Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid.

## INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

### Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

|                           |                     |                |                      |                             |
|---------------------------|---------------------|----------------|----------------------|-----------------------------|
| Date of priority claimed: | <u>May 18, 1871</u> | amount:        | <u>0.8 c.f.s. or</u> | <u>          </u> acre feet |
|                           | <u>June 1, 1901</u> | amount:        | <u>0.4 c.f.s. or</u> | <u>          </u> acre feet |
|                           |                     | Total claimed: | <u>1.2 c.f.s. or</u> | <u>          </u> acre feet |

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Reclamation, Room 107, Statehouse, Boise, Idaho 83701, is \$10.00.

Attention: Mr. R. Keith Higginson,  
State Reclamation Engineer

Dear Mr. Higginson:

In the October 23 edition, as well as the October 30 edition of The Challis Messenger, Notices of Claim to a Water Right, namely, No. 73-4001 and No. 73-4003, the first in behalf of Bert Hatch and J. G. Baldwin, and the second in behalf of J. G. Baldwin only, were published. No. 73-4001 claims the right to 6.0 cubic feet per second of water from Goldberg Creek tributary to the Pahsimeroi River, with a priority date of October 20, 1909. No. 73-4003 claims 3.2 cubic feet per second from Pahsimeroi River with a priority date of February 6, 1910.

Mr. Stanley Hull is the owner of land being sold under contract to Mr. James Whittier, a portion of which land has water rights from Goldberg Creek and from the Pahsimeroi River. The points of diversion as described in the application as made by Bert Hatch and J. G. Baldwin in No. 73-4001, as well as the point of diversion described in No. 73-4003, would appear to be above the point of diversion of Mr. Hull's point of diversion, or in any event, to indicate some adverse affects on water rights held by Mr. Hull with a priority date preceding any priority dates claimed by the applicants in these two instances. Accordingly, this letter will serve as the exception in behalf of Mr. Hull and Mr. Whittier to the claims as filed. Will you kindly acknowledge receipt of this letter and the filing of the exception.

In the event Mr. Hatch and Mr. Baldwin should desire to contact either myself or Mr. Whittier, and would satisfactorily file appropriate documents with your office which would acknowledge the priority of any water rights of Mr. Hull and Mr. Whittier, the matter can probably be handled without the necessity of a hearing.

Very truly yours,

*Louis Racine*

Gentlemen:

In reference to the above claims, enclosed is a copy of an exception filed by Mr. Louis F. Racine, Jr. in behalf of Stanley Hull and James Whittier in connection with these claims under the provisions of Chapter 2, Section 42-225b of the Idaho Code, which states the following:

"At anytime after filing a claim under the provisions of this section, any person who disagrees that a right has been established as set forth in said claim may file an exception thereto in duplicate, in affidavit form, accompanied by such proof as said person deems appropriate. An exception filed shall be made a part of the file of the claim in the Department of Reclamation and shall be considered the same as other evidence in said file. A copy of an exception filed shall be forwarded to the claimant by the Department of Reclamation. Such claims may be corrected by the claimant only by filing of an amended claim in the same form as the original which shall be recorded and numbered by the Department the same as the original and for which no additional filing fee shall be required."

Only the above action has been contemplated by the Idaho Legislature and we are not authorized to hold hearings or evaluate for final censorship or conformation of the described rights.

Re: Claim to a Water Right No. 73-4003

J. G. Baldwin  
May, Idaho 83253

Dear Mr. Baldwin:

The Department of Reclamation has completed the processing of your claim to a water right, and no further action is authorized under Section 42-225 of the Idaho Code. Notice of your claim was published and no one has filed an exception to your claim. Your claim will remain in our files and will be available at any time for your or the courts use.

As you are aware, the filing of your claim does not, in itself, guarantee you a water right, it only records and preserves the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or evidence that you would like to have included in your claim file, you may add that information at any time. Please refer to your claim number when corresponding with this office.

We are enclosing, for your records, a copy of your claim. If you have any questions or if we can be of further assistance, please feel free to call upon us.

Very truly yours,

Donald W. McEldowney  
Appropriation Examiner

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid.
