Describe the reason for the proposed changes

I am irrigating some land at the new place of use without a water right, so am moving water to that land to get legal. Also, the place of use for the existing rights at the new place of use has changed from what was recommended due to a change in the irrigation system (one large pivot and several handlines were replaced with 3 smaller pivots). So those rights need to be redescribed to show the present p/u (change occurred in 1995).

4. FOR CHANGES IN NATURE OF USE ONLY

A. Describe the expected quantity of the return flows and location of discharge after the proposed change

B. Describe the effects on other water uses resulting from the proposed change
