Before a license can be issued, a field examination must be made by a representative of this department.

A condition of approval of your original permit required the installation of a measuring device which, according to the proof card submitted by you, has not been installed. A measuring device must be installed and operating at the time the field examination is made. If a measuring device is not installed your permit may be subject to cancellation.

A field examiner will contact you to arrange to examine your system.

If you have any questions regarding the field examination, please contact this office by phone at 525-7161 or in person in the third floor State Office Building, 150 Shoup, Idaho Falls, Idaho.

HAROLD W. JONES

Dear Mr. Tuthill:

Department of Water Resources

Our typewriter is presently unusable, so please forgive this hand written letter.

Another apology is in order since this letter should have been mailed one month ago; we have been harvesting our crops during that time.

As per our telephone conversation of September 13, 1984, we requested a waiver of the lockable device for the permit since our diversion is not under the supervision of the Pahsimeroi water master. Also, at your direction, Mr. Keith Wilson of your department measured our water on July 16, 1984.

It should be noted that our pipeline right of way permit number with the BLM is I-16311. The beneficial use postcard is also enclosed.

Sincerely,

Ronald Rembelski
