IDAHO POWER COMPANY
(Applicant)

By Glenn J. Hall
Vice President
15-7006

NOTICE OF APPLICATION FOR WATER

Notice is hereby given that the Idaho Power Company, P.O. Box 70, Boise, Idaho, has on August 1, 1969, applied for permit under application No. 73-7006 to divert 40.0 cubic feet per second of water from Pahsimeroi River tributary of the Salmon River. Water will be diverted by concrete intake box with open ditch within the NW $\frac{1}{4}$ -NE $\frac{1}{4}$, Sec. 36, T. 16N, R. 20E,

B.M., Lemhi County and is to be used from March 1 to June 30 for fish propagation in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 25, T. 16N, R. 20E, B.M.

Any protest against this application must be filed with the Department of Reclamation within ten days from the last date of this notice.

NOTICE OF PROPOSED
CHANGE OF WATER
RIGHT
NO. 73-7006

Notice is hereby given that Idaho Power Company, Boise, Idaho, has applied to the Department of Water Resources for a change in the period of use of the waters of the Pahsimeroi River tributary to Salmon River. The right sought to be changed is evidenced by License No. 73-7006 and is recorded as follows:

AMOUNT: 40.0 cfs
PRIORITY: August 1, 1969.

POINT OF DIVER-
SION: NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec.
36, Twp. 16N, Rge. 20E,
Lemhi County.

The water is used from
March 1 to November 30
for fish propagation with-
in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 25,
Twp. 16N, Rge. 20E.

TO BE CHANGED AS
FOLLOWS

The right holder now
proposes to use the water
from January 1 to Decem-
ber 31.

Any protest against ap-
proval of the above pro-
posed change of water
right must be filed with
the Idaho Department of
Water Resources, 150
Shoup Ave., Idaho Falls,
Idaho, 83401, on or before
June 15, 1981.

WATER RIGHT LICENSE

License of Water Right No. 73-7006 Priority August 1, 1969 Amount 40.0 cfs

THIS IS TO CERTIFY, that IDAHO POWER COMPANY
of Boise, Idaho, has complied with the terms and conditions of Permit
No. 73-7006 issued pursuant to Application for Permit dated August 1, 1969,
and has submitted proof to the Department of Water Resources on October 6, 1975,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 45.0 cfs of water from the Pahsimeroi River,
tributary to the Salmon River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Fish Propagation from (holding adult steelhead)	from <u>March 1</u> to <u>Nov. 30</u>	at <u>40.0</u> cfs and	<u>n/a</u>
	from _____ to _____	at _____ cfs and	_____
	from _____ to _____	at _____ cfs and	_____
(both dates inclusive)			

Subject, however, to the condition that no more than 40.0 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
n/a acre feet per year, said waters to be diverted within the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 36,
Twp. 16 N, Rge. 20 E, B. M. in the County of Lemhi

Description and location of place of use:

Twp.	Range	Sec.	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				SE $\frac{1}{4}$				Totals
			NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	
16 N	20 E	25																X	

Total number of acres irrigated _____

A measuring device of a type approved by the Department shall be permanently
maintained as part of the diverting works.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 22 day of
June, 19 76.

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF EXTENDING THE PROOF DUE DATE }
IN CONNECTION WITH PERMIT NO. 73-7006 in the }
name of IDAHO POWER COMPANY }

ORDER

WHEREAS, on August 1, 1969, the Idaho Power Company applied to the Department of Water Resources (formerly the Department of Water Administration) for a permit to appropriate 40 cubic feet per second of water from the Pahsimeroi River, tributary to the Salmon River, within the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 36, Twp. 16N, Rge. 20E, B.M., Lemhi County, to be used for fish propagation purposes; and,

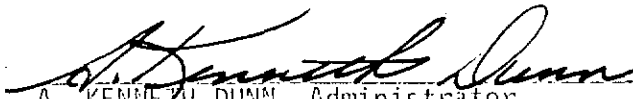

WHEREAS, on June 8, 1970, the Department approved said application and issued Permit No. 73-7006 with the condition that proof of construction of works and application of water to beneficial use be submitted to the Department on or before June 1, 1975; and,

WHEREAS, on May 22, 1975, the Department received a request for an extension of time for said permit; and,

WHEREAS, it has been determined that under the circumstances the permit holder has been proceeding with reasonable diligence and has given good cause for delay;

IT IS, THEREFORE, HEREBY ORDERED that the time within which to submit proof of beneficial use of water under Permit No. 73-7006 be extended to January 1, 1976.

Dated this 31st day of May, 1975.

RE: Application for Transfer No. 2563 on License No. 73-7006.

Gentlemen:

We are currently reviewing the above referenced application for transfer of the period of use for your fish propagation facility on the Pahsimeroi River.

Pursuant to Section 42-222, Idaho Code, this Department cannot approve an application for transfer that would increase the amount of water diverted under the existing license. The licensed rate of diversion is 10.0 cfs and the licensed period of diversion is March 1 through November 30. It appears that you have two options. One option is to reduce the rate of flow of the right to balance the increase in days diverted. Since the license is currently good for 245 days, an increase to a full year would necessitate a rate of flow reduction to 6.71 cfs. A second option is to maintain the license at status quo and proceed with development of your application for permit. 10.0 cfs

If you wish to proceed with the first option, please notify this office of such by September 1, 1981. If you wish to proceed with the second option, you can withdraw the application for transfer and we will begin to process the application for permit immediately. If we hear nothing from you by September 1, we will assume that you have selected the second option and will proceed with denial of the application for transfer.

If you have any questions, please contact me.

Sincerely,

DAVID R. TUTHILL JR., P. E.
Supervisor, Water Allocation Section

DRT:jg

Memo.

TO: File
From: Ernie

Date June 29, 1981

In conjunction with this application for transfer, Idaho Power Company also filed an application for permit. The intent of the application for permit was to establish a priority date for a new right should the Department decide to deny the transfer. Because the permit application is still being held in Eastern Region we would appreciate ~~being~~ being advised of the Dept's. decision.

NOTICE OF PROPOSED CHANGE OF WATER RIGHT

NO. 73-7006

Notice is hereby given that Idaho Power Company, Boise, Idaho, has applied to the Department of Water Resources for a change in the period of use of the waters of the Pahsimeroi River tributary to Salmon River. The right sought to be changed is evidenced by License No. 73-7006 and is recorded as follows:

AMOUNT: 40.0 cfs

PRIORITY: August 1, 1969

POINT OF DIVERSION: NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 36, Twp. 16N, Rge. 20E, Lemhi County.

The water is used from March 1 to November 30 for fish propagation within the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 25, Twp. 16N, Rge. 20E.

TO BE CHANGED AS FOLLOWS

The right holder now proposes to use the water from January 1 to December 31.

Any protest against approval of the above proposed change of water right must be filed with the Idaho Department of Water Resources, 150 Shoup Ave., Idaho Falls, Idaho, 83401, on or before June 15, 1981.

RE: Application for Transfer No. 2563 on License No. 73-7006.

Gentlemen:

We are currently reviewing the above referenced application for transfer of the period of use for your fish propagation facility on the Pahsimeroi River.

Pursuant to Section 42-222, Idaho Code, this Department cannot approve an application for transfer that would increase the amount of water diverted under the existing license. The licensed rate of diversion is 10.0 cfs and the licensed period of diversion is March 1 through November 30. It appears that you have two options. One option is to reduce the rate of flow of the right to balance the increase in days diverted. Since the license is currently good for 245 days, an increase to a full year would necessitate a rate of flow reduction to 6.71 cfs. A second option is to maintain the license at status quo and proceed with development of your application for permit.

If you wish to proceed with the first option, please notify this office of such by September 1, 1981. If you wish to proceed with the second option, you can withdraw the application for transfer and we will begin to process the application for permit immediately. If we hear nothing from you by September 1, we will assume that you have selected the second option and will proceed with denial of the application for transfer.

If you have any questions, please contact me.

Sincerely,

DAVID R. TUTHILL JR., P. E.
Supervisor, Water Allocation Section

June 8, 1976

Idaho Power Company
Attn: Gale C. Farley
Box 70
Boise, Idaho 83721

Dear Mr. Farley:

A representative of this Department has made an examination of the works covered by Permit No. 73-7006 and has found the following:

Quantity of water diverted: 45.0 cfs Source: Pahsimeroi River

Amount of water that can be recognized as beneficially used under
Idaho law: 40.0 cfs

Point of diversion: NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 36, Twp. 16 N, Rge. 20 E, B.M.,
Lemhi County

Beneficial use: Fish Propagation (holding adult steelhead) within the
SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 25, Twp. 16 N, Rge. 20 E, B.M.

Priority date established: August 1, 1969

Our examiner's report indicates that the period of use under this permit is from March 1 to November 30, whereas the permit lists March 1 to June 30. If the period of use is indeed thru November, please sign and return the enclosed application for amendment along with a \$10.00 filing fee within 30 days.

If we have not heard from you within the 30-day period, a water right license will be issued as set forth above for a period from March 1 to June 30. If you do not concur with these findings or have questions, please contact us.

Sincerely,

BOBBY D. FLEENOR
Chief, Water Rights

Idaho Power Company
P. O. Box 70
Boise, ID 83707

Gentlemen:

One of the conditions of approval of your water Permit No. 73-7006 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before June 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Application for Permit ~~Department of Reclamation~~

Dear Mr Higginson:

In reply to your letter dated September 30, 1969, concerning the above numbered application for permit we are enclosing the financial statement you requested and a print or functional drawing of the layout and general facilities.

The need for water at the Pahsimeroi River adult steelhead holding pond and egg taking station varies somewhat from the requirement at a full year operating fish hatchery. The Company's Federal Power Commission license provides for the return of approximately 5000 adult steelhead annually from prior hatchery releases of juveniles into Pahsimeroi River. The water requirements to maintain quality environment for the number of fish has been provided by the Idaho Fish and Game Department as stipulated by FPC license order.

Adult steelhead are expected at the facility during the months of March through June of each year. Diversion of water will occur during this period but, as presently anticipated, it will not be needed during the remainder of the year. In either case the use of the water will be non-consumptive and the return flow will reach the Pahsimeroi River as designed on the enclosed drawings.

Construction of the facility is now complete. It was begun in September, 1968, completed in February, 1969, and the project was put into full operation in March, 1969.

I hope this will provide you with the desired information. Should anything further be required, please advise.

Very truly yours,

Re: Application for Permit No. 73-7006

Idaho Power Company
P.O. Box 70
Boise, Idaho 83707

Dear Sirs:

In order to further consider your application for permit, we will require additional information not included with your application.

1. A financial statement indicating the resources available to complete the project as described in the application (see Section 42-203, Idaho Code).
2. A preliminary design of the hatchery facilities, indicating the size of raceways, general layout, the size of pipelines or other diversion works and such other information as will fully describe the method and means of diversion and verify the need for the quantity of water you have asked to appropriate.
3. A justification, based upon the preliminary design and the estimated production of the hatchery, for the amount of water requested.
4. An estimated schedule of construction giving dates for the start of construction, the finish of construction, and the date that full operation of the hatchery is anticipated.

You should be aware that all applications, if approved, will require the installation and maintenance of adequate measuring devices, both at the point of diversion and the point of return of the water to the creek. These devices must be of a type approved by the Department of Reclamation. They can be of any generally recognized standard measuring device type. You should include the installation of these devices in your preliminary plans for construction.

I would appreciate receiving this information by October 29, 1969. Thank you for your cooperation.

Very truly yours,

C. Stephen Allred, Acting Deputy
State Reclamation Engineer
