Describe the reason for the proposed changes

The south 240 acres of the west half of Sec. 34 have a water right, and were irrigated with hand/wheel lines. The north 80 acres have always been part of this property, but were never irrigated. We want to install 2 pivots on this land, so are changing the place of use for the existing water right. We are also installing pivots on another farm we own in the area, and are drying up some corners there so the pivots in Sec. 34 can be fully utilized.

4. FOR CHANGES IN NATURE OF USE ONLY

A. Describe the expected quantity of the return flows and location of discharge after the proposed change

B. Describe the effects on other water uses resulting from the proposed change
