Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Be advised that Section 42-248, Idaho Code requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **Southern** Regional Office of the department in Twin Falls at (208) 736-3033.

RE: PERMIT NO. 01-07056

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 2000.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

¹ An adjudicated claim priority date likely will be the verified date the diversion started, not the date the new project construction was decided upon or even started. The dates will be verified in the examination for the adjudication. These claims were refiled on August 11, 1989 for the Snake River Basin Adjudication.

² As mentioned in regard to the American Falls Power Plant, the state established by a ratified constitutional amendment of Article XV, Section 3, on November 6, 1928, the authority to "regulate and limit the use" of water for power purposes. Regardless of the issue spurring the constitutional amendment, the general pattern of subordinating power water rights to subsequent upstream diversions for other than power purposes did not start until 1952. See permit for C.J. Strike (02-02080). The Bureau of Reclamation, however, might forgo claiming non-subordination privileges in its water right claim particularly if the diversion under the claim did not start until after November 6, 1928.

³ It is probable, the Snake River Basin Adjudication Court would rule that the water right owner has given up what could have been "grandfather" rights to a non-subordinated water right that likely would have been approved if they had used the licensing process.

⁴ Idaho Code 42-203B(5) provides that the State can enter into agreements with holders of water rights for power purposes to define that portion of their water rights that are to be non-subordinated to upstream depletions. Such an agreement with Idaho Power Co. in 1984 for the projects below Milner Dam provided for much lower non-subordinated rights than the total of the original water rights. A similar agreement for the American Falls project and the Minidoka Project with Idaho Power Co. and the Bureau of Reclamation would provide a legal basis for the past allowance of upstream diversions including ground water diversions.

RE: PERMIT NO. 01-07056

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1995. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Ladies and Gentlemen:

Enclosed for your review and comment is a copy of a draft environmental assessment (EA) concerning the proposed Minidoka Powerplant Replacement Project at Minidoka Dam near Rupert, Idaho. The proposed plan and alternatives evaluated in this document concern the condition of the generators in the existing powerplant, the need to replace or upgrade them, and the construction of a replacement powerplant just below Minidoka Dam. Minidoka Powerplant was completed and began furnishing electric power in 1909. It was the first Federal hydroelectric project in the Pacific Northwest. In October of 1974, the powerplant and dam were placed on the National Register of Historic Places.

We believe you have an interest in the activities associated with our project and may wish to provide comments or additional information. We hope you will take this opportunity to look over the EA and let us know if you are aware of pertinent environmental information or impacts which have not been discussed or clearly stated. Your comments will be an important element in our decision concerning further environmental compliance action.

We would appreciate receipt of your comments by May 17, 1991. Written comments should be addressed to the Regional Director, Bureau of Reclamation, Attention: PN 150, Box 043-550 West Fort Street, Boise, Idaho 83724. If you have any questions concerning the EA or the review process, please contact Robert Adair at the above address or telephone (208) 334-1209.

Your interest and participation in this review is greatly appreciated.

Sincerely,

Regional Environmental Officer

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

BE SURE TO NOTE THE SPECIAL CONDITION REQUIRING YOU TO INSTALL AND MAINTAIN A MEASURING DEVICE AT YOUR POINT OF DIVERSION. WE HAVE ENCLOSED A DESCRIPTION OF THE DIFFERENT TYPES OF MEASURING DEVICES ACCEPTED BY THIS OFFICE.

NOTE ALSO THAT WATER SHALL NOT BE DIVERTED UNDER THIS PERMIT UNLESS A BASE FLOW OF THE SNAKE RIVER AT THE U.S. GEOLOGICAL SURVEY STREAM GAGING STATION AT MURPHY EXCEEDS 3,300 C.F.S. AND AT WEISER EXCEEDS 4,750 C.F.S. IN ADDITION, THERE ARE MANY APPLICATIONS FOR PERMIT FOR THE USE OF SNAKE RIVER WATER THAT ARE PRIOR TO YOUR PERMIT. THESE APPLICATIONS HAVE BEEN FILED FOR THE IRRIGATION OF LAND THAT THE APPLICANTS ARE ATTEMPTING TO OBTAIN UNDER THE FEDERAL LAND LAWS SUCH AS DESERT ENTRY AND CAREY ACT. IF THESE LANDS ARE DEVELOPED, AND IF THE BASE FLOW IS MAINTAINED, THEN NO WATER WOULD BE AVAILABLE FOR THIS PERMIT. THEREFORE, YOU SHOULD CAREFULLY CONSIDER THESE FACTS BEFORE MAKING ANY EXPENDITURES FOR THE CONSTRUCTION OF YOUR SYSTEM.

Dear Sirs,

RE: Permit No. 01-7056

We have completed a preliminary review of the above referenced application. This review has included advertising by the regional office and a verification that all required preliminary information has been provided.

At this time we see no reason that the application will not be approved. However, for power projects that are under the jurisdiction of the Federal Energy Regulatory Commission (FERC) and/or the Idaho Public Utilities Commission, we withhold final action on the application pending approval by those agencies.

Our review of this application indicates that approval for the project will be required from both FERC and PUC. The continued validity of the application is contingent on your proceeding with due diligence toward obtaining approval from each agency.

Please keep this office informed of progress in this regard.
