Remarks

This topographic map depicts a section of the Snake River in Idaho, bounded by Township 10S, Range 22E, and B.M. 4162. The map shows the river flowing generally from the upper left towards the lower right. A proposed diversion point is marked with a small rectangle and labeled "Point of Diversion" with an arrow. Downstream from this point, a "Place of Use" is indicated. The map includes contour lines with elevations such as 4140, 4145, 4150, and 4155. Section numbers 15, 16, 21, and 22 are visible. A dashed line separates MINIDOKA CO. to the north and CASSIA CO. to the south. The town of Starrs Ferry is located in the lower left. A vertical line on the left side is labeled "TWIN FALLS 36 MI." and "HANSEN 26 MI.". A horizontal line at the bottom is labeled "G-20". A benchmark "BM 4162" is located in the lower right. The map is overlaid with a grid of solid and dashed lines.

Dear Mr. Warman:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

Dear Mr. & Mrs. Worman,

RE: Permit No. 01-7034

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval as listed on the fourth page. Be sure to note the special condition requiring you to install a lockable device on your diverting works.

The exercise of this permit may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. U-1006-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Hells Canyon.

Since the use of water under your permit may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permit may be subject to the water rights of Idaho Power.

While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit. However, the Department of Water Resources has been advised that the Power Company is not waiving any of its rights to contest or limit the exercise of your permit or a subsequent license or water right.

If you have any questions, please let us know.

Sincerely,
