RE: WATER RIGHT NO. 73-02162

Dear Mr. and Mrs. Wunsch:

Our files indicate that you have filed a notice in the Snake River Basin Adjudication claiming ownership of water right 73-02162. We recently discovered a typographical error on the original license issued in 1978 for water right 73-02162. The document listed the 277.5 acre place of use as being in T13N, R23E, S29, when it should have listed T13N, R23E, S20. An amended license document has been created, and a copy is enclosed for your records.

If you have any questions, please contact me at 208-327-7946 in Boise.

Dear Mr. Baldwin:

One of the conditions of approval of your water Permit No. G-33152/73-2162 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 12, 1971. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-33152/73-2162

Mr. J. G. Baldwin
May,
Idaho

Dear Mr. Baldwin:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney
