This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 01-7092, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before October 1, 1988.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: Permanent measuring devices must be installed in such a manner that the amount of water entering the reservoir and the amount of water released from the reservoir can be measured.

Prior to placing water to beneficial use under this permit, the permit holder must determine the rate of loss within his facilities using a procedure approved by the Director of the Department of Water Resources, and provide a source of augmentation water to mitigate all losses.

Use of water under this permit shall be non-consumptive.

ON 1/25/95 AT APPROXIMATELY 1350 HRS. A BENEFICIAL USE FIELD EXAM WAS CONDUCTED FOR THE CITY OF BLACKFOOT ON PERMIT #01-7092.

WATER IS DIVERTED FROM THE SNAKE RIVER FOR "STORAGE FOR RECREATION" AND FOR RECREATION. WATER REENTERS SNAKE RIVER APPROXIMATELY 1 1/2 MILES SOUTH OF POINT OF DIVERSION.

STORAGE FACILITY IS APPROXIMATELY (ON AVERAGE) 12' DEEP AND COVERS 71.5 SURFACE ACRES.

RECOMMENDED CONDITION: THIS RIGHT IS SUBJECT TO THE CONTROL OF THE SNAKE RIVER WATERMASTER WHO, IN TIMES OF SHORTAGE MAY ADVISE THE RIGHT HOLDER TO EITHER CURTAIL DIVERSIONS OR PROVIDE APPROPRIATE MITIGATION FOR THE INCREASED SEEPAGE AND EVAPORATION LOSSES ASSOCIATED WITH DIVERSIONS UNDER THIS RIGHT.

REQUIREMENT FOR PERMANENT MARKING DEVICE WAS REMOVED BY IDWR ON MARCH 3, 1993; COPY OF LETTER ATTACHED.

PROOF DUE NOTICE

RE: PERMIT NO. 01-07092

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

WATERMASTER COMMENTS

I have reviewed Application for Permit No. 01-7092 and have the following comments objections to the approval of this application for permit:

The permit should have conditions requiring storage to be purchased for replacement of depletion to natural flow as determined by the Watermaster of WD #1. Also should require measuring devices on inflow and outflow.

RE: Application for Permit No. 27-7437

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification no. 27-7437. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in The Blackfoot News. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Ernest Carlsen
Assistant Regional Manager
