**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

IN THE MATTER OF APPLICATION)
FOR TEMPORARY CHANGE OF A)
WATER RIGHT No. TC-01-12 IN THE)
NAME OF TWIN FALLS CANAL CO.)
AND NORTH SIDE CANAL CO.)

**ORDER AUTHORIZING
TEMPORARY CHANGE**

WHEREAS, a drought emergency has been declared for Twin Falls, Jerome, Gooding and Counties to allow administrative actions to lessen the severe impacts of the drought conditions in the counties; and

WHEREAS, section 42-222A, Idaho Code, provides that upon declaration of a drought emergency, the director of the Department of Water Resources ("Department") is authorized to allow temporary changes in the point of diversion, the place of use, and the purpose of use for valid existing water rights when the director determines that such changes can be accomplished in accordance with the provisions of section 42-222A, Idaho Code; and

WHEREAS, on August 2, 2001 the Twin Falls Canal Company and North Side Canal Company ("applicants") submitted the attached Temporary Change Application ("application") to the Department; and

WHEREAS, the Department has reviewed the application and has determined the application can be approved with certain conditions;

ORDER

IT IS HEREBY ORDERED that the application is **APPROVED** subject to the following conditions:

1. Diversion and use of right no(s). 01-209 and 01-210 is authorized only at the point of diversion and place of use described on the application.
2. The watermaster of Water District No. 01 is authorized to administer the temporary change approval. The watermaster shall regulate and keep a record of the amount of water diverted and accumulated as proposed by the application, including the exchange of contract water rights owned by the applicants.
3. The applicant assumes all risk of curtailment or mitigation should the diversion and use of water under the temporary change approval cause injury to other water rights, constitute an enlargement in use of the original right, be inconsistent with the conservation of water resources within the

state of Idaho, or not be in the local public interest.

4. This temporary change approval may only be used to provide a replacement water supply to lands or other uses which normally have a full water supply, except for the drought condition. This temporary change approval may not be used to provide water for new development or to allow expansion of the use of water under existing water rights.
5. This temporary approval does not authorize the use of diversion works or a delivery system owned by or managed by a corporation or an irrigation district without the written consent of such corporation or irrigation district.
6. The applicant agrees to hold the director and the state of Idaho harmless from all liability on account of the diversion and use of water under this temporary change approval.
7. This temporary change approval does not grant any right-of-way or easement to use the diversion works or conveyance works of another person or entity.
8. The applicant shall measure the amount of water diverted and shall report the amount of water diverted under this approval.
9. This temporary change approval expires on October 15, 2001 unless rescinded or extended by the director. Thereafter, the water right shall revert to the point of diversion, place of use and nature of use existing prior to the temporary change approval.
10. By diversion and use of water under this temporary change, the applicant acknowledges and agrees that the Director may terminate diversion of water under this temporary change if the Director determines there is interference with or injury to other water rights.

DATED this 14TH day of AUGUST, 2001.

Norman C. Young, Administrator
Water Management Division

AGREEMENT

This Agreement is made and entered into this 30 day of July, 2001, by and between Twin Falls Canal Company ("TFCC"), and North Side Canal Company, LTD ("NSCC") hereinafter collectively referred to as "Companies".

WITNESSETH:

WHEREAS, both Companies are Carey Act non-Profit irrigation water delivery companies with various natural flow and storage water rights appurtenant to the lands of their stockholders; and

WHEREAS, both Companies face shortages and possible shut-offs in irrigation water deliveries in the face of the drought of 2001 as natural flows decline and storage is diverted; and

WHEREAS, the Companies have worked out a plan for the mutual benefit of each company's stockholders including the lease of additional water, exchanging available supplies at agreeable times, and the sharing of supplies of storage and natural flow waters as hereinafter set out;

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. Term. This Agreement shall be effective for calendar year 2001 only.
2. Lease of Water. The Companies shall co-operate in securing up to 50,000 A/F by lease from A & B Irrigation District ("A & B") on such terms as are mutually agreeable, it being understood that A & B prefers a private lease with no Water District 01 Water Bank involvement, provided that if necessary to pursue the lease through the Water Bank, the Companies shall pay any administration costs of the Water Bank and the Idaho Water Resource Board. Said leases shall be approximately in the form of Exhibit "A" attached hereto. Each Company shall be responsible for the cash payments and payback of the water to A & B that is leased and diverted by each respectively.
3. Plan. If no extraordinary event occurs prior to August 27, 2001, the Plan is as set out at Exhibit "B" attached hereto. It suggests TFCC supplementing its supplies with NSCC storage water between August 27, 2001 and September 15, 2001. After September 15, 2001, TFCC's natural flow shall be stored in American Falls Reservoir to the credit of NSCC to the extent of the total acre feet of NSCC water diverted by TFCC between August 27, 2001 and September 15, 2001. After September 15, 2001, and after NSCC has been repaid, the Companies will return to use of their own water rights and supplies for any further diversions.
4. Exchange Agreements. The parties will use best efforts to seek approval of exchange agreements to facilitate the Plan of Article 3 heretof, pursuant to I.C. § 42-222(a).
5. Effective Date. This Agreement shall be effective after approved by the Board of

Directors of both TFCC and NSCC and the Exchange Agreements have been approved by the Idaho Department of Water Resources.

6. Termination. This Agreement shall be binding on both Companies for the year 2001, but may be amended, terminated or extended at any time on such terms as are mutually agreed by the parties.

IN WITNESS WHEREOF, the parties have hereunto set their hands on the day and year first set forth above.

RE: Temporary Change Application for Water Rights

Dear Mr. Dreher:

We appreciate your consideration of Temporary Water Exchange between North Side Canal Company and Twin Falls Canal Company. As outlined in Idaho Code, Section 42-222A, we are requesting exchange transfer of water between the two canal companies.

As stated, in the attached Temporary Change Application the request would allow Twin Falls Canal Company to use North Side Canal Company storage water in August until September 9, 2001. Both canal companies will turn-off for a week on September 9th and store their natural flow in American Falls Reservoir. After the shut-off period Twin Falls Canal Company will pay back North Side Canal Company the water accrued during the shut-off. This will allow both companies to harvest their late crops.

If you have any questions with this temporary change application between the two canal companies, please advise me.

Sincerely,

Ted Diehl, Manager

Subject: Temporary Change Application for Water Rights

Dear Mr. Dreher:

We appreciate your designation and acting Governor Jack Riggs' approval for granting the drought emergency declaration for all of Twin Falls County.

As outlined in Idaho Code, Section 42-222A, we are requesting to transfer irrigation water between the Twin Falls Canal Company and the North Side Canal Company.

As we enter August and look into September it has become obvious without some creative transfers both canal projects may suffer significant injury to crops and may also suffer crop losses.

As stated in the attached Temporary Change Application the request would allow Twin Falls Canal Company (TFCC) to use North Side Canal Company (NSCC) storage water in August and then Twin Falls Canal Company would store natural flow water in American Falls Reservoir in September. Both canal companies would turn off for about a week and then turn back on in mid September. During the shut off period the TFCC natural flow water would be stored in American Falls Reservoir and that accrued storage would be paid back to NSCC and if a balance exists TFCC would supplement natural flows or NSCC could use the stored water as needed.

If you have any questions with this temporary change application for water rights please advise me.

Sincerely,

Vince Alberdi
General Manager

Watermaster Comments

From: Carlson, Ron
Sent: Friday, August 10, 2001 11:31 AM
To: Luke, Tim
Subject: RE: Twin Falls - North Side Exchange

Tim & Glen

The complaint I got was from the manager of Milner Irrigation District. They would not get any water even if Twin Falls shut off - their priority is too late in time. The fact is that Twin Falls has never shutoff in the past. The only reason they would shut off would be for the reason outlined in their exchange request. Consequently I do not think they have ever given up control of their water right in a way that would cause it to go to the next appropriator in line. Therefore I do not believe in the specific case of Twin Falls Canal there are good arguments for injury. After they do it and we have new data something might surface that we will want to consider in future years if the same request is made again.

Glen,

I believe this is Ron's watermaster comments on the proposed TFCC/NSCC exchange. I am forwarding this on to you along with the original filings that you gave last Friday. I will not have time to work on this immediately do my commitment to the shortage analysis. I think we may need some further explanation from Ron as to why the Minidoka complaint is not legitimate.

Subject: Twin Falls - North Side Exchange

Tim-

I have been working with Twin Falls to help them find ways to extend their water supply. Vince Alberdi talked to me about storing their natural flow and I told him that Twin Falls was in the unique position of being the only company on the Snake River who could actually store natural flow without injury to other users. The manager of Milner Irrigation District called me and objected to the exchange. His argument was - "If Twin Falls shuts off we should get the water." I do not find the complaint to be legitimate and believe the Twin Falls North Side exchange should be approved,

Ron

To: Olenichak, Tony
Cc: Saxton, Glen; Carlson, Ron
Subject: FW: NSCC Agreeemnet

Tony, I came in briefly this weekend. I looked at that faxed agreement from Ted Diehl. I see several concerns with this proposal and documentation:

- OK 1) The copy of the faxed agreement we received from Ted is not signed by TFCC nor is it notarized (note however that I did receive a message from TFCC on Friday indicating that Vince Alberdi would be faxing a copy of the agreement to us on Monday). *see fax copy of 8/6/01 from TFCC.*
- OK 2) Before IDWR takes any action, it seems that we probably need the lease agreement between A&B and NSCC-TFCC that is referenced in item 2 of the NSCC/TFCC agreement. *— separate Temp Transfer/Exchange*
- 3) Condition No. 2 of the Conditions attached to the TFCC/NSCC agreement may contain an error, typo or miscalculation. Is it 2000 af/day (1000 cfs/day) or 4000 af/day (2000 cfs/day)? We may want to request clarification.
- OK 4) Allen Merritt pointed out that part of the NSCC area is not within a declared drought emergency. I believe the same can be said of the TFCC area as I think not all of Twin Falls County or the TFCC area has been declared an emergency. This may be a concern but is one IDWR probably needs to address. *Both counties declare drought in whole.*
- OK 5) Concern of injury to junior water right holders by storing a natural flow water right in American Falls Reservoir during the irrigation season. *see Ron Carlson's/water master comments of 8/10/01*

I plan to be on leave Monday and most or all of Tuesday. You may want to discuss this with Ron before the Director's meeting on Monday. I think we first need to work on getting a written comment on the temporary change application from Ron as watermaster, but he may want to wait until more of the documentation is received and/or Water District 01 questions like the ones we discussed on Friday are addressed. You may want to contact Glen Saxton if you have questions regarding processing of the temp change application.

Subject: NSCC Agreeemnet

Tony, I just spoke with Ted Diehl. He said he will fax the agreement to your office and my office. I told him to put it to your attention but it may end up going to Ron - look for it, let me know if you get it today. And yes, the agreement was written by Rosholt.

Ted also mentioned that he has a similar agreement with A&B irrigation District. Apparently, we will also see a temp change app whereby NSCC will use some A&B storage this year and NSCC will pay them back with stored flow next year. That one also sounds a little strange. Ted said the temp app had not been filed yet because he was waiting for Ling to finish the application or agreement. We'll see I guess.
