EASEMENT

THIS EASEMENT is made and granted this _____ day of November, 1994, by ROGER POOLE and _____ POOLE, his wife, COREY POOLE and _____ POOLE, his wife, THURZA POOLE, and MYRON HANCOCK as Trustee of the WAYNE POOLE TRUST, all of Rigby, Jefferson County, IDAHO, hereinafter referred to as GRANTORS, and AVON WILDE and _____ WILDE, his wife, Roberts, Jefferson County, Idaho, hereinafter referred to as GRANTEES.

WITNESSETH:

1. GRANTORS and GRANTEES own adjoining parcels of real property located on the West bank of the Snake River near Roberts, Idaho. GRANTORS have a sliver of property that extends between the river and GRANTEES' property.

2. GRANTEES need to cross the sliver of property to have access to the river for installation of a pump and a main line, and for the location of the same, and GRANTORS are willing to grant that access.

NOW THEREFORE, for and in consideration of One Dollar (\$1), the reliance by GRANTEES, and other good and valuable consideration, GRANTORS hereby declare as follows:

1. GRANT OF EASEMENT: GRANTORS hereby grant and convey to GRANTEES an easement legally described as follows:

Section 34, Township 5 North, Range 37 EBM
Jefferson County, Idaho.

Commencing at the NW Corner of said Section 34 and proceeding thence East 1,753 feet along the section line to the point of beginning; thence North 180 feet more or less to the high water mark of the Snake River; thence East 60 feet, thence South 180 feet more or less to the North section line of said Section 34; thence West 60 feet along said section line to the point of beginning.

2. PURPOSE OF EASEMENT: The purpose of the easement is for a buried irrigation main line, power line, pumping station at the river's edge, and a roadway for ingress/egress construction and/or maintenance of the main line, power line, and pump.

3. PERPETUAL EASEMENT: This easement is to be perpetual and to run with the land.

RECORDED
MAR 2 2 1995

4. EASEMENT BENEFIT: The easement is to benefit certain lands belonging to GRANTEES located North of State Highway 48 in said Section 34 described above.

IN WITNESS WHEREOF, the parties hereto have set their hands and seals the day and year in the acknowledgements hereinafter set forth.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 01-07126

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, which became affective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Failure to maintain current records with the department could result in the assessment of a monetary penalty.

If you have questions concerning the field examination, contact the **EASTERN** Regional Office in Idaho Falls, at (208)525-7161.

Sincerely,

JULIE L. YARBROUGH

PROOF DUE NOTICE

RE: PERMIT NO. 01-07126

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1997.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Department of Water Resources

Dear Mr. Johnson,

Recently I applied for a permit to appropriate water.
- Permit #01-07126 - One of the conditions on the permit, I
would like to request to be amended -

Condition #6 of above permit no. concerning the water
measuring device. The past 2 yrs. this has been
administered by Idaho Dept of Water Resource in Idaho Falls,
and reported on cards each month. Showing gals used - This
was reported to Tony Olenichak - Deputy Water Master.
It has worked to the satisfaction of the local^{Id} Dept of
Water Resource in Idaho Falls. I would like to continue
this method if possible.

These pumps supplied 2 wheel lines and we measured
the gals per min. - per head & multiplied by the no. of heads,
which seems to be somewhat of a normal practice on
many farms in the Area, also monthly meter reading
was taken on Electric Supply, to match the hrs I
reported on my card. If this can not be amended,
Please advise me of the kind of meter I would have
to install,

as to the 2nd requirement of Condition #6, the lockable
Electric switch is in place & I understand that this
will qualify for that portion of the requirement

Thank you

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 01-07126

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Be sure to note the special condition requiring you to install a measuring device and lockable controlling works that will enable the watermaster to control the rate of diversion.

Please be advised that there is insufficient natural flow available from the source identified on your permit to provide water throughout the entire season. You may want to arrange for a supplemental supply from a different source.

RECEIVED

MAR 22 1995

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of Idaho for the use and benefit of the people within the state. Conditions pertaining to a term review, annual use fee and jurisdiction of the permit are trust water conditions.

To: Shelley Keen
From: L. Glen Saxton *LS*
RE: PERMIT APPROVAL IN WATER DISTRICT 01
Date: March 3, 1995

I would like condition no. 6 to be more explicit. Perhaps the following language or something similar would better get the point across that there generally is no natural flow available for a 1995 as confirmed by Ron C's memo.

The right holder is authorized to divert water under this permit only after having annually rented or obtained adequate stored water from the Water District 01 Rental Pool for the irrigation season when water is not available for this right.

This condition might better come to the attention of the permit holder if it is condition no. 2. or at least early in the laundry list of conditions. I also suggest putting some language in the transmittal letter advising that natural flow is almost always not available for a 1995 natural flow right.

WATERMASTER COMMENTS

I have reviewed Application for Permit No. 01-07126 and have the following comments/objections to the approval of this application for permit:

This is a good example of "form over substance". The applicants will rarely, if ever be able to divert water under this right. However, it may serve a useful purpose if the Board ever requires a natural flow right to "supplement" with all storage rights held in a federal reservoir. This right should be voided if separated from the storage water

RE: Application for Permit No. 01-07126

Dear Messrs Wilde:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Jefferson Star on January 19 & 26, 1995. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State Office Personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones rb
