CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

The United States of America acting through the Regional Director
Pacific Northwest Region, Bureau of Reclamation

Notice is hereby given that Federal Building & U.S. Courthouse (Name of Claimant)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) 1948

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Snake River tributary to Columbia River

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Quantity	(cfs, af)	Use	(Domestic, Irrigation, Stock, Etc.)	(Both dates inclusive)

- (4) 0.31 cfs TOTAL QUANTITY USED.

- (5) A) Point of diversion: (Location of point where water is diverted from its source)
NW 1/4 NW 1/4, Sec. 8 Twp. 1 S Rge. 45 E B.M., County of Bonneville

Additional points of diversion:

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. Two 70 gpm pumps pump water from the Snake River into a closed pipe system which serves about 9.0 acres of lawns and garden in the Palisades Dam Camp area with irrigation water.

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

Dear Mr. Billings:

We have received the exception dated May 22, 1984, filed against the above referenced claim to a water right. The following is a quote from the provisions of the Idaho Code under which this claim has been filed:

42-225b. Recording of claims by department----Corrections.-----

.....
.At any time after filing a claim under the provisions of this section, any person who disagrees that a right has been established as set forth in said claim may file an exception thereto in duplicate, in affidavit form, accompanied by such proof as said person deems appropriate. An exception filed shall be made a part of the file of the claim in the Department of Water Administration (renamed Department of Water Resources, July 1, 1974) and shall be considered the same as other evidence in said file. A copy of an exception filed shall be forwarded to the claimant by the Department of Water Resources. Such claims may be corrected by the claimant only by filing of an amended claim in the same form as the original which shall be recorded and numbered by the department the same as the original and for which no additional filing fee shall be required.

Only the above action has been contemplated by the Idaho Legislature and we are not authorized to hold hearings or evaluate for conformation or final censorship of the described rights.

If you have any questions regarding this matter, please contact us.

EXCEPTION TO CLAIM WATER RIGHT

AFFIDAVIT

RECEIVED
MAY 29 1984

Department of Water Resources

STATE OF IDAHO)
) ss.
County of Jefferson)

Jack Billings being first duly sworn, deposes and states:

1. I am the Chairman of the Directors of the Protective Union.

2. The Protective Union is an organization representing approximately fifty (50) canal companies in the Upper Snake River Valley, located generally from Blackfoot to Rexburg.

3. The Protective Union in behalf of itself and it's member canal companies, takes exemption to the Notice of Claims to Water Rights filed by the Bureau of Reclamation, which notice was published March 15 and March 22, 1984, in the Idaho Falls Post Register, a copy of which published notice is attached hereto, marked Exhibit "A" and by this reference made a part hereof.

4. Representatives of the Bureau have informed representatives of the Protective Union that the claimed water rights are already in existence and allocated, and the claim does not purport to establish or create any new or additional water rights. It would require considerable investigation and research to either dispute or corroborate that claim. Therefore, in the absence of knowledge to the contrary, that representation is at this time taken as accurate.

5. With the explanation in Paragraph 4 herein, exception is nevertheless raised to the 92,000 acre feet of bank storage for the following reasons:

(A) There is no legal right to claim bank storage water.

(B) The bank storage is unavailable unless the reservoir is drawn down. The amount of draw-down will proportionately affect the amount of actual bank storage.

(C) There are no rules or guidelines for use of the bank storage water.

MEED

(D) There is insufficient evidence to establish that there is, in fact, 92,000 acre feet of bank storage that will come out of the banks when the reservoir is lowered. Even if that amount of water seeps into the bank, it is believed the majority of it will not come back into the reservoir as it is lowered.

(E) If bank storage is offset against transmission losses of allocated rights, that can have a detrimental effect on natural flow rights.

(F) All of the design capacity for Palisade storage water has been allocated and if there is in fact extra water, it may be subject to additional claims and/or allocations. If those are made and agreements subsequently entered, if that water does not exist, it will create an intolerable situation among holders of Palisade water because there would not be enough water to fill the contractual allotments.

6. This exception is not intended to suggest that if there is in fact storage water, it should not be prorated among existing spaceholders, but is to raise the problems described herein.

7. To the extent the claim alleges a right to more than 1.2 million acre feet for irrigation, through recharge and/or through refilling of the reservoir after it has once been filled each season, exception to such a right of refilling or recharge is made for the reason that such refilling or recharge interferes with flood water rights now diverted and applied to beneficial use by many water users.

Mr. Kenneth Dunn

Boise, Idaho 83720

Dear Mr. Dunn:

Enclosed are 16 water right claims for use of waters within the Minidoka Project area, summarized as follows:

- | | |
|---------------------------------|---------------------------------|
| 1. Minidoka Irrigation District | Artificial Ground Water-Storage |
| 2. Burley Irrigation District | Artificial Ground Water-Storage |
| 3. Palisades Reservoir | Bank Storage |
| 4. Island Park Reservoir | Bank Storage |
| 5. Lake Walcott | Bank Storage |
| 6. Jackson Lake Wyoming | Storage Yield (Interstate) |
| 7. Grassy Lake Wyoming | Storage Yield (Interstate) |
| 8. Palisades Powerplant | Snake River Natural Flows |
| 9. Palisades Reservoir | Refill of Storage |
| 10. Island Park Reservoir | Refill of Storage |
| 11. American Falls Reservoir | Refill of Storage |
| 12. Walcott Park | Irrigation |
| 13. Palisades Camp | Irrigation & Domestic |
| 14. Palisades Camp | Domestic |
| 15. Falls Irrigation District | Recapture of Surface Water |
| 16. A&B Irrigation District | Recapture of Surface Water |

The claims, with their attachments are self explanatory.

Claim numbers 3, 4, and 5 are for net yields from so called Bank Storage in Palisades and Island Park Reservoirs and Lake Walcott respectively. Drawdown of American Falls Reservoir, also yields water stored in the permeable banks. However, Certificate No. 01-2064 for American Falls Reservoir already covers 100,000 acre-feet identified as bank storage, so no claim is required.

With regard to Lake Walcott the Foster Decree provides in part follows:

"It is further ORDERED, ADJUDGED AND DECREED, until otherwise provided by Statute, the State Engineer of the State of Idaho, or his duly authorized deputy, shall determine what part of the water flowing in Snake River at the Minidoka and Milner Dams, is storage waters, and what part is natural flow, as provided by the Idaho Session laws of 1909, entitled: "an act to provide for the

safe-guarding of the rights of those conserving public waters in Reservoirs and prohibiting Misappropriation of such waters by those having no Right to the use of same, and delaring a 'Misdemeanor', the amount of the natural flow to be determined as such natural flow would be, if unaffected by the diversion or acts of the parties hereto or any or either of them or by the release of stored water, the natural flow to which the Twin Falls Projects are entitled to be measured to them at the Milner Dam. (emphasis added.)

Thus, a water right for all "waters flowing in the Snake River at Minidoka and Milner Dams" except natural flow has been adjudicated to the United States. Since bank storage is a result of construction of Federal Reclamation Project Works and not a part of "natural flow," any yield from Bank Storage in Lake Walcott belongs to the United States by Decree and no claim should be required.

Until 1978, the various watermasters determined the "amount of the natural flows" to which the "Twin Falls Projects are entitled" by measurements taken at Neeley, on the basis that the "normal flow at Neeley is the same as the normal flow at Milner would have been, if the Minidoka Dam had never been constructed" (water distribution below Neeley Gaging Station - Lynn Crandall - April 1, 1926).

The computer model used by the District 01, Watermaster for water accounting since 1978, contains no provision for recognizing yield from bank storage, therefore a claim for bank storage yield in Lake Walcott is included with this filing.

Sincerely yours,
