re: Recommendations

Transfer No. 5415 was filed to change the location of the point of diversion. No other changes were identified. This transfer only identifies Rt. 74-00839 and changes the entire right so there are no splits involved.

I recommend approval of this transfer with the following conditions of approval:

R04 - Regulation by watermaster of WD74.

R43 - Measuring device and lockable controlling works to allow watermaster control of system.

R59 - Limitation of all rights when combined to 3.5 af per acre. I found no overlapping rights for the lands identified under this transfer in my review.

T07, T08 & T09 - Standard transfer conditions applied for rights claimed in SRBA which have not been finalized.
