From: Regional Director, Boise, Idaho

Subject: Permit No. 26216, Unit A, North Side Pumping Division, Minidoka Project, Idaho

Enclosed is a copy of a letter dated March 26, 1962 from the State Reclamation Engineer stating that a Certificate of Completion of Works in connection with Permit No. 26216 will be issued upon receipt of the Statutory fee of \$74.00.

26216
The Statute, Idaho Code 42-221, requires a payment of \$5.00 for the first 10 cubic feet per second and 30 cents for each additional cubic foot per second. On this basis, the fee of \$74.00 is correct.

Please arrange to pay this obligation. The payment should be made to the State Department of Reclamation.

United States of America,
Acting through the Reg. Dir., Region 1,
Bureau of Reclamation,
Department of Interior,
Box 937,
Boise, Idaho.

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 26216. The proofs are to be made at 10:00 o'clock A.M., on the 14th day of February, 1961, ~~1959~~ before John H. Welch, Notary Public.

As of this date we have mailed the Notice to the North Side News & Minidoka County News with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Permit of Reclamation
Boise, Idaho
State Reclamation Engineer
Dear Mr. Knapp:

In connection with Permit No. 25225 relating to the diversion of water from the Snake River for Unit A lands of the North Side Irrigation, Minidoka Project, which was issued on February 27, 1956, it is to be noted that provision is made for the work to begin on or before April 28, 1956.

In view of the requirement to begin construction before April 28, I am providing for your records official notice that the work started before April 28. The construction work for the 13,000 acres of Unit A lands consists of a 240 second-foot pumping plant located approximately two miles above Milner Dam, and a canal 4-1/2 miles long with miles of distribution laterals. As of April 28, the main canal was substantially completed, the pumping plant was 85% complete, and the lateral system was about 55% complete. The discharge line of the pumping plant is in place, the pumping plant structure is completed with all the pumps in place, but the pumps have not been connected to the motor. The superstructure steel and 10-ton cranes have been installed in the pumping plant. The plant is scheduled for initial operation to pump and build canal in October of this year. The laterals are scheduled to be completed in December of this year, and the contractor's progress indicates that the work will be completed on time. On May 12 a land drawing was held for Unit A and settlement with the place was held. The engineers will use irrigation water from the Unit A irrigation system in the spring of 1957. Total expenditures as of this date for this work is in excess of \$25,000.

We will provide you with the necessary information under the permit whenever work has been completed. Meanwhile, if you desire any additional information concerning the progress of the work it will be provided. Please note your records that the United States has complied with the requirements of Permit No. 25225 that the work begin on or before April 28, 1956.

Sincerely yours,

W. H. Tuller

Regional Director Assistant

25225

S T I P U L A T I O N

WHEREAS, on November 21, 1955, the United States, acting through the Regional Director, Region One, Bureau of Reclamation, Boise, Idaho, made application to the State Reclamation Engineer for the State of Idaho, for permit to appropriate 240 cubic feet per second of the waters of the Snake River for irrigation and domestic purposes on the North Side Extension Unit of the Minidoka Project, and

WHEREAS, the Twin Falls Canal Company and the North Side Canal Company, Ltd., have acquired, in full compliance with the laws of the State of Idaho, under decrees entered in the Courts of Idaho, and by actual use, a prior right to the use of the natural flow of the Snake River, and by contract with the United States and by actual use, having acquired prior rights to the use of storage water in American Falls and Jackson Lake Reservoirs, and specifically the right to the use of releases from American Falls Reservoir in the spring prior to the actual filling of said reservoir, and have continually used said waters on lands on the Twin Falls and North Side Projects for irrigation and municipal purposes.

NOW, THEREFORE, IT IS HEREBY STIPULATED AND AGREED, by and between the United States, acting through the Regional Director, Region One, Bureau of Reclamation, Boise, Idaho, and counsel for the Twin Falls Canal Company and North Side Canal Company, Ltd., that all rights arising by, under or through any permit or license issued pursuant to said application dated November 21, 1955, shall be subject to all existing water rights of Twin Falls Canal Company and North Side Canal Company, Ltd., including, but not limited to, the long used and exercised rights of said companies, and each of them, to use water from American Falls Reservoir, in the early part of each irrigation season, when needed, but with the provision that if the said reservoir thereafter fills that such water so used earlier shall be deemed to have

STATE OF IDAHO DEPARTMENT OF RECLAMATION

NOTICE OF APPLICATION TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO IN ACCORDANCE WITH THE PROVISIONS OF SECTION 42-203, IDAHO CODE.

NOTICE IS HEREBY GIVEN That on the 21st day of November, 1955, the United States of America, acting through the Regional Director, Region 1 Bureau of Reclamation, Boise, Idaho, made application for permit to appropriate two hundred forty (240) cubic feet per second of the waters of Snake River for irrigation and domestic purposes.

That the location of the point of diversion, as described in the application, is located about 900 feet East from the Southwest Corner of Section 24, Township 10 South, Range 21 East, B. M. and is in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of said Section.

That the place of use of said water is described as approximately 13,650 acres in Sections 25, 35 and 36, Township 9 South, Range 21 East, B. M.; Sections 31 and 32, Township 9 South, Range 22 East, B. M.; Sections 1 to 4 inclusive, Sections 8 to 16 inclusive, Sections 21 to 24 inclusive, Township 10 South, Range 21 East, B. M.; and Sections 3 to 11 inclusive, Sections 15 to 20 inclusive, Township 10 South, Range 22 East, B. M.

That any protests against the approval of this application must be filed in the Department of Reclamation, at Boise, Idaho, within forty (40) days from the date of this notice, and such protest shall state the name and address of the protestant, and shall clearly set forth his objections to the approval of said application.

Dated this 22nd day of November, 1955.

MARK R. KULP,
State Reclamation Engineer
SERVICE OF THE FOREGO-
ING, By Copy, is hereby acknow-
ledged this 23rd day of Novem-
ber, 1955.

State of Idaho
Department of Water Administration

LICENSE OF WATER RIGHT

License of Water Right No. 01-2060 Priority 11-21-55 Amount 240 c.f.s.

THIS IS TO CERTIFY, that The United States of America, Bureau of Reclamation
of Boise, Idaho, has complied with the terms and conditions of Permit
No. 01-2060 issued pursuant to Application for Permit dated 11-21-55,
and has submitted proof to the Department of Water Administration on 4-30-65,
that he has applied water to a beneficial use; an examination by the Department indicates that the
works have a capacity of 240 c.f.s., and that the water has in fact been applied to a
beneficial use; a right to the use of water from the Snake River
tributary of Columbia River, is hereby confirmed in the following amounts:

Amount 240 c.f.s. for Irrigation from April 1 to Oct. 31 (both dates inclusive)

Amount _____ for _____ from _____ to _____ (both dates inclusive)

Amount _____ for _____ from _____ to _____ (both dates inclusive)

Subject, however, to the condition that no more than 240 c.f.s. of water be diverted at
any one time, said waters to be diverted within the _____

SW 1/4 Sec. 24, T. 10 S., R. 21 E., B. M.
in the county of Jerome; and that the amount of water so diverted and to which such
right is entitled and confirmed is for the purposes aforesaid and is limited to the amount which can
actually be beneficially used and shall not exceed 54,600 * acre feet per year or _____
4.0 acre feet per acre.

Description and location of place of use:

TWP.	RANGE	SEC	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTALS
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	

Total number of acres irrigated 14,637

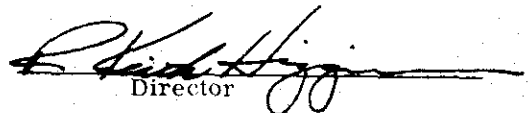

The 14,637 acres covered by this license lie within Unit A North Side Pumping Division
Minidoka Project of the A & B Irrigation District.

*This license is limited to the irrigation requirements of 13,650 acres of land within a
total irrigated area of 14,637 acres.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands
or place of use herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 14TH day of

JANUARY, 19 71.

B. DESCRIPTION OF PORTION OF RIGHT OWNED BY APPLICANT (If the entire right is owned by the applicant, omit part B).

1. Amount of water: a. _____ cubic feet per second
&/or
b. _____ acre feet per annum
2. Point of diversion _____ ¼ _____ ¼, Section _____ Township _____
Range _____, B.M., _____ County
Additional points _____
3. Place of use:

TWP.	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	

Total number of acres to be irrigated _____

C. DESCRIPTION OF RIGHT OR PORTION THEREOF, AFTER THE REQUESTED CHANGE

1. General Information
- a. Amount of water to be diverted _____ c.f.s. &/or _____ acre feet
- b. Description of diverting works _____

- c. Describe the reasons for the proposed changes Change in place of use only.

2. Change in point of diversion
- Point of diversion _____ ¼ _____ ¼, Section _____ Township _____
Range _____, B.M., _____ County
Additional points _____

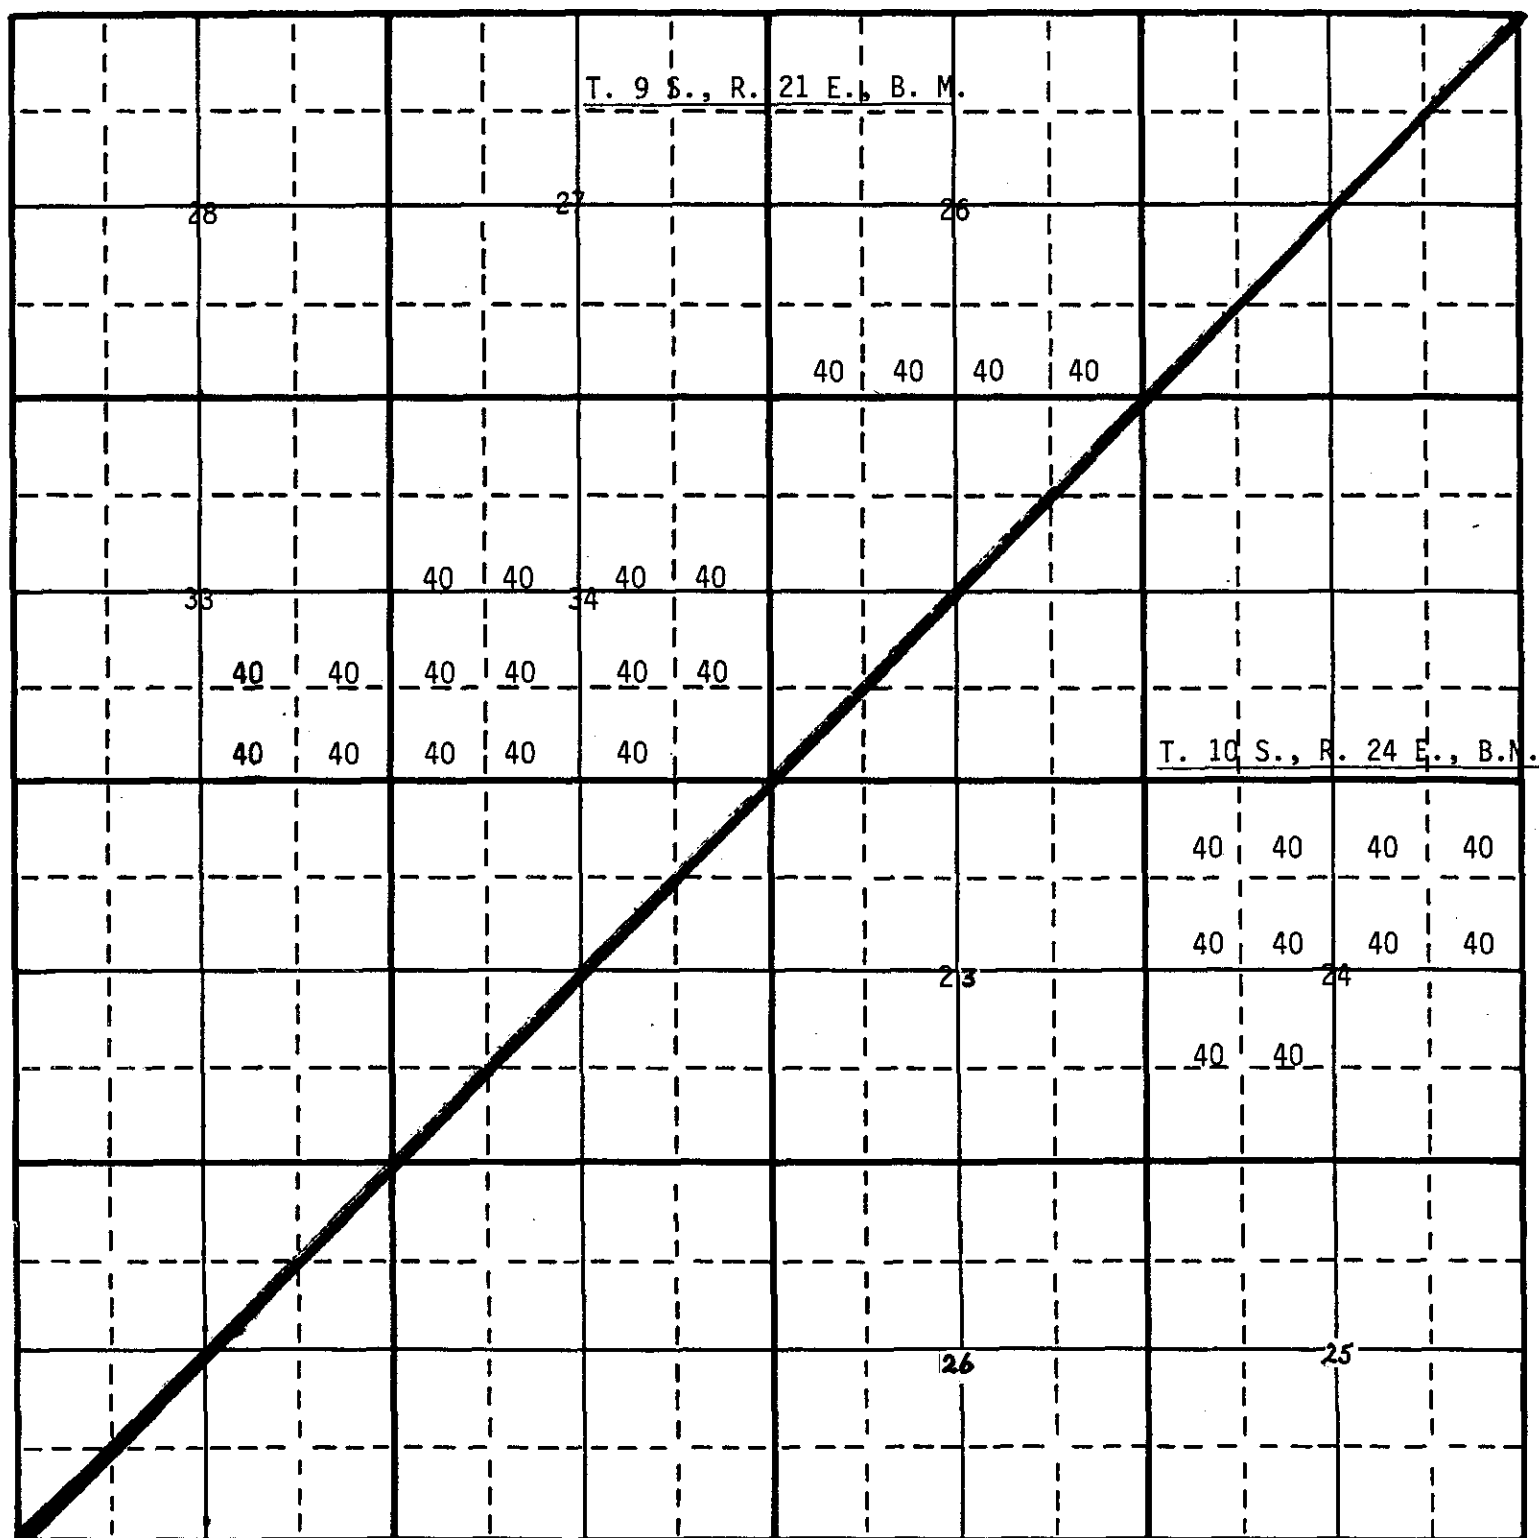

3. Change in place of use
- a. Are there liens, mortgages, or contracts on the lands from which you propose to transfer the water right which limit your authority to make the proposed change? Yes _____ No X. If yes, provide a statement agreeing to the proposed change from the holder of the lien, mortgage or contract.
- b. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer
No affect. Water supply has been provided from ground water License
No. 20736

c. Describe the land or place of use to which the right will be transferred:

TWP.	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼

9 S	21 E	34			40	40			40	40	40	40	40	40	40	40	40	40	480 acres

Total number of acres to be irrigated 1,200

4. Describe any other water rights used for the same purpose as described above. _____
5. Draw a map indicating the new point(s) of diversion and/or the new land to be irrigated. Show clearly the land involved by section, township and range number.

SCALE: 2 inches equal 1 mile. Draw plan in ink.

D. REMARKS

This application is to change the place of use of Palisades Reservoir storage water from lands described in ^{RIGHT} application for Permit No. R 670/01-2068 but which are not receiving service from said facility, to lands proposed to receive water service through the Unit A Extension of the North Side Pumping Division of the Minidoka Federal Reclamation Project. This storage water is intended to be supplemental to a direct flow water right on the newly replanted 1200 acres.

I hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge.

I understand that any willfull misrepresentations made in this application may result in voiding its approval.

MEMORANDUM

WES
TO: Glen Saxton
FROM: Dave Tuthill *DT*
DATE: February 26, 1985
RE: Review of Draft Bureau of Reclamation Filings for Expansion of
A and B Irrigation District

Pursuant to your request, the Water Allocation Section has reviewed the attached Draft Application for Permit and Application for Transfer, which were submitted to this office by the Bureau of Reclamation. Findings are as follows:

Application for Permit

- Item 3. Point of diversion should be shown as Government Lot 5 (SW $\frac{1}{4}$ SW $\frac{1}{4}$).
- Item 8B. Because the intended place of use is located within the boundaries of an irrigation district, the identification of exact acres to be irrigated is not required. However, some type of designation of place of use should be provided. For this type of filing, a map of the existing or proposed boundaries of the irrigation district is adequate.
- Item 8C. This item should refer to License No. 01-2060, which provides 240 cfs for the irrigation of 13,650 acres of land within a total irrigated area of 14,637 acres found at the time of the field exam, and Decree No. 01-0014, which decreed 267 cfs to be diverted at a point which is probably the same pumping plant although a different quarter-quarter is described. Based on a cursory view of the existing licensed and decreed rights, it appears that the licensed right has been included in the decreed right. However, the decree was signed on July 10, 1968 and the license was issued on January 14, 1971, so it is possible that the license is in some way additional to the decree. A complete analysis of this conflict is beyond the scope of this memorandum, but the existence of other water rights at the point of diversion should be identified in Item 8C.

TO: Glen Saxton
DATE: February 26, 1985
PAGE: 2

- Item 11. A preliminary map of the proposed irrigation system should be provided as a part of the application, in accordance with Section 42-202 (excerpt attached).

Application for Transfer

- Item A8. Instead of describing a portion of the 1,038,000 acres in this item, the entire land list should be described. This can be done by indicating that the place of use is "1,038,000 acres within the service areas of the organizations listed in Exhibit A, attached, including the following 1200 acres", followed by the description of 1200 acres as currently provided in Item A8.

- Item D. To better describe the proposed transfer, two changes are suggested. First, "Application for Permit" on line 2 should be replaced by "License." Second, the following sentence should be added to the end of the existing remarks: "This storage water is intended to be supplemental to a direct flow water right on the newly replaced 1200 acres."

General Comments This application for transfer is predicated on the concept that a water right for storage purposes can be moved from lands to which it was assigned but on which it has not been used to other lands as replacement lands. Although the intent of the storage right is to be supplemental on both the original 1200 acres and the replacement 1200 acres, the net effect of this transfer will likely be to increase the use of storage water from Palisades Reservoir because the new 1200 acres have a greater need for supplemental water than the original 1200 acres. On one hand, this change of acreage can be considered to be an enlargement of the actual use of the water right; on the other hand, because of the unique nature of water rights for storage purposes, the proposed action may be acceptable.

The application shall be accompanied by a plan and map of the proposed works for the diversion and application of the water to a beneficial use, showing the character, location and dimensions of the proposed reservoirs, dams, canals, ditches, pipelines, wells and all other works proposed to be used by them in the diversion of the water, and the area and location of the lands proposed to be irrigated, or location of place of other use.

If the application involves more than twenty-five (25) second feet of water or the development of more than five hundred (500) theoretical horse power, or impoundment of water in a reservoir with an active storage capacity in excess of ten thousand (10,000) acre feet, the applicant may be required by the director of the department of water resources to furnish a statement of the financial resources of the corporation, association, firm or person making the application, and the means by which the funds necessary to construct the proposed works are to be provided, and the estimated cost of construction; and if such application is made by a corporation, the amount of its capital stock, how much thereof has been actually paid in, and the names and places of residence of its directors; and if for the generation of power or any other purpose than irrigation or domestic use, the purpose for which it is proposed to be used, the nature, location, character, capacity and estimated cost of the works, and whether the water used is to be and will be returned to the stream, and if so, at what point on the stream.

In case the proposed right of use is for agricultural purposes, the application shall give the legal subdivisions of the land proposed to be irrigated, with the total acreage to be reclaimed as near as may be provided.

that no one shall be authorized to divert for irrigation purposes more than one cubic foot of water per second of the normal flow for each fifty (50) acres of land to be so irrigated, or more than five (5) acre feet of stored water per annum for each acre of land to be so irrigated, unless it can be shown to the satisfaction of the department of water resources that a greater amount is necessary. Provided further, that the plan of irrigation submitted shall provide for the distribution of water to within not more than one mile of each legal subdivision of the land proposed to be reclaimed by the use of such water; provided also, that in the case of all ditches designed to have a capacity of ten (10) cubic feet per second or less, such map showing the location of such ditch, and the place of use of such water, or the location of the lands to be irrigated, may be upon blanks furnished by the department of water resources.

No application shall be accepted and filed by the department of water resources until the applicant shall have deposited with the department a filing fee as in this act provided.

All moneys received by the department of water resources under the provisions of this chapter shall be deposited with the state treasurer, and such sums as may be necessary shall be available for the payment of the expenses of the department of water resources incurred in carrying out the provisions of this chapter.

Such expense shall be paid by the state auditor in the manner provided by law, upon vouchers duly approved by the state board of examiners, for the work performed under the direction of the department of water resources. The department of water resources shall keep a record of all filing fees received in connection with applications for permits to appropriate public waters.

Provided further, that rights initiated prior to the enactment of this amendment, so far as it pertains to flood and winterflow waters, shall not be affected thereby. [1903, p. 223, § 1; am. 1905, p. 357, § 1; reen. R. C., § 3253; am. 1913, ch. 37, § 1, p. 136; reen. C. L., § 3253; C. S., § 5569; am. 1929, ch. 281, § 1, p. 675; I. C. A., § 41-202; am. 1935, ch. 145, § 1, p. 353; am. 1967, ch. 374, § 1, p. 1079; am. 1973, ch. 184, § 1, p. 428.]

Compiler's notes. The name of the department of water administration (formerly the department of reclamation) has been changed to the department of water resources on the authority of S.L. 1974, ch. 286, § 1 and S.L. 1974, ch. 20, § 28 (§ 42-1801a).

Section 2 of S.L. 1973, ch. 184 declared an emergency. Approved March 16, 1973.

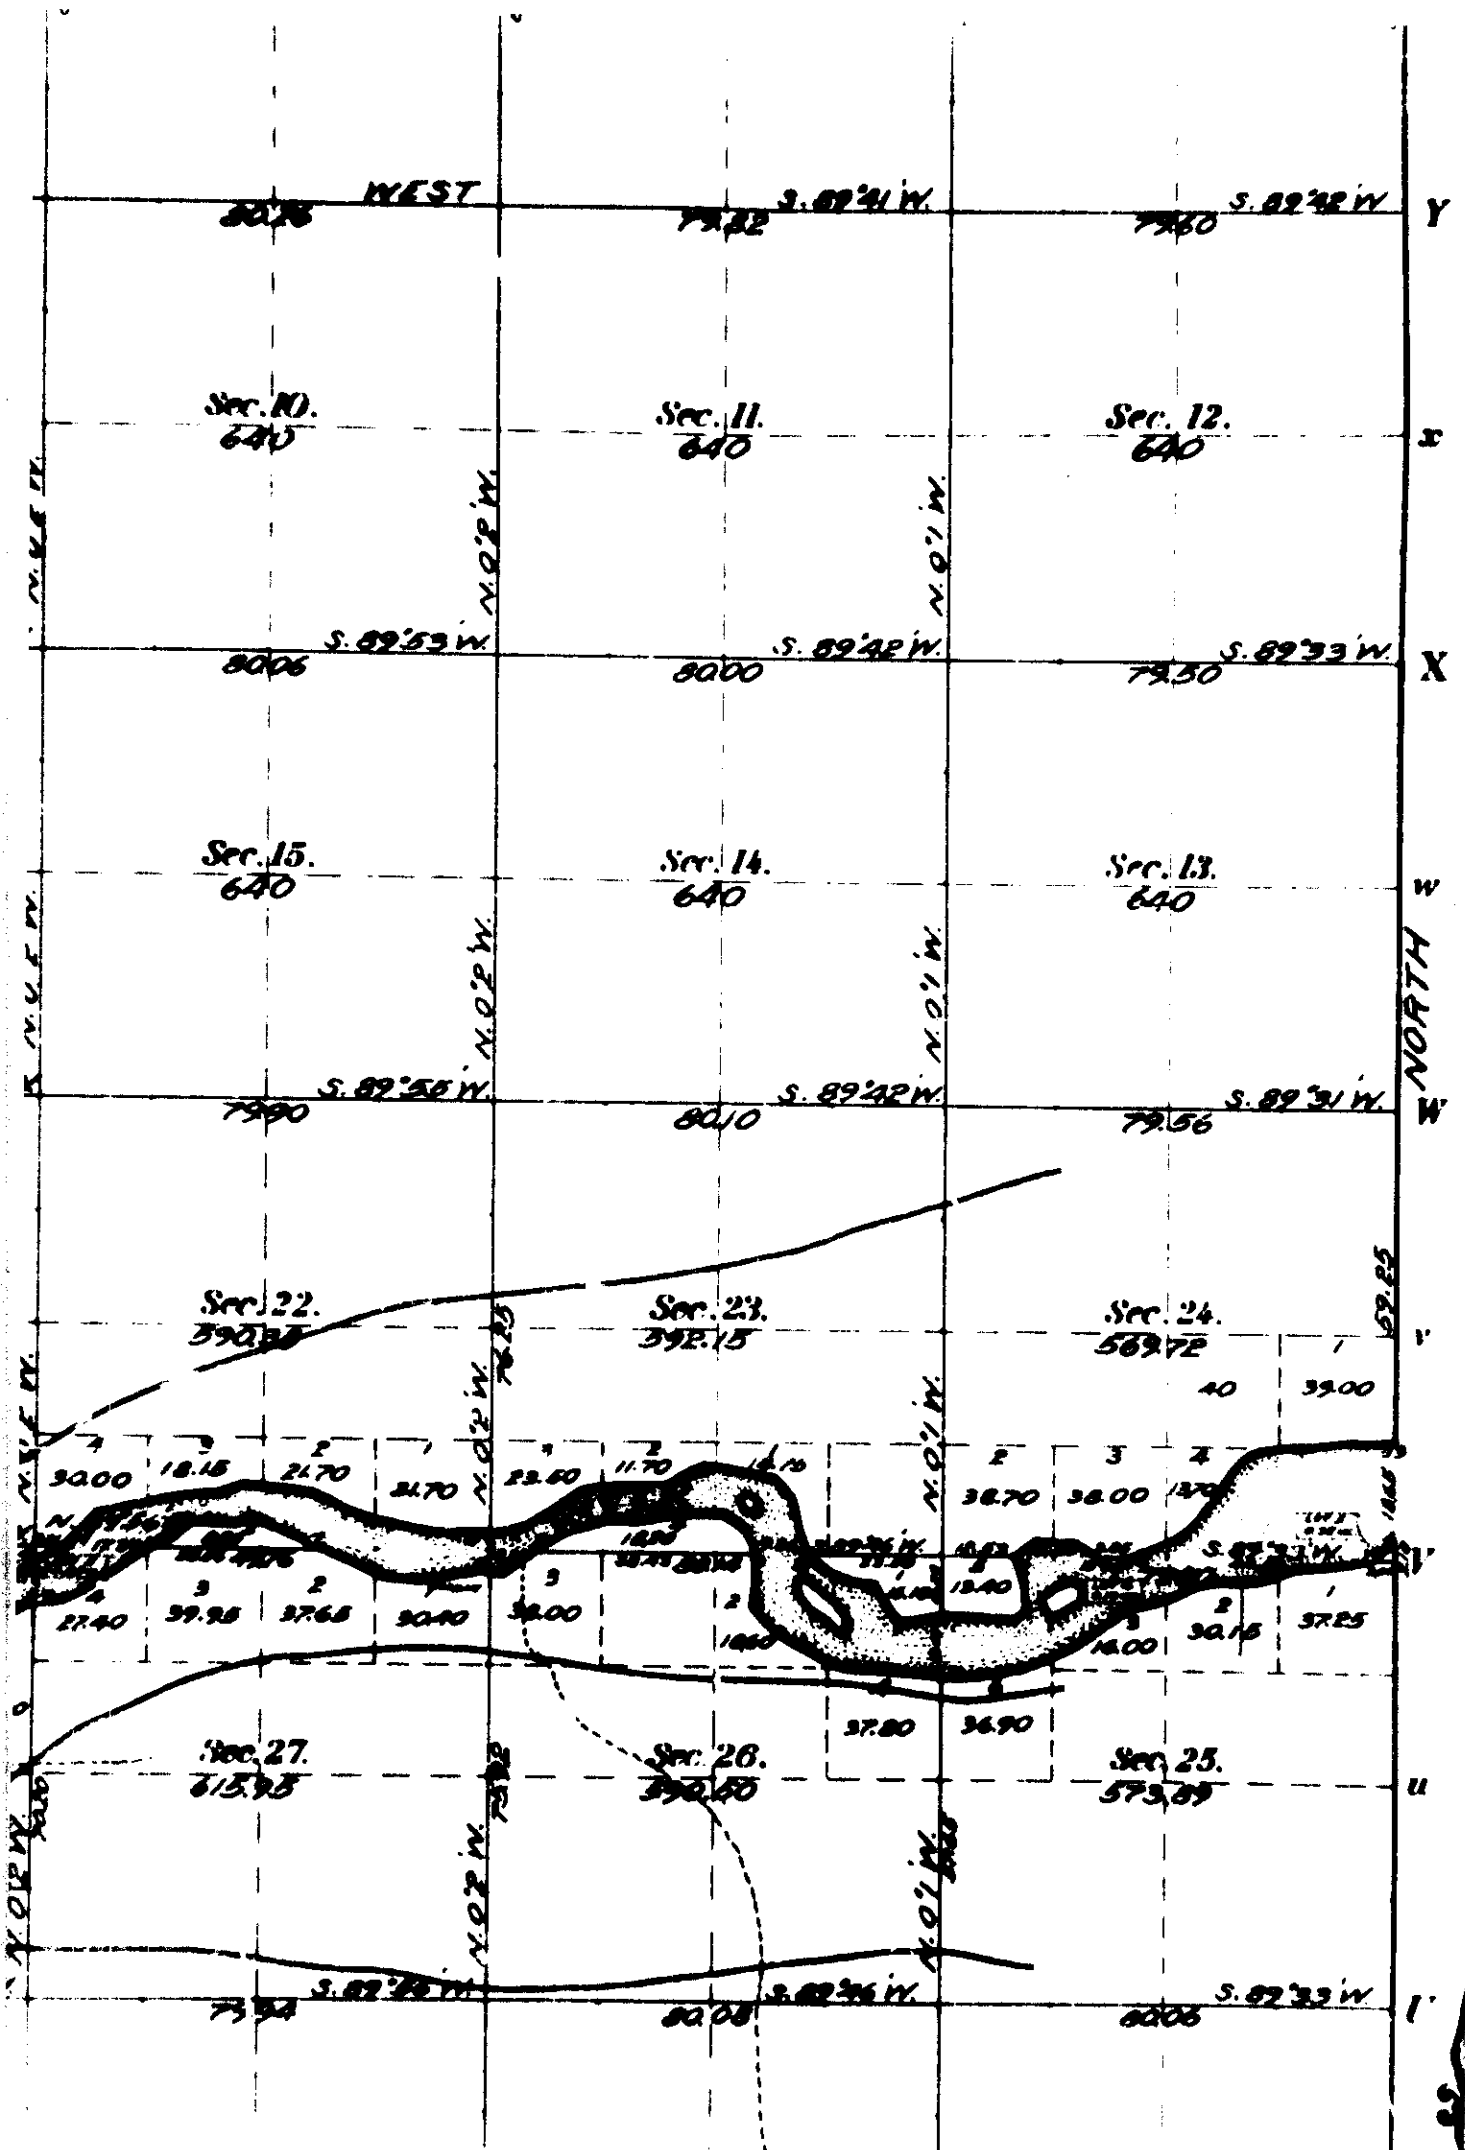

Sec. to sec. ref. This section is referred to in § 42-105.

IN REPLY
REFER TO:

150

NOV 10 1970

Mr. R. Keith Higginson, Director
Idaho Department of Water Administration
Statehouse, Annex 2
Boise, Idaho 83707

Dear Mr. Higginson:

This letter relates to water permit No. 26216 pertaining to the Unit A service area of the North Side Pumping Division of the Minidoka Federal reclamation project. Your office apparently uses the number 01-2060. We received the notice dated October 12, 1970, from your office signed by Bobby D. Fleenor which indicated that upon receipt of a fee totaling \$918 a water right license would be issued. Enclosed is a Treasury Department check for this amount.

On November 4 a conference was held in your office concerning the issuance of this water right license. The conference was attended by Mr. George Glarbor, president of the board of directors of the A&B Irrigation District, the organization which is operating the project on behalf of the water users. Also in attendance were Mr. Roger Ling, attorney for that district, and Mr. Virgil D. Temple, the manager of the district. Of principal concern at the conference was the variance between the actual amount of acres being irrigated under the Unit A pumping installation and the number of acres shown in the permit. The permit said 13,650 acres, whereas the notice issued by your office recognizes that there are 15,138 acres in the Unit A area. After careful reexamination and as stated at the conference, the service area of the Unit A pumping canal does encompass 14,647 irrigable acres and this area is on the assessment rolls of the district. Accordingly, we are enclosing an application to amend the permit to show this amount of acres. It is requested that the amendment be allowed and the water right license issued for this actual service area. It is the view of the district and of this office that such an amendment is permissible and is contemplated by section 42-211 of the Idaho Code as it existed and was in force at the time the permit was issued and at the time the water was actually applied to these lands. Also, as was discussed, such an amendment would conform your state water office records to the actual facts on the ground and it would be in keeping with the overall intended purpose of water records, that is, to display and record for the future the true facts with respect to the irrigation service actually provided. The

01-2060

adjustment is well within the give and take of the usual variances between design criteria and the actual constructed realities in a project construction of the scope here involved. As the permit amendment states, an additional amount of water is not asked for under this permit and license and the rights of others would not be adversely affected by the amendment.

It is expected that any fee required at the time of filing the application for amendment will be paid when this is delivered to your office. If there is an additional fee, we would appreciate information as to the amount.

Sincerely,

Acting Regional Director

Re: Permit No. 01-2060 (26216)

The United States of America
Regional Director, Region 1
Bureau of Reclamation
Box 937
Boise, Idaho 83701

Dear Sirs:

A representative of this department has made an examination of the works covered by your Permit No. 01-2060 and has found the following:

Quantity of water diverted: 240 c.f.s.

Amount of water that can be recognized as beneficially used under Idaho law: 240 c.f.s.

The maximum quantity of water diverted shall not exceed 54,600 acre feet per season. Said season to run from March 15 to November 15 of each year.

Beneficial Use: Irrigation of 13,650 acres of land located within the SE $\frac{1}{4}$ SW $\frac{1}{4}$ E $\frac{1}{2}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 25; S $\frac{1}{2}$ NE $\frac{1}{4}$, S $\frac{1}{2}$ Sec. 35; E $\frac{1}{2}$, E $\frac{1}{2}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ Sec. 36; T. 9 S., R. 21 E., B.M.; E $\frac{1}{2}$ Sec. 8; all of Secs. 9, 10, 11, 12, 14, 13, & 15; E $\frac{1}{2}$ E $\frac{1}{2}$, W $\frac{1}{2}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 16, NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$ Sec. 21; all of Sec. 22; continued below
The priority date established is: November 21, 1955

A fee totaling \$ 918.00 must be received within 30 days from the date of this letter in order that we can issue you a Water License as set forth in this letter.

Very truly yours,

BOBBY D. FLEENOR
Assistant Director

Department of Water Administration

AUG 17 1970

Mr. R. Keith Higginson
Idaho Department of Water Administration
Statehouse, Annex 2
Boise, Idaho 83707

Dear Mr. Higginson:

This is to call your attention to the need to issue the water right certificate under Permit No. R-1049, Little Wood River Reservoir. The Bureau of Reclamation has completed all of the actions required by the State of Idaho, including the filing of Proof of Beneficial Use. Following prescribed procedures, an appropriate notice was published in a newspaper in Blaine County, Idaho. After the publication was made, a Deposition of Holder and Depositions of Witnesses were signed on October 15, 1965, and sent to the State on the same day. No one appeared to protest the issuance of the certificate. The water users and the irrigation district expect the water right to be issued.

Nearly five years have elapsed since the documents described above were submitted to the State. This Bureau and the Little Wood River Irrigation District would like to have this action completed by issuance of a certificate. No purpose seems accomplished by further delay.

Sincerely,

H. R. Stivers

Acting

Regional Director

Department of Water Administration

Mr. R. Keith Higginson, Director
Idaho Department of Water Administration
Statehouse, Annex 2
Boise, Idaho 83707

Dear Mr. Higginson:

The Bureau of Reclamation has complied with the procedures of the State of Idaho for Palisades Reservoir Permit No. R-070. Proof of Beneficial Use was submitted to your office with our letter dated November 16, 1965.

On several occasions after we submitted the Proof of Beneficial Use, you have requested additional information such as maps showing irrigated areas, tabulations listing Palisades storage users, the amount of storage held by each, and the amounts used by each over a period of years. Information you have requested has been furnished to you.

The numerous benefitting irrigation districts and canal companies, the Committee of Nine and this Bureau would appreciate having this long-standing permit completed by issuance of the water right certificate.

Recently we received a copy of a letter addressed to the Bureau of the Budget by H. Tom Davis, identified as being Chairman of the Water Development Committee of the Idaho Environmental Council. In this letter the statement is made about Palisades Reservoir that the Idaho Department of Reclamation has unofficially refused "to validate" the State Water right for the project. Issuance of the water right certificate would stop this type of speculative statement.

Sincerely,

H. R. Stevens

Acting Regional Director

01-2060

Bureau of Reclamation (permit 26216)

I determined the amount of land that is being irrigated within the Unit "A" boundary by use of aerial photos at the A.S.C.S. offices of Jerome and Rupert. I plotted the boundaries on my plot from a map that the bureau sent to our department. I found a total of 15,138 acres being irrigated. This figure includes all ditches but excludes all county roads. Due to the ~~substantive~~ large area which makes it impossible to personally check the lands, I recommend a ^{maximum} of 13,650 acres to be licensed at 240 cfs., not to exceed 54,600 A.F. per season,

01-2060

BUREAU OF RECLAMATION

REGIONAL OFFICE REGION I

BOX 8008

BOISE, IDAHO 83707

IN REPLY
REFER TO 424

AUG 6 1970

01-2060

Mr. R. Keith Higginson, Director
Idaho Department of Water Administration
Statehouse - Annex 2
Boise, Idaho 83708

Dear Mr. Higginson:

A review of the current status of water right permits for Bureau of Reclamation Projects in Idaho reveals that we have never received a water right certificate for Unit A of the Minidoka North Side Pumping Division. The permit is number 26216.

The file indicates the Bureau has completed all of the requirements for a water right certificate, including the filing of Proof of Beneficial Use. After arranging for the prescribed publication of a notice in the Minidoka County News and the North Side News, Depositions of the Holder and of Witnesses were properly signed, notarized and sent to you on April 30, 1965.

In view of the fact that more than 5 years have elapsed since the documents described above were submitted to you, the Bureau of Reclamation and the A&B Irrigation District would like to have this action completed by issuance of a Certificate. Please advise us if you require additional information in connection with your field examination of this unit of the Minidoka Project.

Sincerely,

Regional Director

BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 26216This proof is for Beneficial Use

In Water District No. _____

1. Name of applicant Bureau of Reclamation, Region 12. Source of water supply: Snake River3. Location of point of diversion: Is in the SW 1/4 of Section 24T. 10 S R. 21 E.B.M. County of Jerome

4. Describe works as they exist, giving dimensions and capacities of same:

See Completion of work examination by G.N.C.5. Water is used for: Irrigation and domestic6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Secs. 25, 35, 36 Twp. 9 S., Rge. 21 EBM, Secs. 29, 30 31, 32, 33, 34, Twp. 9 S.,
Rge. 22 EBM., Secs. 1, 2, 3, 4, 8, 9, 10, 11, 12, 13, 14, 15, 16, 21, 22, 23, 24,
Twp. 10 S., Rge. 21 EBM., Secs. 4, 5, 6, 7, 8, 9, 10, 11, 15, 16, 17, 18, 19 20,
Twp. 10 S., Rge. 22 EBM. Making a total of 13, 650 acres

depositions claim 13, 841.7 A in 1965 I negotiate
acquisition since is 93.5 A per State Hwy Dept.,
13,750.2 A left

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks:

H.T. Nelson letter of April 30, 1962
indicates total irrigated acreage as 13, 841.7
and diversion capacity as 270 cfs.

Highest recorded flow by Snake River watermaster
through 1966 season was 257 cfs in 1964

IRRIGATION REQUIREMENT = 4.0 Ac-Ft / Acre / Season

This examination was made on the 1st day of Oct., 1970(Signed) Fred E. East Examiner.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
 6. Give general characteristics of soils, topography, and crops raised.

Mr. Nelson:

A representative of this department has made an examination of the works covered by your Permit 26216 and has found the following:

Quantity of water diverted: 257 c.f.s.

Amount of water that can be recognized as beneficially used under Idaho Law: 240 c.f.s.

The maximum quantity diverted shall not exceed 54,600 acre feet per season.

Purpose of use: Irrigation of 13,650 acres in North Side Pumping Divison, Minidoka project.

The priority date established is: November 21, 1955

A fee totaling \$ 930.00 must be received within 30 days from the date of this letter in order that we can issue you the License and Certificate of Water Right as described above.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Mr. R. Keith Higginson
State Reclamation Engineer
107 State House
Boise, Idaho 83701

Attention: Mr. Donald J. Watts

Dear Mr. Higginson:

Enclosed, under separate cover, is a marked up map showing the irrigated acreages served by Permit 26216 for Unit A of the Minidoka Project, North Side Unit. Mr. Watts requested this map by letter dated February 8, 1968.

The map shows the general outlines of Unit A, but some farm units thereon are served by wells and are actually in Unit B. We have written "out" on these units to show that they are not in Unit A.

Irrigable acreages are shown by farm units on the map for a substantial portion of Unit A. Lands that were privately owned when the project was developed are shown by normal sectional subdivisions. This is the same way we listed irrigable acreages when we filed proof of beneficial use.

Very truly yours,

E. H. Neal
Regional Supervisor of Irrigation

Enclosure #140749

Dear Sir:

For our records and to facilitate our field examination of the works covered by your permit 26216 for Unit A of the Minidoka Project, we need a map showing the irrigated acreage served by the Bureau of Reclamation. If you have such a map available, we would appreciate receiving a copy.

Very truly yours,

Donald J. Watts, P. E.
Engineer

Re: Permit No. 26216

H. T. Nelson, Regional Director
Region 1
Bureau of Reclamation
P. O. Box 2161
Boise, Idaho

Dear Mr. Nelson

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the ~~MINIDOKA COUNTY NEWS and THE NORTH SIDE NEWS~~, all submitted in proof ~~of beneficial use of works~~ and beneficial use on Permit No. 26216.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

IN REPLY
REFER TO: 424

APR 30 1965

Mr. Carl E. Tappan
State Reclamation Engineer
Department of Reclamation
107 State House
Boise, Idaho 83701

Dear Mr. Tappan:

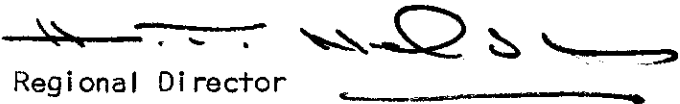

Enclosed are the signed original Depositions of Witnesses and the Deposition of Holder, required portions of the proof of application of water to beneficial use in connection with Permit No. 26216. This is the permit for Unit A of the North Side Pumping Division, Minidoka Project. The witnesses and the holder of permit appeared before John H. Welch, Notary Public at the Fairgrounds, Boise, Idaho, at 10:00 a.m. on April 30, 1965, and signed the enclosed documents.

Also enclosed are the original affidavits of publication from the Minidoka County News and the Jerome North Side News. These concern the notice of proof of application of water to beneficial use in subject application.

You will note we report an actual use of water and an acreage irrigated in excess of amounts stated in the permit. Our actual use of water during periods of highest demand goes up to 270 cubic feet per second. The total acreage actually being irrigated is 13,841.7.

The water right certificate should be issued for the total acreage, since this is an integrated system. Unless it is possible for you to cover the actual quantity of water beneficially used under the water license, we plan to file an additional application for the use of this water on the entire acreage as that is where in fact it is being used.

Very truly yours,

Regional Director

Dear Mr. Tappan:

In accordance with your letter of March 16, 1965, Messrs. H. T. Nelson, E. H. Neal and Terrance A. Gulley appeared before me in the Bureau of Reclamation office at the Fairgrounds, Boise, Idaho, at 10:00 a.m. on April 30, 1965, to sign the required documents for Notice of Proof of Application of Water to Beneficial Use under Permit No. 26316. The documents were signed in my presence and I have so noted by my signature and Notary's seal thereon.

Very truly yours,

John H. Welch
Notary Public for the
State of Idaho

Permit No. 26216

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address: The United States of America, acting through the Regional Director, Region I, Bureau of Reclamation, P. O. Box 937, Boise, Idaho.
H. T. NELSON

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf:

United States Bureau of Reclamation, Boise, Idaho, Regional Director of Region I

Ques. 3. State number, approval date of permit, and date of priority you propose to establish under the permit; Permit No. 26216, Approved: 2-29-56 Priority: 11-21-55
Storage 47,593 ac.ft. American Falls, 90,800 ac.ft.

Ques. 4. State source of water supply: Palisades & Snake River natural flow
Give location of point of diversion, showing subdivision, section, township and range:

SW1/4 Sec. 24, T. 10 S., R. 21 E., B.M.

Ques. 5. Describe your works of diversion: Water is pumped from a main pumping plant in Milner Reservoir on Snake River with capacity of 270 c.f.s., into a main canal and lateral system for delivery to irrigable lands; state amount of water they are capable of conveying from point of diversion to place of use 270 c.f.s.; Give name of canal or ditch or other works by which water is conducted to such place of use: Unit A Main Canal and distribution system of the North Side Pumping Division; if a well, state depth of well _____; depth and size of casing: _____; depth to water _____; if pump is used, state discharge of pump: 270 c.f.s.; tell how it was measured or determined: metered

_____; if sprinkler irrigation, give number and size of nozzles and operating pressure: _____

7 Ques. 6. State for what purpose water is used: For irrigation of 13,841.7 acres of land
If for irrigation, name each subdivision in which used and number of acres in each subdivision that have actually been irrigated with said water : _____

See attached supplement for location.

State nature of all improvements which have been made as a direct result of said use:

The irrigated lands are cultivated and improvements normal to a diversified irrigated area have been constructed.

26216

Ques. 6-a: If this is a ground water permit, give name and address of person that drilled the well: _____

Ques. 7. If for other than irrigation purposes, state purpose and how used:

Ques. 8. What is the minimum amount of water required for the purpose specified above:

270 c.f.s.

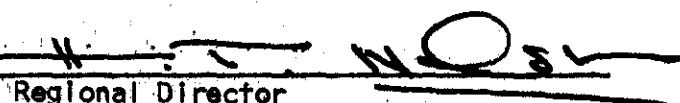

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder:

Ques. 10. State when and in what amount the water diverted under above mentioned permit has been first used: April 1957 - 270 c.f.s. Time used since first use:

Continuously during each irrigation season since 1957

Ques. 11. Describe all other water rights appurtenant to same place of use:

None

(sign) 

Regional Director

Region I, Bureau of Reclamation

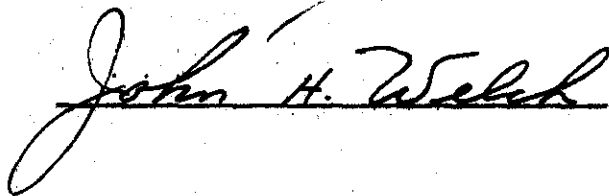

I hereby certify that the foregoing testimony was read to the above subscribed, before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in

Boise

, County of Ada

State of Idaho, on this 30th day of April, A.D. 1965.

My Commission expires: 6-10-67

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

PERMIT NO. 26216

Proof of Application of Water to Beneficial Use
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Terrance A. Gulley, voting age, Chief, North Side Pumping Division, U.S.
Bureau of Reclamation, P. O. Box 751, Burley, Idaho

Ques. 2. Are you acquainted with the Regional Director, Region I, U.S.B.R., the holder of Permit No. 26216? How long have you known him and where does he reside?

Ans. Yes

Ques. 3. Have you read or heard read said Permit No. 26216, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of water supply - natural flow of Snake River, plus 47,593 ac.ft. of active storage rights in American Falls Reservoir and 90,800 ac.ft. of active storage rights in Palisades Reservoir. Place of diversion-SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 24, T. 10 S., R. 21 E., B.M. Water is pumped from main pumping plant in Milner Reservoir on Snake River with capacity of 270 cfs, into a main canal and lateral system for delivery to irrigable lands.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 270 cfs.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation of 13,841.7 (actual) acres of land. See attached supplement. The irrigated lands are cultivated and improvements normal to a diversified irrigated area have been constructed.

26216

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land that is being irrigated is generally deep silt loams with calcareous sub-soils frequently with basalt or caliche sub-strata. Three to four acre feet of water per acre is required for profitable cultivation each season.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. 1957 and each subsequent irrigation season by 270 cfs being applied to the land through Unit A distribution system.

Jennance A. Gully
(Signed)

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Boise, County of Ada, State of Idaho, on this 30th day of April, A. D. 1965.

John H. Welch
Notary Public.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

PERMIT NO. 26216

Proof of Application of Water to Beneficial Use
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. E. H. Neal, voting age, Regional Supervisor of Irrigation, U.S. Bureau of Reclamation, P. O. Box 937, Boise, Idaho.

Ques. 2. Are you acquainted with the Regional Director, Region I, U.S.B.R., the holder of Permit No. 26216? How long have you known him and where does he reside?

Ans. Yes

Ques. 3. Have you read or heard read said Permit No. 26216, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of water supply - natural flow of Snake River, plus 47,593 ac.ft. of active storage rights in American Falls Reservoir and 90,800 ac.ft. of active storage rights in Palisades Reservoir. Place of diversion-SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 24, T. 10 S., R. 21 E., B.M. Water is pumped from main pumping plant in Milner Reservoir on Snake River with capacity of 270 cfs, into a main canal and lateral system for delivery to irrigable lands.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 270 cfs.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation of 13,841.7 (actual) acres of land. See attached supplement. The irrigated lands are cultivated and improvements normal to a diversified irrigated area have been constructed.

26216

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

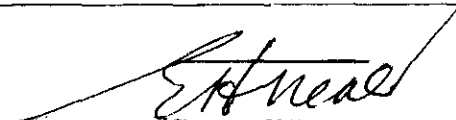

Ans. The land that is being irrigated is generally deep silt loams with calcareous sub-soils frequently with basalt or caliche sub-strata. Three to four acre feet of water per acre is required for profitable cultivation each season.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

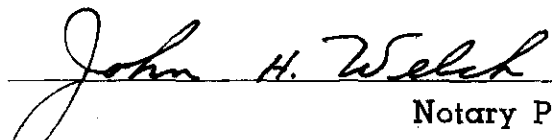

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. 1957 and each subsequent irrigation season by 270 cfs being applied to the land through Unit A distribution system.

(Signed)

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Baise, County of Ada, State of Idaho, on this 30th day of April, A. D. 1965.

Notary Public.

My commission expires 6-10-67

APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that
at 10:00 A. M. on the 26th day
of April, 1965, at the Fair-
grounds, Boise, County of Ada,
State of Idaho, before John H.
Welch, Notary Public, proof
will be submitted of the appli-
cation to beneficial use of 240
cubic feet per second of the
waters of Snake River in ac-
cordance with the terms and
conditions of Permit No. 26216
heretofore issued by the De-
partment of Reclamation of the
State of Idaho.

The name and post office ad-
dress of the person or corpora-
tion holding said permit The
United States of America, act-
ing through the Regional Di-
rector, Region 1, Bureau of
Reclamation, Box 937, Boise,
Idaho

The use to which said water
has been applied is irrigation
and domestic use

The amount applied to bene-
ficial use is 240 cubic feet per
second

The point of diversion of
said water is SW1/4SW1/4 of
Section 24, T. 10 S., R. 21 E., B.
M.

The place where said water
is used 13,650 acres in Secs. 25,
35, 36, T. 9 S., R. 21 E., B. M.;
Secs. 29, 30, 31, 32, 33, 34, T.
9 S., R. 22 E., B. M.; Secs. 1, 2,
3, 4, 8, 9, 10, 11, 12, 13, 14, 15,

Application for Amendment

LAND LIST

Permit No. 26216RECEIVED
MAR 16 1965

Department of Reclamation

The United States of America, acting through the Regional
Comes now Director, Region I, Bureau of Reclamation, and represents

to the STATE RECLAMATION ENGINEER of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 26216, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

Secs. 25, 35, 36, T. 9 S., R. 21 E., B.M.; Secs. 29, 30, 31, 32, 33, 34, T. 9 S.,

R. 22 E., B.M.; Secs. 1, 2, 3, 4, 8, 9, 10, 11, 12, 13, 14, 15, 16, 21, 22, 23, 24,

T. 10 S., R. 21 E., B.M.; Secs. 4, 5, 6, 7, 8, 9, 10, 11, 15, 16, 17, 18, 19, 20,

T. 10 S., R. 22 E., B.M.

_____ , making a total of 13,650 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Boise, Idaho this 15th day of March, 1965.

Ralph W. Jones
Acting Regional Director

Date of receipt at office of Department of Reclamation March 16, 1965

APPROVAL OF STATE RECLAMATION ENGINEER

I, GEO. L. CAMPBELL, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. 26216. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

NOTICE FOR PUBLICATION

NOTICE OF PROOF APPLICATION OF
WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A.M. on the 30th day of April, 1965, at the Fairgrounds, Boise, County of Ada, State of Idaho, before John H. Weich, Notary Public, proof will be submitted of the application to beneficial use of 240 cubic feet per second of the waters of Snake River in accordance with the terms and conditions of Permit No. 26216 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and post office address of the person or corporation holding said permit The United States of America, acting through the Regional Director, Region I, Bureau of Reclamation, Box 937, Boise, Idaho.

The use to which said water has been applied is irrigation and domestic use. The amount applied to beneficial use is 240 cubic feet per second. The point of diversion of said water is SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 24, T. 10S., R. 21 E., B.M.

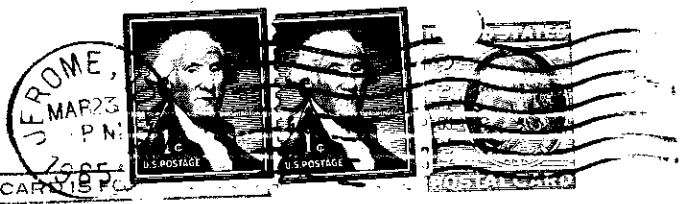

The place where said water is used 13.650 acres in Secs. 25, 35, 36, T. 9S., R. 21 E., B.M.; Sec. 29, 30, 31, 32, 33, 34, T. 9 S., R. 22 E., B. M.; Secs. 1, 2, 3, 4, 8, 9, 10, 11, 12, 13, 14, 15, 16, 21, 22, 23, 24, T. 10 S., R. 21 E., B.M.; Secs. 4, 5, 6, 7, 8, 9, 10, 11, 15, 16, 17, 18, 19, 20, T. 10 S., R. 22 E., B. M.

The date of priority which said user is prepared to establish is November 21, 1955.

CARL E. TAPPAN,
State Reclamation Engineer.

Re: Permit No. 26216
Your No. 424

March 16, 1965

Bureau of Reclamation,
Box 937,
Boise, Idaho.

Gentlemen:

This acknowledges the Notice of Proof of ~~Application~~ Application of water to Beneficial Use under Permit No. 26216. The proofs are to be made at 10:00 o'clock A.M., on the 30th day of April, 1965, before John H. Welch, Fairgrounds, Boise, Idaho, Notary Public.

As of this date, we have mailed the Notice to the North Side News Jerome, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

INSTRUCTIONS TO PUBLISHERS

Extreme care should be exercised to insure that the specifications for advertising to be set other than solid be definite, clear, and specific since no allowance will be made for paragraphing or for display or leaded or prominent headings, unless specifically ordered, or for additional space required by the use of type other than that specified. Specifications for advertising other than solid will accompany the advertisement copy submitted to the publisher with the advertising order and copies of both documents will be transmitted to the General Accounting Office with the voucher. The following is a sample of solid line advertisement set up in accordance with the usual Government requirements.

TREASURY DEPARTMENT, Office of the Supervising Architect, Washington, D. C., May 16, 1913.—Sealed proposals will be received at this office until 3 o'clock p. m. on the 20th day of June, 1913, and then opened, for an electric vault-protection system in the United States post office at Indianapolis, Ind., in accordance with the specification, copies of which may be had at this office or at the office of the custodian at the discretion of the Supervising Architect, O. Wenderoth, Supervising Architect.

Your bill for this service should be rendered upon the voucher form printed on the reverse hereof immediately after the last insertion of the advertisement. The voucher, together with a marked copy of each issue of the paper containing the advertisement, should be addressed to

Bureau of Reclamation, Box 937, Boise, Idaho

If copies of the publication are not available, it will be satisfactory if an affidavit of publication is furnished in lieu thereof.

IMPORTANT

Charges for advertising when a cut, matrix, stereotype, or electrotype is furnished will be based on actual space used and no allowance will be made for shrinkage.

In no case shall an advertisement extend beyond the date and edition herein named for publication.

Dear Mr. Moore:

Your notice for publication in connection with the above numbered permit is returned herewith. You list in T9S-R22E Section 29, 30, 33, and 34, and these sections are not included in the permit or the completion of works. The permit also lists Section 3, in T10S-R22E that is not included in your notice.

If there have been changes to the land list an amendment will be required. If no changes have been made, then the form 36 should be corrected to agree with the permit.

Enclosed herewith are amendment forms for making changes to the land list. The recording fee for an amendment is \$1.00.

Please make the necessary corrections and/or amendment and return promptly.

IN REPLY
REFER TO 424

Handwritten: Jan 11 1962
Handwritten: 424

To: Project Superintendent, Burley, Idaho

From: Regional Director, Boise, Idaho

Subject: Permit No. 26216, Unit A, North Side Pumping Division, Mihidoka Project, Idaho

Enclosed is a copy of a letter dated March 26, 1962 from the State Reclamation Engineer stating that a Certificate of Completion of Works in connection with Permit No. 26216 will be issued upon receipt of the Statutory fee of \$74.00.

26216

The Statute, Idaho Code 42-221, requires a payment of \$5.00 for the first 10 cubic feet per second and 30 cents for each additional cubic foot per second. On this basis, the fee of \$74.00 is correct.

Please arrange to pay this obligation. The payment should be made to the State Department of Reclamation.

RE: Permit No. 26216

Harold T. Nelson, Regional Director, Region 1
Bureau of Reclamation
Box 937
Boise, Idaho

Dear Mr. Nelson:

Our engineer's report on his inspection of the completion of works under the terms of Permit No. 26216 shows that the pumping plant is capable of conveying 240 c.f.s. or 12,000 miner's inches of water for irrigation and domestic use.

Upon receipt of the Statutory fee of \$74.00 we will issue the Certificate of Completion of Works with point of diversion in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 24, Township 10 South, Range 21 East to irrigate approximately 13,650 acres in Sec. 25, 35, 36, T. 9 S., R. 21 E., B.M.; Sec. 31, 32, T. 9 S., R. 22 E., B.M.; Sec. 1, 2, 3, 4, 8, 9, 10, 11, 12, 13, 14, 15, 16, 21, 22, 23, 24, T. 10 S., R. 21 E., B.M.; Sec. 3, 4, 5, 6, 7, 8, 9, 10, 11, 15, 16, 17, 18, 19, 20, T. 10 S., R. 22 E., B.M.

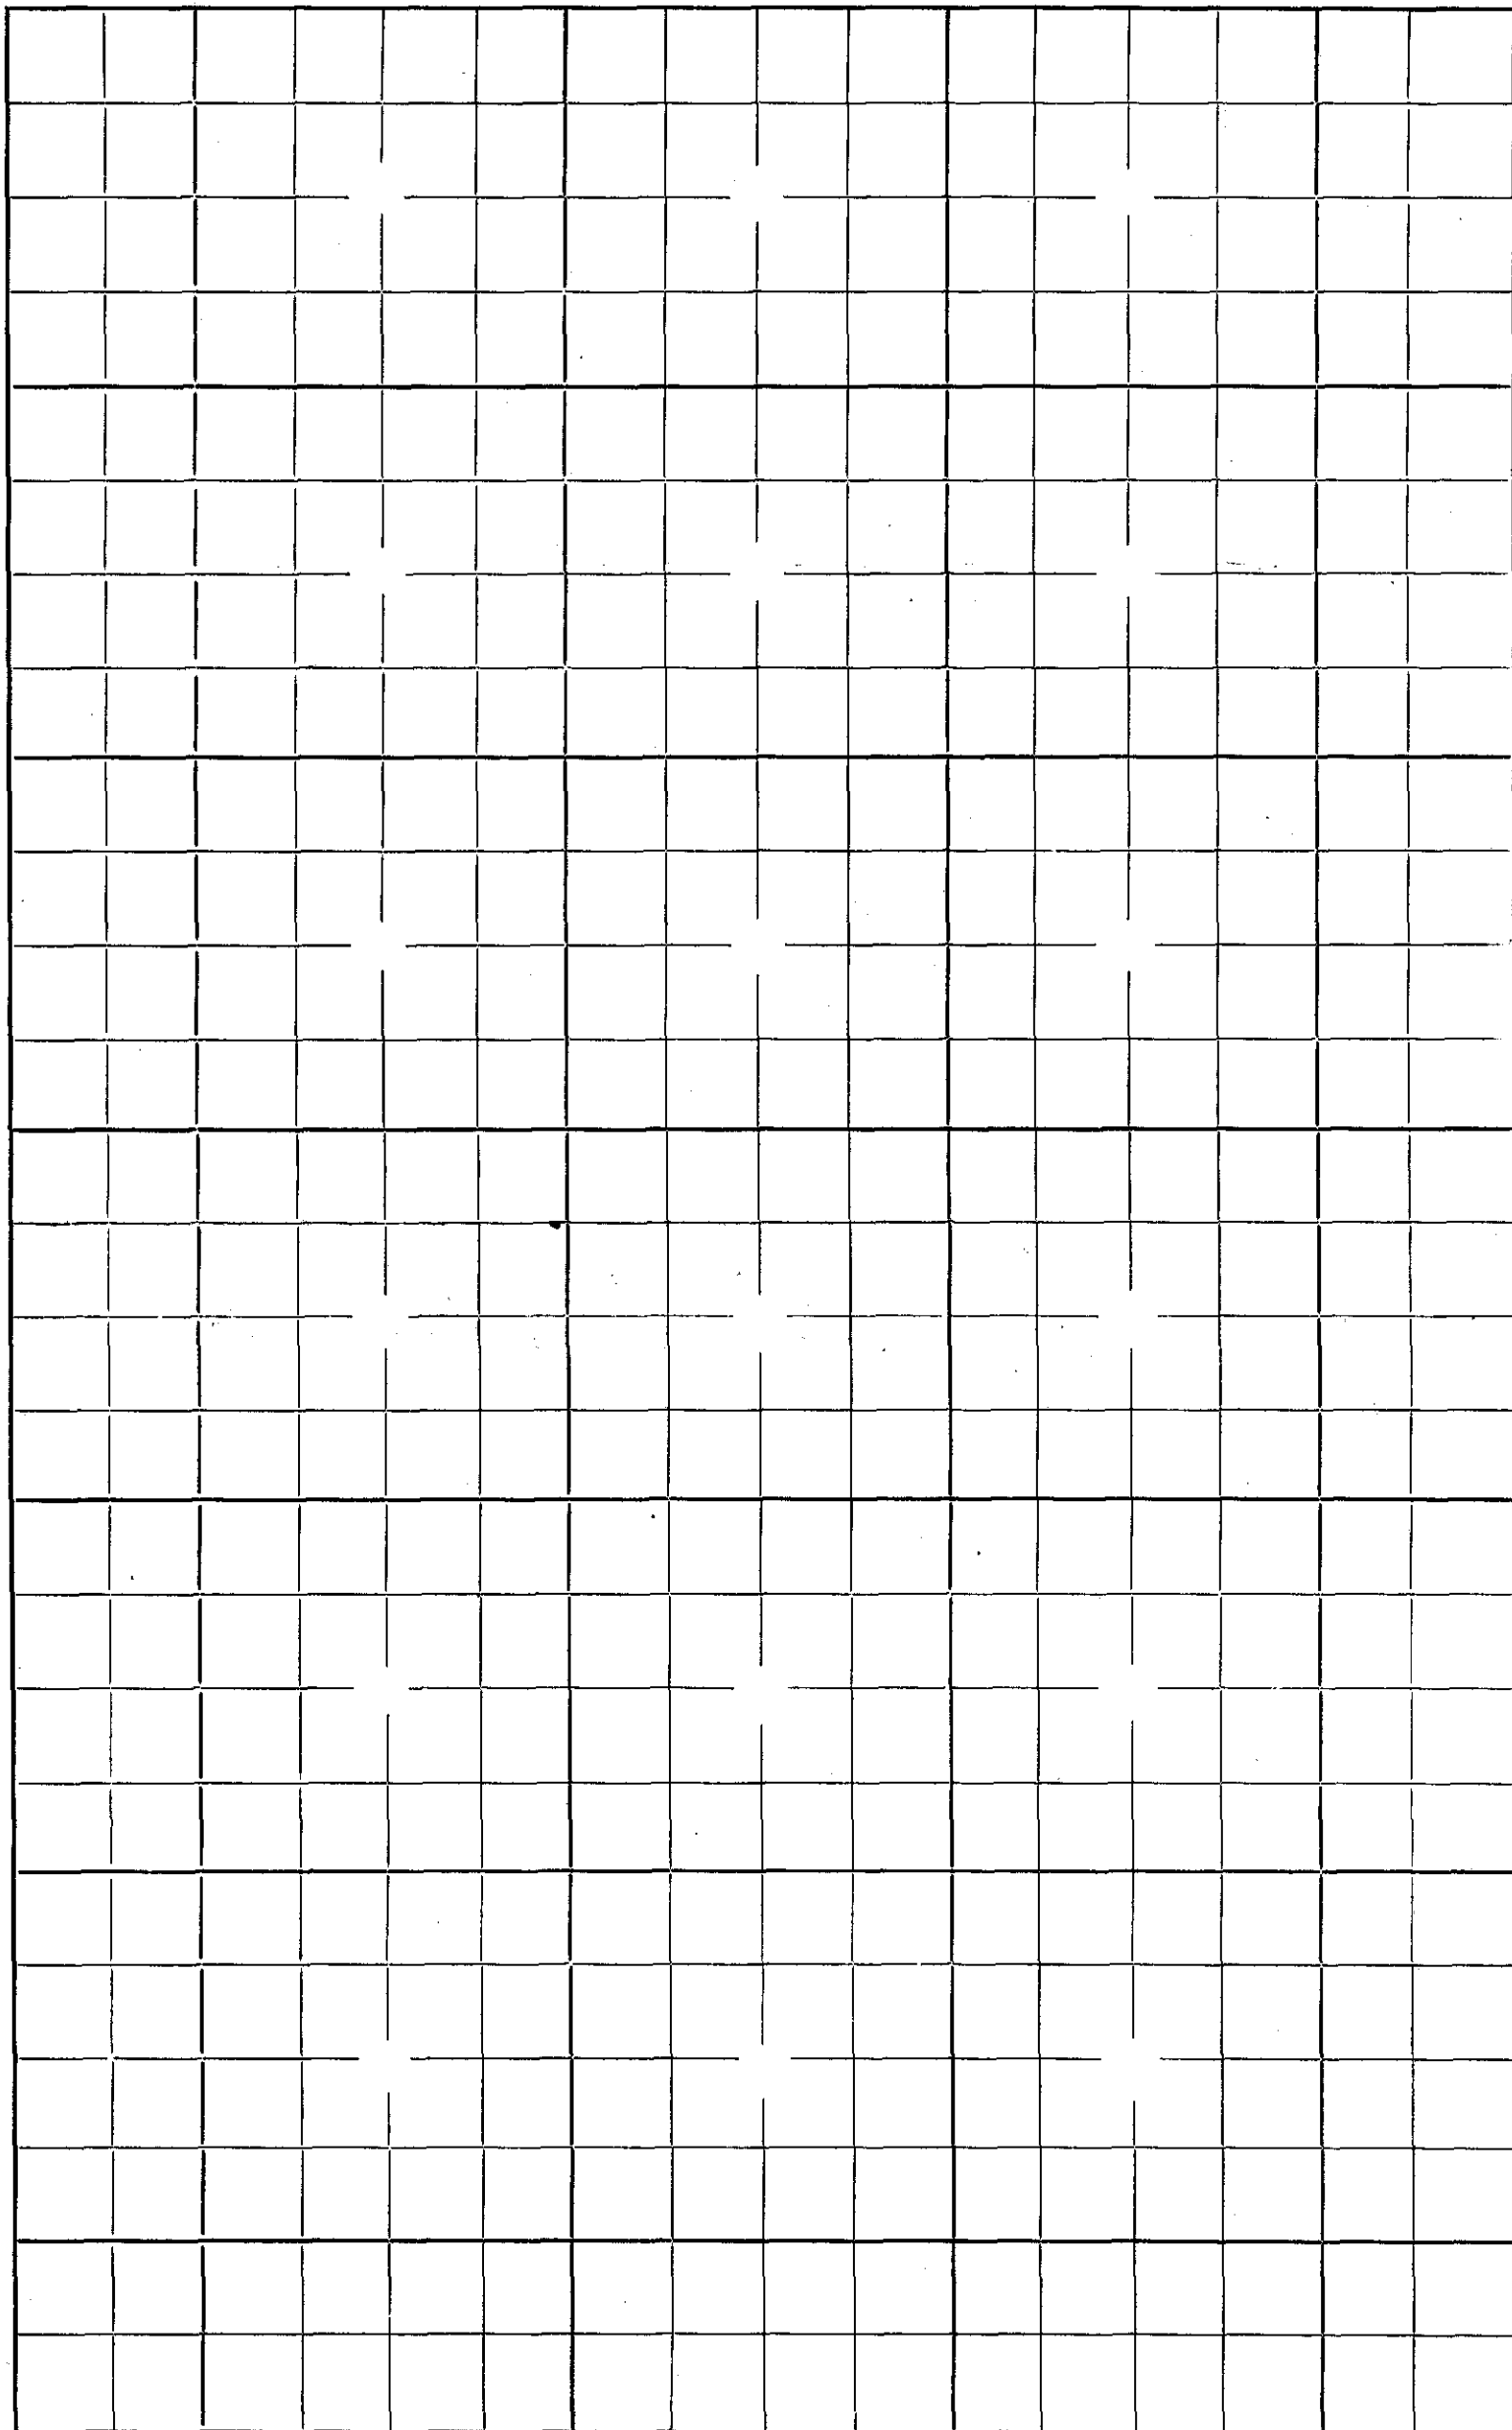

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

P. O. Box 937, Boise, Idaho

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

REPORT OF ENGINEER

Permit No. 26216

This proof is for Completion of Works

In Water District No. _____

1. Name of applicant Bureau of Reclamation
2. Source of water supply: Snake River
3. Location of point of diversion: Is in the SW 1/4 SW 1/4 Section 24
T. 10 S R. 21 E.B.M. County of Jerome

Describe works as they exist, giving dimensions and capacities of same: Main pumping plant consists of five, horizontal, double-suction, centrifugal pump units, direct connected to synchronous motors. Combined maximum power rating 6,000 hp. Rated total output at a normal total head of 168 feet is 240 cfs. Pump discharges are manifolded into 78-in. steel discharge line which discharges into gravity distribution canal. Main Canal has initial bottom width of 14 ft., 32 ft. width at waterline, capacity of 240 c.f.s. and length of 4.4 miles. A lateral distribution system, including five small relief pumps, has been completed to serve approximately 13,650 acres.

5. Water is used for: irrigation and domestic
6. State whether or not water has been turned into works of diversion: _____

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

	Acres		Acres
9 S., 21 E.B.M. Sec. 25	97	10 S., 21 E.B.M. Sec. 13	504
35	276	14	583
36	494	15	619
9 S., 22 E.B.M. 31	412	16	249
32	562	21	205
10 S., 21 E.B.M. 1	404	22	499
2	585	23	282
3	524	24	55

15	101
16	255
17	303
18	508
19	114
20	12

An approximate total of 13,650 acres

This examination was made on the _____ day of July, 19 60

(Signed) _____

Examiner.

26216

Harold T. Nelson, Regional Director
Bureau of Reclamation
P. O. Box 937, Boise, Idaho
Permit No. 26216

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
 6. Give general characteristics of soils, topography, and crops raised.

Re: Permit No. **S. 26216 and R-670**

Regional Director, Region 1
Bureau of Reclamation
P. O. Box 937
Boise, Idaho

Dear Sir:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the papers mentioned below, all submitted in proof of completion of works ~~and~~ ~~beneficial use~~ on Permit No **S. 26216 and R-670.**

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

WORKS

Notice is hereby given that, at
10 A. M., on the 14th day of
February 1961, at Boise, County
of Ada, State of Idaho, before
John H. Welch proof will be sub-
mitted of the completion of
works for the diversion of 240
cubic feet per second of the
waters of Snake River in accor-
dance with the terms and condi-
tions of a certain permit here-
tofore issued by the Depart-
ment of Reclamation of the
State of Idaho.

1. The name of the person or
corporation holding said permit
is The United States of Ameri-
ca, acting through the Regional
Director, Region 1, Bureau of
Reclamation of the Dept. of the
Interior.

2. The postoffice address of
such person or principal place
of business of such corporation
is P. O. Box 937, Boise, County
of Ada, State of Idaho.

3. The number of such permit
is 26216, and the date set for the
completion of such work is
March 1, 1961.

4. Said water is to be used for
irrigation and domestic pur-
poses.

5. Said works of diversion will
be fully completed on the date
set for such completion, and the
amount of water which said
works are capable of conduct-
ing to the place of intended use,
in accordance with the plans ac-
companying the application for
such permit, is 240 cubic feet
per second.

6. The amount of lands for
which said water is available is

described as follows: T. 2 S., R.
21 E., secs. 25, 35, 36
T. 9 S., R. 22 E., secs. 31, 32

SS.

H. T. Nelson

being first duly sworn, upon his oath deposes and says:

First: That he is ~~the~~ ^{acting for the United States,} holder and owner of Permit to appropriate the Public Waters of the State of Idaho, No. 26216, and that his postoffice address is P. O. Box 937, Boise, State of Idaho.

Second: That the name of the stream from which said water is to be diverted is Snake River.

Third: That the point of diversion of said water is approximately 900 feet east from the southwest corner of sec. 24, T. 10 S., R. 21 E., B.M., and is in the SW $\frac{1}{4}$ sec. 24, T. 10 S., R. 21 E., B.M., Jerome County.

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by March 1, 1961.

Fifth: That the use for which said water is intended is irrigation and domestic.

Sixth: That on the date above mentioned, the works constructed under said permit were ~~(are)~~ ^{were not} fully completed and consisted of the following:

I. Kind of Works: Main pumping plant, canal and lateral systems including relift pumps. Existing Milner Dam pool used as forebay.
(RESERVOIR, DAM, DITCH, FLUME, PIPE OR OTHERWISE)

II. Dimensions of work:

(a) Height of dam _____ feet, length of dam at top _____ feet, length of dam at bottom _____ feet. Material used in construction _____

(STATE WHETHER WOOD, EARTH STONE OR CONCRETE)

(b) Capacity of reservoir _____ acre feet.

(c) Size of headgate: Width _____ feet, height _____ feet, 78" OD steel discharge pipe.

(d) Conduit Main Canal, width at bottom 14 feet, width at water line 32

(STATE WHETHER DITCH, FLUME OR PIPE)

feet, depth of water 4.5 feet; diameter of pipe _____ inches, average grade is

.00036 to .0005

feet. Length of conduit is 4.5 miles.

Seventh: That said works are capable of conducting to the place of intended use _____ 240 second feet of water.

Eighth: That water appropriated under said permit is available for 13,650 acres of land described as follows: being within secs. 25, 35, and 36, T. 9 S., R. 21 E., B.M.; secs. 31 and 32, T. 9 S., R. 22 E., B.M.; secs. 2, 3, 4, 8, 9, 10, 11, 12, 13, 14, 15, 16, 21, 22, 23, and 24, T. 10 S., R. 21 E., B.M.; secs. 3, 4, 5, 6, 7, 8, 9, 10, 11, 15, 16, 17, 18, 19, and 20, T. 10 S., R. 22 E., B.M.

Ninth: Remarks:—That the water supply to be diverted under this permit is for irrigation development of Unit A, North Side Pumping Division, Minidoka Project.

DEPOSITION OF WITNESS

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Robert H. Harris, Boise, Idaho, Regional Engineer, P. O. Box 937, Boise, Idaho

Ques. 2. Are you acquainted with The United States of America, the holder of Permit No. 26216, authorizing the diversion of 240 second-feet of the waters of Snake River, above Milner Dam for irrigation and domestic purposes? How long have you known him, and where does he reside?

Ans. Yes.

Ques. 3. Have you read or heard read said Permit No. 26216, and are you familiar with its terms and conditions?

Ans. Yes.

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated under said permit? If so, describe same, state its character, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Yes. Generally consist of deep silt loams of high quality. In crop adaptability these lands should compare favorably with the best land now under cultivation in the Upper Snake River Basin. A total diversion of from 4 to 5 acre-feet per acre.

Ques. 5. Are the works of diversion fully completed and of sufficient capacity to convey the entire amount of water set out in the permit from point of diversion to place of use?

Ans. Yes.

Ques. 6. Describe the works of diversion as they now exist, and give your estimate of their capacity.

Ans. A main pumping plant consisting of five electric driven pump units and a canal and lateral system including relift pumps. The system is capable of pumping at least 240 cfs against a total dynamic head of 168 feet.

Department of Interior,
Box 937,
Boise, Idaho.

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 26216. The proofs are to be made at 10:00 o'clock A.M., on the 14th day of February, 1961, ~~1958~~ before John H. Welch, Notary Public.

As of this date we have mailed the Notice to the North Side News & Minidoka County News with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Notice for Publication FOR COMPLETION OF WORKS

Notice is hereby given that at 10 A.M., on the 14th day of February, 1961, at Boise, County of Ada, State of Idaho, before John H. Welch proof will be submitted of the completion of works for the diversion of 240 cubic feet per second of the waters of Snake River. In accordance with the terms and conditions of a certain permit heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name of the person or corporation holding said permit is The United States of America, acting through the Regional Director, Region 1, Bureau of Reclamation of the Dept. of the Interior

2. The postoffice address of such person or principal place of business of such corporation is P. O. Box 937,
Boise, County of Ada, State of Idaho.

3. The number of such permit is 26216, and the date set for the completion of such work is March 1, 1961

4. Said water is to be used for irrigation and domestic purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 240 cubic feet per second.

6. The amount of lands for which said water is available is 13,650 acres, located in Unit A of the North Side Pumping Division of the Minidoka Project, described as follows:
T. 9 S., R. 21 E., secs. 25, 35, 36
T. 9 S., R. 22 E., secs. 31, 32
T. 10 S., R. 21 E., secs. 1, 2, 3, 4, 8, 9, 10, 11, 12, 13, 14, 15, 16, 21, 22, 23, 24
T. 10 S., R. 22 E., secs. 3, 4, 5, 6, 7, 8, 9, 10, 11, 15, 16, 17, 18, 19, 20

Dear Mr. Carter:

I wish to hereby give notice that I am prepared to submit Proof of Completion of Works under Permit No. 26216 relative to the diversion of 240 cubic feet per second of waters of the Snake River.

There is also enclosed two copies of your Form No. 11 authorizing publication of the notice in the Minidoka County News, Rupert, Idaho, and in the North Side News, Jerome, Idaho. These forms are also certified to by an engineer as required by sec. 42-214 of the Idaho Code.

It would be appreciated if you would submit a bill to this office after you have received from the publishers the amounts due for printing the advertisement notices. I will then have a voucher prepared for your execution in order that you may be reimbursed for such amount.

Sincerely yours,

M. B. Austin

Notice for Publication

Notice is hereby given that at FOR COMPLETION OF WORKS
10 A.M., on the 14th day of February

1961, at Boise, County of Ada, State of Idaho,
 before John H. Welch proof will be submitted of the completion of works
 for the diversion of 240 cubic feet per second of the waters of Snake River

in accordance with the terms and conditions of a
 certain permit heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name of the person or corporation holding said permit is The United States of America, acting
through the Regional Director, Region 1, Bureau of Reclamation of the Dept. of the Interior

2. The postoffice address of such person or principal place of business of such corporation is P. O. Box 937,
Boise, County of Ada, State of Idaho.

3. The number of such permit is 26216, and the date set for the completion of such work is
March 1, 1961.

4. Said water is to be used for irrigation and domestic purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water
 which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying
 the application for such permit, is 240 cubic feet per second.

6. The amount of lands for which said water is available is 13,650 acres, located in Unit A of the
North Side Pumping Division of the Minidoka Project, described as follows:

T. 9 S., R. 21 E., secs. 25, 35, 36

T. 10 S., R. 21 E., secs. 1, 2, 3, 4, 8, 9, 10, 11, 12, 13, 14, 15, 16, 21, 22, 23, 24
T. 10 S., R. 22 E., secs. 3, 4, 5, 6, 7, 8, 9, 10, 11, 15, 16, 17, 18, 19, 20

26216

State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

RE: Permit No. 26216

Date January 3, 1961

Regional Director Region 1
Bureau of Reclamation
Boise, Idaho

Dear Sir:

Under the terms of your Permit No. 26216 you are required to make proofs of completion of works and application of water to beneficial use on or before March 1, 1961.

We enclose Form 6 to be filled in and sworn to by you before a Notary Public, and returned to this department on or before the above date, for making proof of completion under the permit. Upon receipt of this affidavit, provided same satisfactorily shows the completion of works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--by 40-acre legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

Also enclosed is Form 11, which is the authorization for us to have the Notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

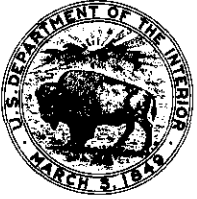

At the time we send the notice to the newspaper will will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Dear Mr. Carter:

As you know, Application No. 33971, Permit No. 26216, pertaining to the pumping plant for the pumping of water from the Snake River to Unit A of the North Side Pumping Division of the Minidoka Project, requires that one-fifth of the work be completed on or before August 29, 1958. This is to notify you that one-fifth of the work was completed on that date and, in fact, it is expected that the work will be completed well before the final date of March 1, 1961, set out in the permit.

If we can be of any further help to you in this matter, please let us know.

Sincerely yours,

Wm H Tuller

Assistant Regional Director

IN REPLY REFER TO:

RECEIVED
MAY 21 1956
Department of Reclamation

Mr. Mark R. Kulp
State Reclamation Engineer
Boise, Idaho

MAY 18 1956

Dear Mr. Kulp:

In connection with Permit No. 26216 relating to the diversion of water from the Snake River for Unit A lands of the North Side Pumping Division, Minidoka Project, which was issued on February 29, 1956, it is to be noted that provision is made that the work is to begin on or before April 29, 1956.

In view of this requirement to begin construction before April 29, I am providing for your records official notice that the work started before April 29. The irrigation works for the 13,650 acres of Unit A lands consists of a 240 second-foot pumping plant located approximately two miles above Milner Dam, and a canal 4-1/2 miles long with 45 miles of distribution laterals. As of April 29, the main canal was substantially completed, the pumping plant was 85% complete, and the lateral system was about 25% complete. The discharge line of the pumping plant is in place, the pumping plant substructure is completed with all the pumps in place, but the pumps have not been connected to the motors. The super-structure steel and 10-ton crane have been installed in the pumping plant. The plant is scheduled for initial operation to prime and puddle canal in October of this year. The laterals are scheduled to be completed in December of this year, and the contractor's progress indicates that the work will be completed on time. On May 12 a land drawing was held for 107 farm units in Unit A and settlement will take place this fall. The entrymen will use irrigation water from the Unit A irrigation system in the spring of 1957. Total expenditures as of this time for this work is in excess of \$975,000.

We will provide you with the necessary information under the permit when the work has been completed. Meantime, if you desire any additional information concerning the progress of the work it will be provided. Please note your records that the United States has complied with the requirements of Permit No. 26216 that the work begin on or before April 29, 1956.

Sincerely yours,

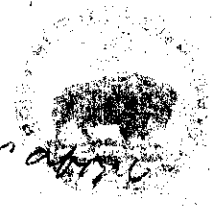

W. H. Tuller

January 25, 1956

ATTENTION: Mr. Clifford E. Fix

Dear Mr. Fix:

I have the Stipulation dated the 28th day of December, 1955, between the United States acting through the Regional Director, Region One, Bureau of Reclamation and the Council for the Twin Falls Canal Company and North Side Canal Company, Inc. on the priority of existing rights over a right initiated by the United States by application to the State Reclamation Engineer for the State of Idaho for Permit to appropriate 240 cubic feet per second of the waters of the Snake River for irrigation and domestic use on the North Side Extension Unit of the Minidoka Project.

The said Stipulation will be filed in the records of the Permit, but the suggested language of the Stipulation will not be added to the Permit as all permits are issued subject to existing rights and the suggested language would be superfluous. The Permit will be subject to existing rights of others than the stipulating parties.

The terms of the Stipulation will be observed by the Watermaster of District No. 36 and the State Department of Reclamation so long as they do not conflict with the statutory responsibilities of the Watermaster in the distribution of the public waters of the State of Idaho.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

26216

STIPULATION

WHEREAS, on November 21, 1955, the United States, acting through the Regional Director, Region One, Bureau of Reclamation, Boise, Idaho, made application to the State Reclamation Engineer for the State of Idaho, for permit to appropriate 240 cubic feet per second of the waters of the Snake River for irrigation and domestic purposes on the North Side Extension Unit of the Minidoka Project, and

WHEREAS, the Twin Falls Canal Company and the North Side Canal Company, Ltd., have acquired, in full compliance with the laws of the State of Idaho, under decrees entered in the Courts of Idaho, and by actual use, a prior right to the use of the natural flow of the Snake River, and by contract with the United States and by actual use, having acquired prior rights to the use of storage water in American Falls and Jackson Lake Reservoirs, and specifically the right to the use of releases from American Falls Reservoir in the spring prior to the actual filling of said reservoir, and have continually used said waters on lands on the Twin Falls and North Side Projects for irrigation and municipal purposes.

NOW, THEREFORE, IT IS HEREBY STIPULATED AND AGREED, by and between the United States, acting through the Regional Director, Region One, Bureau of Reclamation, Boise, Idaho, and counsel for the Twin Falls Canal Company and North Side Canal Company, Ltd., that all rights arising by, under or through any permit or license issued pursuant to said application dated November 21, 1955, shall be subject to all existing water rights of Twin Falls Canal Company and North Side Canal Company, Ltd., including, but not limited to, the long used and exercised rights of said companies and each of them, to use water from American Falls Reservoir, in the early part of each irrigation season, when needed, but with the provision that if the said reservoir thereafter fills that such water so used earlier shall be deemed to have

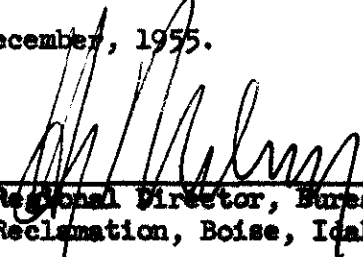

26216

been natural flow, and that such use shall not diminish or affect the right of the parties to have and use its full pro rata part of the storage water in said reservoir, and that any permit or license if issued pursuant to said application shall, if possible, contain the following proviso:

"All rights arising by, under or through this permit shall be subject to all existing water rights of Twin Falls Canal Company and North Side Canal Company, Ltd., including, but not limited to, the long used and exercised rights of said companies and each of them to use water from American Falls Reservoir, in the early part of each irrigation season, when needed, but with the provision that if the said reservoir thereafter fills that such water so used earlier shall be deemed to have been natural flow, and that such use shall not diminish or affect the right of the parties to have and use its full pro rata part of the storage water in said reservoir."

It is expressly understood and agreed, however, that the absence of the above quoted language in said permit shall in no way change or modify the stipulation and agreement herein contained, and it is expressly understood and agreed that nothing herein shall affect any existing contracts between the United States and the Twin Falls Canal Company and/or the North Side Canal Company, Ltd.

DATED This 28th day of December, 1955.

Regional Director, Bureau of
Reclamation, Boise, Idaho.

26216

December 22, 1955

Minidoka County News
Rupert
Idaho

Gentlemen:

We acknowledge receipt of duplicate affidavits of publication in connection with application of the Bureau of Reclamation to appropriate 240 cubic feet per second of the water of Snake River which was published three times from December 1 to December 15 inclusive, in addition to your statement for \$7.59, cost of publication.

We wonder if this amount is not in error. This is the amount for the two publications, November 17 and November 24, on Application for extension of time on Permit No. 20736, which reached us a short time ago and which is being processed for payment. Since this later publication is longer and was published for three times instead of two, we wonder if there is not some error in the amount.

We therefore return the statement for your consideration together with one affidavit, which please return.

Very truly yours,

MARK R. KULP

900 feet East from the Southwest
Corner of Section 24, Township
10 South, Range 21 East, B. M.
and is in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of said
Section.

That the place of use of said
water is described as approxi-
mately 13,650 acres in Sections
25, 35 and 36, Township 9 South,
Range 21 East, B. M.; Sections
31 and 32, Township 9 South,
Range 22 East, B. M.; Sections
1 to 4 inclusive, Sections 8
to 16 inclusive, Sections 21 to 24
inclusive, Township 10 South,
Range 21 East, B. M.; and Sec-
tions 3 to 11 inclusive, Sections
15 to 20 inclusive, Township 10
South, Range 22 East, B. M.

That any protests against the
approval of this application must
be filed in the Department of
Reclamation, at Boise, Idaho,
within forty (40) days from the
date of this notice, and such pro-
test shall state the name and
address of the protestant, and
shall clearly set forth his objec-
tions to the approval of said ap-
plication.

Dated this 22nd day of Nov-
ember, 1955.

MARK R. KULP,

RE: Application No. 39971

Minidoka County News
Rupert
Idaho

Gentlemen:

We have checked the notice on the above numbered application of the Bureau of Reclamation appearing in your issue of December 1st and find two typographical errors as follows:

1. In the fifth line of the notice the word Idaho should follow the word Boise.
2. In the last line of the second paragraph the description should be SW¹/₄SW¹/₄.

Please make these corrections in your subsequent issues.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Application No. 33971

Mr. Wm. H. Tuller
Acting Regional Director
Region No. 1
P. O. Box 937
Boise, Idaho

Dear Mr. Tuller:

We acknowledge receipt of your letter of November 25, 1955, returning Notice on the above numbered Application with instructions to publish it once a week for three weeks at your expense.

We will accordingly send a copy of this Notice to the Northside News at Jerome, Idaho, and the Minidoka County News at Rupert, Idaho, with instructions to publish it once a week for three weeks commencing with their next issue and to send us Affidavits of publication when completed.

The cost of the publication can be handled in a similar manner to other legals from the Bureau, that is, we will have the statement made out to this Department and will then notify you of the amount so that you may draw vouchers to cover.

Very truly yours,

12. The time required for the completion of such work is five years.

13. The time required for the complete application of the water to the proposed use is ten additional years.

14. The land to be irrigated is described in the following tabulation:

(Give irrigable acreage in each 40-acre subdivision)

Twp.	Range	Sec.	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				SE $\frac{1}{4}$				Totals
			NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	
			The lands to be irrigated are shown on the attached map entitled "Unit A Water Development Plan" Drawing No. 701-107-4340 and the attached irrigable acreage tabulation totaling 13,650 out of a total of 14,215 arable acres. As the project system is constructed and the final irrigable acreage established there will be some adjustment of the precise lands which will comprise the 13,650 irrigable acres.																

Total Number of Acres to be Irrigated.....

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:.....

26216

16. (a) Is reservoir to be used? yes (If so, fill in (b) and (c) below.)

(b) Name of reservoir and number of Storage Permit: American Falls, License No. R-269
Palisades, Permit No. R-670

(c) Date of filing of Application for Storage Permit and Name of Applicant: American Falls, License No. R-269 granted to the United States of America with a priority date of March 30, 1921.

Remarks: Palisades Permit No. R-670, with a priority date of July 28, 1939, held by the United States through an assignment from Lynn Grandall, Watermaster of District No. 36.

Remarks: This application is for the Unit A lands of the North Side Pumping Division of the Minidoka Project, a Federal Reclamation Project authorized under the Act of September 30, 1950 (64 Stat. 1083). This application is to cover the natural flow, if any, available subsequent to all prior rights, both natural flow and storage, including prior rights held by the United States for other divisions of the Minidoka Project. It is also to be the application for the diversion of storage water from American Falls and Palisades Reservoirs to be available to these lands under appropriate repayment arrangements between representatives of the project water users and the United States. The amount of water available is subject to the foregoing existing rights and is subject to contractual arrangements concerning utilization of return-flow water from Federal Reclamation Projects and the water savings available from operational and water exchange agreements. The amount of space expected to be contracted for from American Falls Reservoir is 47,593 acre-feet and from Palisades Reservoir is 90,000 acre-feet.

BE IT KNOWN That the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

The United States of America

Applicant.

REGIONAL OFFICE, REGION I
BOX 937, BOISE, IDAHO

IN REPLY REFER TO:

RECEIVED
NOV 21 1955

Department of Reclamation

NOV 18 1955

Mr. Mark R. Kulp
State Reclamation Engineer
Boise, Idaho

Dear Mr. Kulp:

I am enclosing for filing an application for permit to cover the diversion of waters from the Snake River at the Unit A pumping plant of the North Side Division of the Minidoka Project, Idaho. The application is enclosed in duplicate. Also enclosed is a voucher covering the statutory fee. Please execute this voucher and return it to this office. The usual treasury check will be made available to your office promptly.

As you know, this project is relying almost wholly on stored water, and particular emphasis is made to the material appearing in the application under the heading "Remarks". We recognize that as to stored water the unit will have the water available under the applicable priorities of the reservoirs involved, and that the priority date given as of the filing of this application will be concerned only with river flows over and above those necessary to meet all prior rights, both natural flow and storage.

If you desire further information in connection with this application it will be provided promptly.

Sincerely yours,

H. T. Nelson

H. T. Nelson
