WATER RIGHT LICENSE

License of Water Right No. 73-2165 Priority September 23, 1966 Amount 2.05 cfs

THIS IS TO CERTIFY, that Pines Grazing Association
of May, Idaho, has complied with the terms and conditions of Permit
No. 73-2165 issued pursuant to Application for Permit dated September 23, 1966,
and has submitted proof to the Department of Water Resources on October 2, 1972,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 2.05 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	<u>from April 1 to November 1</u>	<u>at 2.05 cfs</u>	<u>and 874.2 acre feet</u>
_____	from _____ to _____	at _____ cfs	and _____
_____	from _____ to _____	at _____ cfs	and _____

(both dates inclusive)

Subject, however, to the condition that no more than 2.05 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
874.2 acre feet per year, said waters to be diverted within the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 13, Twp.

Remarks: The irrigation well has now been drilled with an 18-inch diameter and pump and motor are in the process of installation. Existing water rights are as follows:

240 inches with priority of November 24, 1909, from Big Creek appurtenant to ~~N $\frac{1}{2}$ NE $\frac{1}{4}$~~ , NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 12, T. 13 N., R. 22 E.B.M. and other lands in Sec. 1, said township and range, and 300 inches with priority of April 25, 1885, from Spring Creek appurtenant to W $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$ of said Sec. 12, said township and range and other lands in Sec. 11, Sec. 13 and Sec. 14, said township and range. These decreed water rights are insufficient for irrigation of the said lands in Section 12 for which this Permit is applied due to the fact that the waters from these creeks are often insufficient to fill the decrees for a substantial portion of each year and also for the reason that the lands are of a very gravelly nature and require approximately 2 inches of water per acre for adequate irrigation. This application is for a supplemental water permit.

Dear Sirs,

A representative of this Department made an examination of the works covered by your Permit No. 73-2165 on June 28, 1977, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 2.05 cfs Source: groundwater

The maximum quantity diverted shall not exceed 874.2 acre feet
per year.

Point of diversion: NWNE Section 13, Twp 13N, Rge 22E

Beneficial use: Irrigation of 1 acre in the NENE Section 11, 115 acres
in the NW, 119 acres in the SW Section 12, 4 acres in the NWNE, 1 acre
in the SWNE, 54 acres in the NW Section 13, Twp 13N, Rge 22E
Priority date established:

September 23, 1966

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Gentlemen:

One of the conditions of approval of your water Permit No. 33219/73-2165 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 30, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-33219/73-2165

Pines Grazing Association
Garth T. Chivers, Secretary
Challis, Idaho 83226

Dear Mr. Chivers:

On August 30, 1971, we received a request for an extension of time on your Permit No. G-33219/73-2165. In our reply of September 1, 1971, we requested additional information and asked that you complete the extension of time form which we sent you. However, we have not received a reply to our request for more information, nor have we received a completed extension of time request.

Before the Department is able to grant an extension of time, the permittee must show that he has proceeded with the development of his project with diligence. For this reason, we would ask that you complete the enclosed application for an extension of time, indicating the amount of work that has been accomplished on your project, the amount of work that remains to be completed and the time schedule you have for completing that project.

Please let us hear from you within twenty (20) days, so that your permit might remain in good standing.

If you have questions concerning this matter, please let us know.

Sincerely,

Bobby D. Fleenor
Assistant Director

Gentlemen:

One of the conditions of approval of your water Permit No. G-33219/73-2165 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 30, 1971. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-33219/73-2165

% H. B. Fitzpatrick
Blackfoot, Idaho

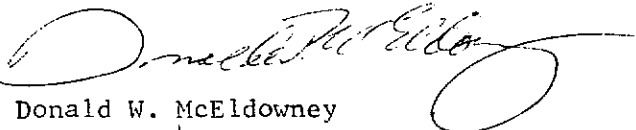

Dear Mr. Fitzpatrick:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Re: Permit - Estate of Felipe Yribar, Deceased

Gentlemen:

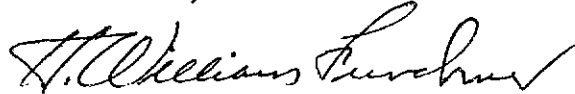

We enclose herewith the application above-mentioned executed by H. B. Fitzpatrick, one of the Executors of the above-named estate, together with his check in the amount of \$8.25.

Due to an extreme drouth in the Pahsimeroi Valley, it has been necessary to construct an irrigation well to furnish an additional supply of irrigation water. The area has been declared to be a disaster area and eligible for Federal aid in the construction and equipping of irrigation wells if the application for such aid is made and filed prior to October 1, 1966. A copy of a Water Permit is required with the application.

We would very much appreciate your securing the issuance of this Permit and return of a certified copy thereof to us at the earliest possible date so that we may participate in this Federal aid. We enclose a copy of the Permit for this purpose and have included the certificate fee in the above check.

(a) _____ (Cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.

(b) _____ (cubic feet per second, inches or gallons per minute) is for new lands.

Remarks: The irrigation well has now been drilled with an 18-inch diameter and pump and motor are in the process of installation. Existing water rights are as follows:

240 inches with priority of November 24, 1909, from Big Creek appurtenant to $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 12, T. 13 N., R. 22 E.B.M. and other lands in Sec. 1, said township and range, and 300 inches with priority of April 25, 1885, from Spring Creek appurtenant to W $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$ of said Sec. 12, said township and range and other lands in Sec. 11, Sec. 13 and Sec. 14, said township and range. These decreed water rights are insufficient for irrigation of the said lands in Section 12 for which this Permit is applied due to the fact that the waters from these creeks are often insufficient to fill the decrees for a substantial portion of each year and also for the reason that the lands are of a very gravelly nature and require approximately 2 inches of water per acre for adequate irrigation. This application is for a supplemental water permit.
