by Van Roy Sandifer:

We the undersigned do hereby protest such application on
the grounds that:

The water in question has been in use on the ranch now
owned by us since 1924 that I personally know of.

There is such a limited supply, we feel we need all the
water in question to irrigate the ranch which consists of 50
acres of cultivated ground plus pasture. Without the water to
irrigate with, the hay and pasture would be of little value.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Enclosure: copy of withdrawal of protest

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR PERMIT
NO. 25-7276 IN THE NAME OF VAN ROY SANDIFER

WITHDRAWAL OF PROTEST

We orginally protested the granting of permit 25-7276 because we have for many years used the water of Rock Creek for the irrigation of approximately 80 acres of ground. Available evidence indicates that this right was established in 1893.

However, based upon the discussion of the issues we believe the applicant, Van Roy Sandifer, recognizes the priority of our use precedes any right established through approval of this permit, and therefore, we have no objection to his using water from Rock Creek during times flows are sufficient for both of our uses or we are not irrigating.

Therefore, based upon the applicant's signature on this document as confirmation of his recognizing our prior water rights, we hereby withdraw our protest to the approval of application 25-7276.

Dated this 9th day of February, 1982.

NOTICE OF HEARING
AND/OR CONFERENCE

On October 15, 1981, Van Roy Sandifer, Jr. filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On November 6, 1981, the Department received a protest against approval of said application from Brent Elkington.

The Department has set the matter of protest for hearing for Tuesday, February 9, 1982, at 2:00 p.m. in the second floor Conference Room, Idaho State Office Building, 150 Shoup, Idaho Falls, Idaho. The hearing will be held in accordance with provisions of Chapter 2, Title 42, of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Dated this 28th day of January, 1982.

Eastern Regional Supervisor

CONFERENCE AND HEARING INFORMATION

IN THE MATTER OF APPROVAL OF AN APPLICATION FOR PERMIT

In accordance with Idaho Code, Section 42-203, the following issues are involved in the consideration of the application and protest(s):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes at the expense of the requesting party. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

If the hearing is conducted by a hearing officer appointed by the Director, rather than the Director himself, a proposed decision will be submitted to the parties and the parties may be afforded an opportunity to file exceptions to the proposed decisions and present briefs and oral arguments to the Director prior to the issuance of a final decision by the Director. This procedure is required by Idaho Code, Section 42-1701A.

The parties by written stipulation may waive their right to a proposed decision, however, the failure of either party to waive a proposed decision will not prejudice the Director's review of a party's evidence and arguments. However, such a waiver will shorten the decision-making process and may expedite substantially the issuance of a final decision. Whether compliance with Section 42-1701A is waived will not affect a party's right to petition for a rehearing of the final decision pursuant to Rule 11 of the Department's Rules of Practice and Procedure or affect a party's right to appeal the final decision to the district

court.

Under the provisions of the Idaho Code, Sections 42-1701A and 67-5215, any court review of the Department's decision on appeal shall be confined to the record created before the Department.

Failure to appear at the time and place set for hearing by the applicant or protestant(s) may allow the Department to dismiss without prejudice the protest(s) or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

WATERMASTER COMMENTS

I have reviewed Application for Permit No. 25-7262 and have the following comments/objections to the approval of this application for permit:

Willow creek has the oldest water rights in the district. If rock creek flows into Willow creek during the period that water is needed for irrigation by this applicant there will not be water available for the natural flow portion of this application.
